1. Description of the Plan

The following brief description of the RailWorks Corporation Incentive Plan (the Plan) is provided only for general information purposes. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of RailWorks Corporation (the Company) who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants may enter the Plan immediately upon meeting the eligibility requirements discussed above.

Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and holds the Plan's investment assets and executes investment transactions.

Participant Contributions

Participants may contribute up to 75% of their pretax annual compensation to the Plan up to the maximum allowable under Internal Revenue Code (IRC) Section 402(g). Effective December 31, 2009, all eligible employees, unless affirmatively electing otherwise, are automatically enrolled in the Plan for the higher of the participant's selection or 3% of their compensation. In addition, each participant, having automatic enrollment contributions made on his or her behalf, shall have the deferral increased annually by 1%, limited to 6% of compensation, unless the participants elected a higher deferral amount.

Employer Contributions

The Plan includes a qualified automatic contribution arrangement. As part of this arrangement, all participants receive a match equal to 100% of their first 1% of deferrals and 50% of their next 5% of deferrals (that is, deferrals that are above 1% but do not exceed 6%). The match under this arrangement is vested 20% after one year of service, and upon completion of two years of service, it is 100% vested. For the Plan years ended December 31, 2019 and 2018, the Company made a matching contribution in the amount of $2,391,040 and $1,941,204.

The Plan also includes a non-elective discretionary employer contribution. This contribution is allocated to participant accounts based on the ratio of each eligible participant's compensation to total eligible compensation for the period. The non-elective discretionary employer contribution is 100% vested after five years of credited service, starting at 20% after one year, with an additional 20% for each year of service thereafter. The Company did not make a non-elective discretionary contribution for the years ended December 31, 2019 and 2018.

Participant Accounts

Each participant's account is credited with the participant's own contributions, an allocation of any Company contributions, and an allocation of the Plan's earnings. Allocation of Company contributions is based on compensation and the amount of each participant's contributions. The Plan's earnings are allocated based on the participant's earnings, balances of participant accounts and specific participant transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrolling in the Plan, a participant may direct the investment of his or her account into any of the investment options offered by the Plan. Participants may change their investment options daily.

Contributions Receivable

Contributions that are pending transfer to Fidelity as of December 31, 2019 and 2018, are recorded as contributions receivable by the Plan in the statements of net assets available for benefits.

Notes Receivable from Participants

The Plan allows participants to borrow from their individual accounts in the Plan. These loans are limited to the lesser of $50,000 or 50% of the participant's vested account balance with a minimum loan of $1,000. Loans are repaid through payroll deductions over periods of up to five years. Loans for the purchase of a principal residence may be repaid over ten years. The interest rate is determined by the Plan administrator based on prevailing market conditions and is fixed over the life of the loan.

During 2019 and 2018, distributions totaling $493 and $6,220, respectively, were used to satisfy Plan loan defaults, which have been recorded as deemed distributions in the accompanying statements of changes in net assets available for benefits.

Vesting

Participants are immediately vested in their rollover contributions and employee pre-tax contributions, plus actual earnings thereon. Vesting in the remainder of their accounts plus actual earnings thereon is based on years of continuous service. The match contribution is vested 20% after one year of service, and upon completion of two years of service, it is 100% vested. The non-elective discretionary employer contribution is 100% vested after five years of credited service, starting at 20% after one year, with an additional 20% for each year of service thereafter.

Forfeited Accounts

Forfeitures are used to reduce future employer contributions or pay administrative expenses. During the years ended December 31, 2019 and 2018, $0 of the forfeited amounts were used to reduce employer matching contributions or pay administrative expenses. At December 31, 2019 and 2018, there were unallocated forfeitures of $235,114 and $144,985, respectively.

Payment of Benefits

Upon retirement, death, disability or termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Provided the balance is greater than $5,000, participants may elect payment in the form of a lump-sum distribution, installment distribution or a combination of the lump-sum and installment distributions. If the value is greater than $1,000 but less than $5,000, an automatic Individual Retirement Account (IRA) rollover of the vested account balance will be made; if the value is less than $1,000, a lump-sum distribution will be made to the participant, unless otherwise directed.

Transfer of Assets

Certain employees are eligible to transfer their balances out of the Plan as they become eligible to join the Company's union plan. Assets transferred into the Plan are comprised of balances from previously unionized employees who transferred into the Plan. During the years ended December 31, 2019 and 2018, there were no transfers into or out of the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, as further discussed in Note 5. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded at December 31, 2019 or 2018.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Transaction fees, such as distribution, withdrawal and investment buying or selling fees, are paid by the Plan and charged directly to the participants. Investment fees are presented net of investment gains and losses on the statements of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

4. Information Certified by Plan's Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivables from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the Trustee of the Plan.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

The Plan had no financial assets that were measured at fair value on a nonrecurring basis or Plan liabilities recorded at fair value at December 31, 2019 or 2018. There were no transfers between levels during the years ended December 31, 2019 and 2018.

Mutual Funds

These are valued at the unadjusted quoted market price, which represents the net asset value (NAV) of shares held by the Plan at year-end.

Common/Collective Trust

Unit values are calculated based on the net assets of the underlying securities of the common collective trust. The NAV, as provided by Fidelity, is used as a practical expedient to estimate fair value. The underlying securities in the common collective trust include various debt securities and securities that are listed on national securities exchanges and valued on the basis of year-end closing prices. The investments in the common collective trust are redeemable at NAV on a daily basis.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets that are accounted for at fair value on a recurring basis.

December 31, 2019

		Investment Assets in the Fair Value Hierarchy		
	Total	Level 1	Level 2	Level 3
Assets				
Mutual funds	$ 65,620,322	$ 65,620,322	$ -	$ -
Common/collective trusts, measured at NAV*	2,497,624			
Total	$ 68,117,946	$ 65,620,322	$ -	$ -

December 31, 2018

		Investment Assets in the Fair Value Hierarchy		
	Total	Level 1	Level 2	Level 3
Assets				
Mutual funds	$ 50,118,386	$ 50,118,386	$ -	$ -
Common/collective trusts, measured at NAV*	3,259,156			
Total	$ 53,377,542	$ 50,118,386	$ -	$ -

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. Related-Party Transactions and Party-in-Interest Transactions

The Plan's investments include shares of mutual funds and common/collective trusts offered by Fidelity. Loans issued to participants are also party-in-interest transactions.

7. Tax Status

The Plan sponsor adopted the Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement (CODA). Accordingly, the Plan is permitted to rely on the Fidelity Management Trust Company opinion letter. The Internal Revenue Service (IRS) has determined and informed Fidelity Management Trust Company, by a letter dated March 31, 2014, that the Plan is designed in accordance with the applicable sections of the IRC. Plans that adopt prototype documents are no longer required to file for an individual determination letter. Although the Plan has been amended from the original prototype document, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent Events

Subsequent events have been evaluated through October 14, 2020, the date the financial statements were available to be issued. There were no subsequent events requiring adjustments to or additional disclosure to the financial statements except as follows:

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has incurred significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief and Economic Security Act (the CARES Act). The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Extend the period for loan repayments, if applicable, up to one year
