Note 1. Plan Description

The following description of the Honda 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan was established on January 1, 2014 by American Honda Motor Company, Inc. (Plan Sponsor). The Plan allows participants an opportunity to contribute according to provisions of Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan Administrator responsibilities are carried out by the Honda 401(k) Savings Plan Committee (the Committee). The Plan allows eligible associates of certain adopting employers to participate in the Plan.

Fidelity Management Trust Company (Fidelity) is the trustee of the Plan. The trustee holds the Plan's assets and executes transactions therein based upon specific authorization of the Plan Administrator or participants.

Contributions: Under the terms of the Plan, eligible associates (other than Japanese national associates and student associates) with at least three months of service may participate in the Plan. Participants are automatically enrolled in the Plan with an elective pre-tax deferral rate of 6% of compensation, increasing each January 1 thereafter by 1% until such elective deferral rate is 10% (15% commencing January 1, 2019) of compensation, unless the participant affirmatively elects out of the automatic deferral feature, elects a different deferral rate, or elects not to participate in the Plan. A participant may authorize payroll deductions ranging from 1% to 75% of their base salary. The Employer matching contributions equal 100% of the first 6% of each participant's basic contribution. The Employer savings contribution is awarded to all eligible participants that were hired on or before September 3, 2013 and is equal to 3% of the participant's compensation. In addition, eligible associates hired on or after September 4, 2013, or elected to discontinue participation in the Honda Pension Plan effective January 1, 2014 receive an Employer service-based contribution that ranges from 2% to 8% of the participant's compensation based on years of service. The Plan also permits associates to transfer funds from other qualified plans into the Plan as rollover contributions. Such transfers must be approved by the Plan Administrator. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the associate's contributions, employer's contributions, an allocation of investment earnings and is charged with an allocation of investment and administrative expenses. Allocations are based on the participant's selected funds allocation percentages. Investment income is allocated to participant accounts by investment fund balance on a daily basis. This allocation is based upon the ratio of each participant's weighted average fund balance to the total of all participants' fund balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Associate contributions are 100% vested at all times. Employer matching and savings contributions credited to a participant's account are fully vested at the time the contributions are made. Vesting in the Employer service contributions is based on years of service, where a year is defined as 365 days. Vesting in the employer service contributions along with earnings thereon is as follows:

Investment options: Participants may allocate their contributions to any of the various funds provided by the Plan. Participants may transfer account balances among the different funds on a daily basis.

Notes receivable from participants: The Plan permits loans to participants up to 50% of their vested account balance for not less than $1,000 and not to exceed $50,000. Participants are allowed one outstanding loan at a time. The term for repayment shall be no longer than five years nor less than twelve months. Loans bear a reasonable rate of interest as determined by the Committee. Principal and interest is paid ratably through periodic payroll deductions.

Distributions: A participant's vested account will be distributed upon retirement, termination, disability or death. Distributions are made in a lump sum or in installments not to exceed the life expectancy of the participant. A participant may make an in-service withdrawal due to financial hardship or upon attainment of age 59½. Such withdrawals are subject to approval.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Associate contributions and employer matching contributions are recognized when the associate contributions are withheld from the associate's earnings. The employer savings and service contributions are recognized weekly.

Distributions: Benefits are recognized when paid.

Administrative expenses: Fees charged by the trustee and other administrative fees incurred by the Plan are charged to and paid directly by the Plan Administrator or the Plan participants, as directed by the Committee.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued interest. Delinquent loans are treated as distributions based upon terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ significantly from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2020, the date the financial statements were available to be issued.

Note 3. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Administrator by a letter dated October 23, 2013, that the Plan and its underlying trust qualify under the applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would be sustained upon examination. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statements of changes in net assets available for benefits.

Note 4. Parties in Interest Transactions

Certain Plan investments are shares of registered investment companies (through the self-directed brokerage accounts) managed by Fidelity. Fidelity is the trustee, as defined by the Plan; therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for administrative and other services provided by Fidelity approximated $1,206,000 and $1,268,000 for the years ended December 31, 2019 and 2018, respectively. In addition, the Plan paid approximately $1,903,000 and $1,868,000 for certain expenses related to plan operations to various service providers for the years ended December 31, 2019 and 2018, respectively.

Note 5. Information Certified and Provided by Fidelity

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2019 and 2018, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

The following table presents the fair value of the Plan's assets as certified by the trustee as of December 31:

	2019	2018
Investments, at fair value:		
Registered investment companies	$ 559,747,613	$ 1,047,155,645
Money market fund	3,547,551	2,052,184
Self-directed brokerage accounts	81,424,651	68,465,576
Common collective/collective investment trusts	4,495,519,085	3,111,235,947
	$ 5,140,238,900	$ 4,228,909,352
Notes receivable from participants	$ 80,400,381	$ 77,961,418

Fidelity certified to the completeness and accuracy of the net appreciation (depreciation) in fair value of investments of $851,727,155 and $(328,248,524) for the years ended December 31, 2019 and 2018, respectively, and interest and dividends of $50,028,707 and $61,866,905 for the years ended December 31, 2019 and 2018, respectively. Fidelity also certified the completeness and accuracy of the interest income on notes receivable from participants of $4,800,467 and $4,364,482 for the years ended December 31, 2019 and 2018, respectively.

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets of liabilities in active markets that the Plan has the ability to access.

Note 6. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018:

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common collective/collective investment trusts: Valued at the total of the NAV of the underlying securities held by the account at year end. The Plan's interest in the common/collective trusts are valued based on the information reported by the investment advisor.

Money market fund: Valued at the closing price reported on the active market on which the fund is traded, generally at $1 per share.

Self-directed brokerage accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 559,747,613	$ -	$ -	$ 559,747,613

Total assets at fair value	$ 1,117,673,405	$ -	$ -	$ 4,228,909,352

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer or investments from one fair value to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 6. Fair Value Measurements (Continued)

Note 9. Subsequent Event

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (COVID-19) as a pandemic, and the President of the United States declared the COVID-19 outbreak as a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

In response to the COVID-19 pandemic, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was passed by Congress. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document. The Plan has allowed Coronavirus affected associates to initiate coronavirus-related in-service distributions without the normal 10% penalty for early withdrawal from the Plan through December 31, 2020, option for associates taking such a distribution to recontribute the amount back to the Plan within three years, allow taxes on the coronavirus-related withdrawal to be paid over 3 years, and increased the loan limit to $100,000 for 180 days after enactment through December 31, 2020.
