Note 1 – Description of the Plan

The following description of the Bright Home Health Care, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established on January 1, 2017, to provide financial benefits for eligible employees of Bright Home Health Care, Inc. (the "Company"). The Plan is a defined contribution plan qualified under Section 401(k) of the U.S. Internal Revenue Code ("IRC") covering all employees of Company.

Employees who are least 21 years old and have completed one (1) year of service are eligible to participate in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participant's contributions are subject to a maximum dollar limit as determined under IRC regulations. Participants may also contribute amounts representing distributions from other qualified plans. The Company makes a safe harbor contribution matching 100% of the first 4% of salary deferrals. In addition, the Company may make matching contributions or profit sharing contributions but is not required to do so. The Company's safe harbor contribution for 2019 amounted to $21,946.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contributions and Plan earnings. Each participant's contributions are invested separately according to the participant's investment direction so that each participant's account realizes appreciation and depreciation based on related investment performance. Plan earnings are calculated and credited to participant's account on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Due to an administrative error, certain participants deferred more than allowed under applicable provisions of the Internal Revenue Code. For the years ended December 31, 2019 and 2018, $4,000 and $55,000, respectively, was recorded as excess contribution payable in the accompanying financial statements and paid in the subsequent year.

Note 1 – Description of the Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on years of continuous service, whereby partial vesting begins after two years of service and are fully vested after six years of service.

On termination of service due to death, disability, retirement or other reasons, participants may receive the value of the participant's vested balance in his or her account. Participants may elect to defer distributions until retirement except for balances less than $5,000.

Participant Loans

The Plan does not permit participant loans.

Forfeitures

When certain terminations of participants in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are allocated to participants in the same manner as employer matching contributions. During the year ended December 31, 2019, $8,717 of forfeitures were allocated to participants. There are no unallocated forfeitures as December 31, 2019 and 2018.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by quoted market prices. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for plan benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest is accrued when earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note 3 – Tax Status

The Plan is a standardized prototype plan and has not been submitted to the Internal Revenue Service (IRS) for a determination as to whether it meets the qualification requirements of IRC Section 401(k). The IRS issued an opinion dated April 2, 2012, stating that the prototype plan was designed in accordance with applicable IRC requirements as of that date. Management of the Company believes that the Plan is designed and is being operated within the terms of the Plan, and in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Fair Value Measurements

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value that provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable or can be corroborated by observable market data.

Level 3 – Valuations based on models where significant inputs are not observable. Unobservable inputs are used when little or no market data is available and reflect the Plan's own assumptions about the assumptions market participants would use.

At December 31, 2019, the Plan's investments consist entirely of publicly traded mutual funds and all were valued using Level 1 inputs.

Note 5 – Investments

The plan assets are invested in mutual funds based on the participant's specified allocation percentages.

The Plan has no instrument that, in part or in whole, is accounted for as a derivative instrument under accounting standards generally accepted in the United States of America during the current plan year.

Note 6 – Plan Administration

Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the plan. The Company paid $12,096 in direct administrative fees for the Plan during 2019.

Note 7 – Plan Amendment and Termination

The Company may amend the Plan at any time provided that no amendment will divert any part of the Plan's assets to any purpose other than for the exclusive benefit of the participants in the Plan or eliminate an optional form of distribution.

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of termination, all amounts credited to participants' accounts will be fully vested and will be paid to the participants.

Note 8 – Information Prepared and Certified By the Custodian of the Plan

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as accurate and complete by the custodian.

	2019	2018
Investments at fair value	$ 274,201	$ 181,146
Investment income:		
Net appreciation in fair value of investments	42,450	
Interest and dividends	11,441	

Notes 9 – Risks and Uncertainties

The Plan invests in various mutual funds. Investment in mutual funds is exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Subsequent Events

Subsequent to year end, the United States experienced a pandemic of the COVID-19 virus. The pandemic has affected, and may continue to affect, economic activity globally, nationally and locally, and has led to significant volatility in financial markets. Economic conditions, market conditions and other effects of the pandemic may continue to affect the Plan, but the extent of the impact is uncertain and cannot be reasonably estimated.

The Plan has evaluated all other subsequent events and transactions through October 15, 2020, the date the financial statements were available for issue. The Plan has determined that there are no other subsequent events that require recognition or disclosure in the financial statements.

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of termination, all amounts credited to participants' accounts will be fully vested and will be paid to the participants.

Note 8 – Information Prepared and Certified By the Custodian of the Plan

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as accurate and complete by the custodian.

	2019	2018
Investments at fair value	$ 274,201	$ 181,146
Investment income:		
Net appreciation in fair value of investments	42,450	
Interest and dividends	11,441	

Notes 9 – Risks and Uncertainties

The Plan invests in various mutual funds. Investment in mutual funds is exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Subsequent Events

Subsequent to year end, the United States experienced a pandemic of the COVID-19 virus. The pandemic has affected, and may continue to affect, economic activity globally, nationally and locally, and has led to significant volatility in financial markets. Economic conditions, market conditions and other effects of the pandemic may continue to affect the Plan, but the extent of the impact is uncertain and cannot be reasonably estimated.

The Plan has evaluated all other subsequent events and transactions through October 15, 2020, the date the financial statements were available for issue. The Plan has determined that there are no other subsequent events that require recognition or disclosure in the financial statements.
