Note 1. Plan Description

The following brief description of the Midwest Express Acquisition Co 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General: The Plan is a defined contribution plan sponsored by Midwest Express Acquisition Co (the Company) for the benefit of employees that have attained the age of 18 and have completed one month of service, as defined. Participants enter the Plan on the first day of each month following meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may enroll to contribute up to 100% of pre-tax annual compensation, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined. The Company makes a safe harbor matching contribution of 100% of the first 3% a participant defers and 50% of the next 2% that a participant defers. The Company may also make an additional discretionary matching contribution. Contributions are subject to certain limitations.

Investment options: Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions and receives allocations of Plan earnings and administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon.

Payment of benefits: On termination of service due to termination, death, disability, or retirement, a participant may elect to receive a lump-sum amount, equal to the value of the participant's vested interest in his or her account.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. Loan maturities are for up to 5 years or longer if used to purchase a primary residence. Loans bear interest at a rate of prime plus one percent at the time the loan is issued. Principal and interest are paid ratably through payroll deductions.

Forfeited accounts: At December 31, 2019 and 2018, there were $721 and $1,283 worth of forfeited nonvested accounts. Forfeited accounts may be used to pay plan expenses or reduce future Company contributions. During 2019, $1,283 worth of forfeitures were used.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, and changes therein. Actual results may differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Refunds payable: At December 31, 2019 and 2018 refunds payable of $657 and $0, respectively were recorded for amounts payable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

Note 3. Information Certified and Provided by Mid Atlantic Trust Company

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following asset and income information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	December 31, 2019	2018
Shares of registered investment companies	$ 528,521	$ 316,523
Net appreciation in fair value of investments	$ 54,851	
Interest and dividends	$ 22,413	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 528,521	$ -	$ -	$ 528,521

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 316,523	$ -	$ -	$ 316,523

Note 4. Fair Value Measurements (continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan Administrator evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain Plan investments are shares of registered investment companies managed by Mid Atlantic Trust Company, the custodian of the Plan. Fees paid by the Plan to Mid Atlantic Trust Company amounted to $3,047 for the year ended December 31, 2019.

Certain employees of the Company provide administrative and trustee services for the Plan and are not reimbursed for their services from the Plan. Certain other expenses of the Plan are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7. Tax Status

Effective January 1, 2016, the Plan adopted a non-standardized plan sponsored by Paychex Inc. The non-standardized plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The non-standardized plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Events

The Plan Administrator has evaluated the impact of events that occurred subsequent to December 31, 2019 through the date these financial statements were issued. Based on this evaluation, management does not believe there are any subsequent events that occurred that would require further disclosure or adjustments to the financial statements, except as follows:

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic which continues to spread throughout the United States, triggering volatility in financial markets and a significant negative impact on the global economy. As of the date the financial statements were available to be issued, there was considerable uncertainty around the expected duration of this pandemic. Although the fair value of the plan's investments may have significantly declined since the Plan's year end, the eventual financial impact to the Plan, participants, and Plan Sponsor cannot be reasonably estimated at this time.

Note 10. Reconciliation to Form 5500

Following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2019 and 2018:
