Notes to Financial Statements
December 31, 2019

Note 1 – Description of the Plan

The following description of the Clark Group 401(k) Profit Sharing Plan & Trust (the "Plan", formerly known as "Charles Clark Chevrolet 401(k) Profit Sharing Plan & Trust") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established January 1, 2002. It covers, immediately upon employment, all employees of Charles Clark Chevrolet (the "Company") and Clark Knapp Motor Co. who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended, effective January 18, 2019.

Effective January 18, 2019, the Clark Knapp Motor, Co., LLC 401(k) Profit Sharing Plan & Trust was merged into the Charles Clark Chevrolet 401(k) Profit Sharing Plan & Trust, at which time the Plan was renamed "Clark Group 401(k) Profit Sharing Plan & Trust". As a result of the merger, $1,194,226 of net assets available for benefits at fair value were transferred into the Plan.

Contributions - Participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals each payroll period. Each year the Company determines the formula for the discretionary matching contribution. For the years ended 2019 and 2018, the matching contribution was of an amount equal to 10 percent of salary deferral up to the first 5 percent deferred. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of (a) Plan losses and (b) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective deferrals, including catch up contributions, and rollover contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service, subject to a six-year graded vesting schedule. Participants will always, however, be 100% vested in the Company's matching contributions if the participant is employed on or after their normal retirement age (65 years old) or upon termination due to death or as a result of becoming disabled.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of 50 percent of their vested account balance or $50,000, and the loan must be in the form of a signed note with a reasonable and definite repayment schedule. The loan must provide at least quarterly payments under a level amortization schedule and Participant is required to enter into payroll deductions or repaid by the participant to the Company. In no instance may the term of the loan exceed five years unless the loan qualifies as a home loan, as defined by the Plan. Home loans may not exceed thirty years. The loans are secured by the vested balance in the participant's account and bear

interest varying between 4.25 – 6.50 percent, which is commensurate with the local prevailing rate as determined by the Plan administrator.

Payment of Benefits - Upon termination of service due to death, retirement, disability, or other reasons, a participant receives a mandatory lump-sum distribution if the vested account balance does not exceed $5,000. If the vested account balance exceeds $5,000, the participant may choose the method of distribution as specified in the Plan agreement.

Forfeited Accounts - At December 31, 2019 and 2018, forfeited non-vested accounts totaled $192 and $846, respectively. Forfeitures are used first to pay reasonable Plan expenses and then used to reduce future employer contributions. Plan expenses paid by forfeitures totaled $0 and $4,972 for the years ended December 31, 2019 and 2018, respectively.

Note 2 – Summary of Significant Accounting Policies

Basis of Financial Statement Presentation - The financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates - In preparing the financial statements, the Plan administrator is required to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts, which are recorded at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividends date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Plan to the extent of forfeited non-vested accounts; the excess is paid by the Company. The Plan will assess against an individual Participant's account certain Plan expenses that are incurred by, or are attributable to, a particular Participant based on the use of a particular Plan feature.

Date of Management's Review - Subsequent events were evaluated through October 12, 2020, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Cash and cash equivalents: Recorded at cost, which approximates fair value.

Mutual Funds: Valued at a daily calculated NAV and is traded at the settlement price established each day by the board of trade or exchange on which they are traded.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held in the underlying mutual fund investments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018. Classification within the fair hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

December 31, 2019	Total	Fair Value Measurements at Reporting Date Using: Level 1	Level 2
Mutual funds	$ 4,232,290	$ 4,232,290	$ -
Interest-bearing cash	249,008	-	249,008
Total investments at fair value	$ 4,481,298	$ 4,232,290	$ 249,008

December 31, 2018	Total	Fair Value Measurements at Reporting Date Using: Level 1	Level 2
Pooled Separate Accounts*	$ 2,375,602	$ -	$ 2,375,602
Total investments at fair value	$ 2,375,602	$ -	$ 2,375,602

*Pooled Separate Accounts are valued based on NAV provided by the fund managers. The NAV provided by the fund managers is not quoted in an active market and is therefore considered Level 2. There are no unfunded commitments. There are no redemption restrictions.

The Company evaluates the significance of various inputs to assess the appropriate classification of the Plan's investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Transfers between levels are evaluated for their significance based upon the nature of the investment and size of the transfer relative to the net asset available for benefits. For the years ended December 31, 2019 and 2018, there were no transfers between levels within the fair value hierarchy.

Note 4 – Investment Contract with Insurance Company

The investment contract with an insurance company is a group annuity contract with Sentry Life Insurance Company ("Sentry") from inception through January 18, 2019. Participant-directed contributions are invested in selected Pooled Separate Accounts primarily invested in mutual funds and in a guaranteed fund.

The guaranteed fund is a traditional fully benefit-responsive investment contract and is measured, presented and disclosed at contract value within the Statement of Net Assets Available for Benefits. Sentry maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract has certain restrictions that impact the ability to collect the full contract value. For example, the Plan may not withdraw more than 20 percent of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. In the event of contract discontinuance by either the Plan or Sentry, the distribution of the guaranteed fund could be at other than contract value, depending on current interest rates at the time of distribution.

The contract value of the guaranteed fund at December 31, 2019 and 2018 was $0 and $1,189,638, respectively.

Effective January 18, 2019, the Plan changed trustees from Sentry Life Insurance Company to Fidelity Management Trust Company. The contract includes investment offerings through mutual funds and a money market account.

Note 5 – Related Party Transactions

The Plan fully absorbs and is responsible for administrator fees, which totaled $2,744 for the Plan year ended December 31, 2019. Forfeitures are used first to pay reasonable Plan expenses. The Company fully absorbs the remaining administrative expenses which totaled $18,484 for the Plan year then ended. These transactions are exempt party-in-interest transactions.

Certain employees of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by letters dated November 26, 2001, March 31, 2008 and March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note 8 – Excess Contributions Payable

At December 31, 2019 and 2018, payables of $16,107 and $0, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

Note 9 – Concentrations

At December 31, 2019, all investments of the Plan are in mutual funds or in a money market account placed with Fidelity Management Trust Company, the trustee of the Plan.

Note 10 – Information Prepared and Certified by Trustees

The following information included in the accompanying financial statements and supplemental schedule of assets as of and for the years ended December 31, 2019 and 2018 was obtained from data that has been prepared and certified to as complete and accurate by the trustees, Fidelity Management Trust Company and Sentry Life Insurance Company:

Note 12 – Risk and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, market, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13 – Prohibited Transactions

Late remittances of participant contributions totaled $0 and $270,029 for the plan years ending December 31, 2019 and 2018, respectively. These amounts are included in the attached Schedule of Delinquent Participant Contributions. All contributions were remitted during the Plan year. The late remittance of funds is a technical violation of the provisions of ERISA even though the Company does not profit from the transactions. Lost earnings totaling $192 were remitted in 2019.

Note 14 – Transfer of Plan Assets

Effective January 18, 2019, the Plan changed trustees from Sentry Life Insurance Company to Fidelity Management Trust Company. The contract includes investment offerings through mutual funds. As of February 12, 2019, all of the Plan's net assets were transferred into the new Plan.

Note 15 – Subsequent Events

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, has triggered volatility in financial markets and a significant negative impact on the global economy. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve and is unknown as of the date of this report.

On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), the bipartisan economic relief package aimed at helping American workers and businesses impacted by the coronavirus pandemic. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act. Such provisions include allowing certain eligible Plan participants to receive coronavirus-related distributions, delaying participant loan repayments and increasing the maximum amount of such participant loans, and suspending required minimum distributions.
