1. Description of the Plan including summary of significant accounting policies

The following brief description of the Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement Plan administered by Stronghold Engineering, Inc. (the "Company", "Plan Sponsor", "Plan Administrator" or "Employer"); it was established on January 1, 1997. The Plan was last amended and restated effective January 1, 2015. The Plan includes Davis-Bacon or state prevailing wage contract employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers participants working under the terms of prevailing wage contracts that provide for employer prevailing wage contributions.

Eligibility

The Plan provides that employees who: (1) have reached the age of 18 years and (2) completed three months of service to the Company in which at least 250 hours are worked, are eligible to participate in the Plan. Participants, once eligible, may begin deferring a portion of their compensation into the Plan. Employees are eligible for discretionary matching contributions if they are working for the Plan Sponsor on the last day of the plan year and have completed at least 1,000 hours of service during the plan year.

The Plan provides that Davis-Bacon or state prevailing wage contributions are not subject to minimum age or service requirements. See Plan agreement for complete description for prevailing wage provisions. Participants that are covered by the contract, will be eligible for the employer prevailing wage contribution immediately following their date of hire.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, and subject to the annual limits of the Internal Revenue Code ("IRC"). At December 31, 2019 and 2018, the imposed limit was $19,000 and $18,500, respectively. Participants who have attained the age of 50 are allowed an additional "catch-up contribution" not to exceed $6,000 in 2019 and 2018. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Rollover contributions for the year ended December 31, 2019 were $11,608.

Participants also have the option to make elective after-tax contributions to a Roth 401(k). Total Roth contributions for the year ended December 31, 2019 was $113,213. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may elect to change their investment options directly through Empower at any time.

Swenson

1. Description of the Plan including summary of significant accounting policies (continued)

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless he/she affirmatively elects not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions in a designated balanced fund until changed by the participant. The automatic deferral is set to increase on a pre-tax deferral rate of 1% per year. Such increase shall be capped at a maximum of 8% of the participant's compensation. The participant has the option to opt out of such election.

Employer contributions may be made at the sole discretion of the Plan Sponsor. Contributions are subject to certain IRS limitations. The Plan Sponsor may also make a discretionary profit-sharing contribution. Employees receive a pro rata allocation based upon the employee's compensation. During the year ended December 31, 2019, the Plan Sponsor matched 25% of the employee contributions for a total of $85,082.

The Plan Sponsor also contributes the amount allowable as retirement contributions included under the general prevailing wage determinations in effect and used to determine compensation for Davis-Bacon or state prevailing wage contracts. Total contributions under the general prevailing wage determinations for the year ended December 31, 2019 amounted to $1,280,612.

Vesting

Participants are immediately 100% vested in their elective salary deferrals, rollovers, and any related investment earnings, gains and losses. Participants are immediately vested in Plan Sponsor prevailing wage contributions. Participants become fully vested in Plan Sponsor's matching contributions and profit sharing contributions and all related investment earnings, gains, and losses upon retirement or in the event of death or disability while employed by Stronghold Engineering, Inc. Otherwise, participants vest in Plan Sponsor's matching contributions and profit sharing contributions and all related investment earnings, gains, and losses according to the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5+	100%

A participant is credited with a year of vested service for each twelve-month period from date of employment until termination.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of Employer's contributions, if any, Plan earnings or losses and administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan. Participants direct their investment choices into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Swenson

1. Description of the Plan including summary of significant accounting policies (continued)

Forfeitures

Upon termination of employment, the non-vested portion of the participant's account balance is forfeited at the end of the plan year. Forfeited accounts are used to pay any administrative expenses or reduce Employer contributions. For the year ended December 31, 2019, forfeited accounts were used to pay administrative expenses totaling $9,224. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $64,925 and $49,453, respectively.

Notes receivable from participants

Participants may borrow against their vested balance at a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested balance. The Plan allows for only one outstanding loan at any given time. The notes receivable are secured by the vested balance in the participant accounts. The loan interest rate is determined by the Plan Sponsor based on prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Participants' notes receivable are for fixed terms, not to exceed five years, requiring regular periodic repayment by payroll deductions. A note receivable becomes immediately due and payable upon a participant's termination of employment, death, or disability. The notes receivable are valued at their outstanding balance plus accrued interest. Principal and interest is paid ratably through monthly payroll deductions. For the year ended December 31, 2019, there were loans totaling $44,820 that were considered in default, and were reported as deemed distributions in the statements of net assets available for benefits.

Benefit obligations

In conformity with guidance for accounting and disclosure by employee benefit plans, benefit obligations to terminated employees who have withdrawn from participation in the Plan are not accrued in the statements of net assets available for plan benefits; rather, such amounts are disclosed in the notes to the financial statements. There were no such benefit obligations as of December 31, 2019 or 2018.

Payment of benefits

Upon termination of service, death, or reaching retirement age (59 ½ years of age), participants may request a lump sum cash distribution equal to the value of their vested account balance or roll-over their vested account balance into an Individual Retirement Account ("IRA") or another qualified employer plan. However, if the account balance is less than or equal to $5,000, the participant does not need to request a distribution as the funds will be distributed to the participant automatically. Participants may request hardship distributions from their account balance for certain financial needs, as defined in the Plan.

Benefit payments are recorded when paid.

Administrative expenses

The Plan administrative expenses are paid by the Plan and/or the Company. For the year ended December 31, 2019, the Company paid $23,000, relating to Plan expenses.

(Continued)

1. Description of the Plan including summary of significant accounting policies (continued)

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

As a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits, as mentioned above. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee, Great-West Trust Company, LLC. See Note 5 for a description of the valuation methodologies used in determining the fair value of the Plan's investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

1. Description of the Plan including summary of significant accounting policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

2. Tax status

The Plan has adopted the provisions of a volume submitter 401(k) Plan. The Plan obtained its latest opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2019. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator and the trustee intend to amend the Plan on a timely basis to comply with all applicable, recently adopted tax laws and regulations.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

3. Plan termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated to the participants in accordance with the terms of the Plan.

4. Information certified by the trustee

5. Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 18,657,015**	**$ -**	**$ -**	**$ 18,657,015**
Total	**$ 18,657,015**	**$ -**	**$ -**	**$ 18,657,015**

5. Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,414,226	$ -	$ -	$ 16,414,226
Total	$ 16,414,226	$ -	$ -	$ 16,414,226

6. Related party and party in interest transactions

Certain Plan investments are shares of mutual funds managed by Great-West. Great-West is the trustee and the recordkeeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services amounted to $77,918 and $89,605, for the years ended December 31, 2019 and 2018, respectively.

7. Subsequent events

Management has evaluated subsequent events through October 14, 2020, the date on which the financial statements were available to be issued. No subsequent events were noted that would require disclosure.

The Plan adopted the distribution provision of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act that was signed into law on March 27, 2020. A CARES Act distribution allows the Plan's participants to take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. In addition, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted by the Plan allows qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020.
