1. PLAN DESCRIPTION

The following description of the MedeAnalytics, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by MedeAnalytics, Inc. (the "Employer", "Company" or "Plan Sponsor"), formerly known as MedeFinance, Inc., under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company administers the Plan.

Eligibility - Regular employees are eligible to participate on the first day of employment with the Company.

Contributions - Each year, participants may contribute from one percent to 100 percent of pre-tax annual compensation, as defined in the Plan and subject to certain limitations under the IRC. Participants may also make Roth contributions. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions of a maximum of $6,000 for 2019. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

Eligible employees are not automatically enrolled in the Plan.

The Plan provides for nondiscretionary Company matching contributions and for the year ended December 31, 2019, the Company matched each participant's deferral at the rate of 50 percent not to exceed six percent of the participant's compensation. The Company matching contribution was $535,259, net of forfeitures of $233,191, for the year ended December 31, 2019. The Company may make discretionary profit sharing contributions, which will be allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. The Company made no profit sharing contribution for the year ended December 31, 2019.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing contributions is based on years of continuous service, according to the following schedule:

Years of service	Percentage vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures - Forfeitures of Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. During the year ended December 31, 2019, forfeitures of $233,191 were utilized to reduce Company contributions and $1,500 were utilized to pay Plan administrative expenses,. As of December 31, 2019, forfeitures of $147,397 are available for future use.

Payment of Benefits - Upon termination for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or annual installments over any fixed period not exceeding the remaining life expectancy of the participant or beneficiary.

The Plan allows for automatic distribution of a terminated participant's account balance, amounting to less than $1,000. The distribution is to be made in the form of a lump-sum payment, as soon as administratively feasible, following the date of termination or death. A terminated participant with an account balance of between $1,000 and $5,000 will receive a distribution of his or her account balance paid into an individual retirement account.

Early Withdrawals - Participants age 59 ½ and above are permitted to withdraw, in a single sum, their vested account balance while still employed by the Company.

Investment Elections - Each participant may direct their account balance into one or more investment options offered by the Plan. Allocations must be in increments of one percent of each contribution. A participant may change such allocation and may transfer all or a portion of the value of his or her account in increments of one percent among the fund options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from information provided by Fidelity Management Trust Company (the "Trustee").

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's management determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 2, Fair Value for discussion of fair value measurements.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan may be paid by the Plan. Participants who take a loan from the Plan incur a one-time fee for establishing the loan. There is also a one-time distribution fee. All other administrative expenses are paid by the Company.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

Benefits Payable to Participants - Benefits are recorded when paid.

Fair Value - The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value ("NAV") of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Money Market Fund – Valued at the NAV of units held by the Plan at year-end. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This fund primarily invests in money market instruments, including short-term U.S. government and government agency securities. Participant's transactions (purchases and sales) may occur daily and have no restrictions on redemption frequency or notice period. 3. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments, at fair value and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.

b. Net appreciation of investments, interest and dividend income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

c. Investments and participant loans as of December 31, 2019 as listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

4. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. The loan interest rate shall bear a reasonable rate as determined by the plan administrator and is currently set at the prime rate. The loans are stated at the unpaid principal amount and are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

5. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

6. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated March 31, 2014. The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plans Compliance Resolution System. Although the Plan has been amended since receiving the tax opinion letter, the plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

In addition, the Plan utilizes investment advisors that received $20,005 in compensation paid by participants through the Plan.

9. DELINQUENT PARTICIPANT CONTRIBUTIONS

Certain contributions were not remitted timely to the Trustee as required by the Department of Labor's regulations. These late remittances are detailed in the attached Schedule H, Line 4a - Schedule of Delinquent Participant Contributions.

1. PLAN DESCRIPTION

The following description of the MedeAnalytics, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by MedeAnalytics, Inc. (the "Employer", "Company" or "Plan Sponsor"), formerly known as MedeFinance, Inc., under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company administers the Plan.

Eligibility - Regular employees are eligible to participate on the first day of employment with the Company.

Contributions - Each year, participants may contribute from one percent to 100 percent of pre-tax annual compensation, as defined in the Plan and subject to certain limitations under the IRC. Participants may also make Roth contributions. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions of a maximum of $6,000 for 2019. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

Eligible employees are not automatically enrolled in the Plan.

The Plan provides for nondiscretionary Company matching contributions and for the year ended December 31, 2019, the Company matched each participant's deferral at the rate of 50 percent not to exceed six percent of the participant's compensation. The Company matching contribution was $535,259, net of forfeitures of $233,191, for the year ended December 31, 2019. The Company may make discretionary profit sharing contributions, which will be allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. The Company made no profit sharing contribution for the year ended December 31, 2019.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing contributions is based on years of continuous service, according to the following schedule:

Years of service	Percentage vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures - Forfeitures of Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. During the year ended December 31, 2019, forfeitures of $233,191 were utilized to reduce Company contributions and $1,500 were utilized to pay Plan administrative expenses,. As of December 31, 2019, forfeitures of $147,397 are available for future use.

Payment of Benefits - Upon termination for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or annual installments over any fixed period not exceeding the remaining life expectancy of the participant or beneficiary.

The Plan allows for automatic distribution of a terminated participant's account balance, amounting to less than $1,000. The distribution is to be made in the form of a lump-sum payment, as soon as administratively feasible, following the date of termination or death. A terminated participant with an account balance of between $1,000 and $5,000 will receive a distribution of his or her account balance paid into an individual retirement account.

Early Withdrawals - Participants age 59 ½ and above are permitted to withdraw, in a single sum, their vested account balance while still employed by the Company.

Investment Elections - Each participant may direct their account balance into one or more investment options offered by the Plan. Allocations must be in increments of one percent of each contribution. A participant may change such allocation and may transfer all or a portion of the value of his or her account in increments of one percent among the fund options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from information provided by Fidelity Management Trust Company (the "Trustee").

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's management determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 2, Fair Value for discussion of fair value measurements.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan may be paid by the Plan. Participants who take a loan from the Plan incur a one-time fee for establishing the loan. There is also a one-time distribution fee. All other administrative expenses are paid by the Company.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

Benefits Payable to Participants - Benefits are recorded when paid.

Fair Value - The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value ("NAV") of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Money Market Fund – Valued at the NAV of units held by the Plan at year-end. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This fund primarily invests in money market instruments, including short-term U.S. government and government agency securities. Participant's transactions (purchases and sales) may occur daily and have no restrictions on redemption frequency or notice period. There are no unfunded commitments from participants who invest in this fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,789,135	$ -	$ -	$ 20,789,135

3. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments, at fair value and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.

b. Net appreciation of investments, interest and dividend income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

4. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. The loan interest rate shall bear a reasonable rate as determined by the plan administrator and is currently set at the prime rate. The loans are stated at the unpaid principal amount and are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

5. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

6. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated March 31, 2014. The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plans Compliance Resolution System. Although the Plan has been amended since receiving the tax opinion letter, the plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. 1. PLAN DESCRIPTION

The following description of the MedeAnalytics, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by MedeAnalytics, Inc. (the "Employer", "Company" or "Plan Sponsor"), formerly known as MedeFinance, Inc., under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company administers the Plan.

Eligibility - Regular employees are eligible to participate on the first day of employment with the Company.

Contributions - Each year, participants may contribute from one percent to 100 percent of pre-tax annual compensation, as defined in the Plan and subject to certain limitations under the IRC. Participants may also make Roth contributions. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions of a maximum of $6,000 for 2019. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

Eligible employees are not automatically enrolled in the Plan.

The Plan provides for nondiscretionary Company matching contributions and for the year ended December 31, 2019, the Company matched each participant's deferral at the rate of 50 percent not to exceed six percent of the participant's compensation. The Company matching contribution was $535,259, net of forfeitures of $233,191, for the year ended December 31, 2019. The Company may make discretionary profit sharing contributions, which will be allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. The Company made no profit sharing contribution for the year ended December 31, 2019.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing contributions is based on years of continuous service, according to the following schedule:

Years of service	Percentage vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures - Forfeitures of Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. During the year ended December 31, 2019, forfeitures of $233,191 were utilized to reduce Company contributions and $1,500 were utilized to pay Plan administrative expenses,. As of December 31, 2019, forfeitures of $147,397 are available for future use.

Payment of Benefits - Upon termination for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or annual installments over any fixed period not exceeding the remaining life expectancy of the participant or beneficiary.

The Plan allows for automatic distribution of a terminated participant's account balance, amounting to less than $1,000. The distribution is to be made in the form of a lump-sum payment, as soon as administratively feasible, following the date of termination or death. A terminated participant with an account balance of between $1,000 and $5,000 will receive a distribution of his or her account balance paid into an individual retirement account.

Early Withdrawals - Participants age 59 ½ and above are permitted to withdraw, in a single sum, their vested account balance while still employed by the Company.

Investment Elections - Each participant may direct their account balance into one or more investment options offered by the Plan. Allocations must be in increments of one percent of each contribution. A participant may change such allocation and may transfer all or a portion of the value of his or her account in increments of one percent among the fund options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from information provided by Fidelity Management Trust Company (the "Trustee").

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's management determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 2, Fair Value for discussion of fair value measurements.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan may be paid by the Plan. Participants who take a loan from the Plan incur a one-time fee for establishing the loan. There is also a one-time distribution fee. All other administrative expenses are paid by the Company.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

Benefits Payable to Participants - Benefits are recorded when paid.

Fair Value - The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value ("NAV") of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Money Market Fund – Valued at the NAV of units held by the Plan at year-end. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This fund primarily invests in money market instruments, including short-term U.S. government and government agency securities. Participant's transactions (purchases and sales) may occur daily and have no restrictions on redemption frequency or notice period. There are no unfunded commitments from participants who invest in this fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,789,135	$ -	$ -	$ 20,789,135

3. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments, at fair value and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.

b. Net appreciation of investments, interest and dividend income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

c. Investments and participant loans as of December 31, 2019 as listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

4. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. The loan interest rate shall bear a reasonable rate as determined by the plan administrator and is currently set at the prime rate. The loans are stated at the unpaid principal amount and are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

5. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

6. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated March 31, 2014. The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plans Compliance Resolution System. Although the Plan has been amended since receiving the tax opinion letter, the plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

Change in Company contributions receivable		30,919
Change in participants' contributions receivable		92,547
Net increase in net assets available for benefits per the Form 5500	$	3,852,674

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee. Transactions with the Trustee qualify as party-in-interest transactions for which exemptions exist. The Trustee received $3,325 for administration fees which were paid by the participants through the Plan and indirect compensation from certain mutual funds based on a formula. In addition, the Plan utilizes investment advisors that received $20,005 in compensation paid by participants through the Plan.

9. DELINQUENT PARTICIPANT CONTRIBUTIONS

Certain contributions were not remitted timely to the Trustee as required by the Department of Labor's regulations. These late remittances are detailed in the attached Schedule H, Line 4a - Schedule of Delinquent Participant Contributions.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through October 15, 2020, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements, except as disclosed below.

Effective May 8, 2020, the Plan was amended to change to a discretionary Company matching contribution.
