**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

| 1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. <b>Round off amounts to the nearest dollar.</b> MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. **Independent Auditor's Report**

Benefits Administrative Committee and  
Investment Committee of  
the Retirement Plan for Employees of Matson

**Report on the Financial Statements**

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Matson (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

**Basis for Disclaimer of Opinion**

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified or provided by First Hawaiian Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the Plan Administrator by the trustee is complete and accurate.

**Disclaimer of Opinion**

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Report on Form and Content in Compliance with Department of Labor Rules and Regulations**

The form and content of the information included in the financial statements, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## RETIREMENT PLAN FOR EMPLOYEES OF MATSON

### NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2019 AND 2018, AND FOR THE YEAR ENDED  
DECEMBER 31, 2019

---

#### 1. PLAN DESCRIPTION

The following description of the Retirement Plan for Employees of Matson (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete description of the Plan’s provisions.

**General**—The Plan, sponsored by Matson, Inc. (the “Company”), is a defined benefit pension plan generally covering salaried non-bargaining unit employees of Matson Navigation Company, Inc.; Matson Navigation Company of Alaska, LLC; Matson Terminals, Inc.; Matson Freight Agencies, Inc.; Matson Services Company, Inc.; Matson Logistics, Inc. (except those first employed after 2005); Matson Leasing Company, Inc.; and Matson Logistics Solutions, Inc. The Plan also covers: (1) regular clerical employees covered by the collective bargaining agreement between Matson Navigation Company, Inc. and ILWU Local 142 and (2) retired Special Officer employees who had been covered by the collective bargaining agreement between Matson Terminals, Inc. and ILWU Local 160 (Special Officers). The Benefits Administrative Committee of the Management of the Company controls and manages the operation and administration of the Plan. First Hawaiian Bank (the “Trustee”) serves as the trustee of the Plan, and together with several investment managers, manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Plan Amendments**— Effective August 3, 2019, the Plan was amended (Amendment No. 3) to include certain collective bargaining agreement employees between Matson Terminals, Inc. and ILWU Local 100.

**Pension Benefits**—Generally, eligible employees become eligible to participate in the Plan after one year of service. Matson Logistics, Inc. employees first employed after 2005 are not eligible to participate in the Plan. Effective January 1, 1968, the Plan became noncontributory. The Plan’s normal retirement age is 65 (62 for Special Officer employees). There are provisions for early and postponed retirement with relative adjustments in benefits. Normal retirement benefits are based on years of service and compensation. Generally, employees become fully vested after five years of service under the traditional defined benefit pension formula (“traditional formula”) or three years of service for employees covered under the cash balance benefits. If employees terminate before the earlier of normal retirement age or five years of service (or three years for those with cash balance benefits), they forfeit the right to receive their accumulated plan benefits upon retirement.

Effective December 31, 2011, the Company froze benefit accruals under the traditional formula for salaried, non-bargaining unit employees hired before January 1, 2008, and transitioned them to the same cash balance formula for salaried non-bargaining unit employees hired on or after January 1, 2008. Retirement benefits under the cash balance formula are based on a fixed percentage of employee eligible compensation, plus interest. The Plan’s interest credit rate will vary from year to year based on the 10-year U.S. Treasury rate. Upon termination of employment, the vested account can be paid out in the form of a lump sum or as a monthly annuity.

Retirement benefits for retired Special Officer employees are generally based on a flat dollar amount times years of service.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting**—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Use of Estimates**—The preparation of financial statements in conformity with GAAP requires the Plan’s management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and

changes therein, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

**Risks and Uncertainties**—The Plan’s investment in the Matson Retirement and Pension Trust (the “Master Trust”) utilizes various investment securities, including money market funds, equity securities, and fixed-income securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**Valuation of Investment in Master Trust**—The Plan’s interest in the investments in the Master Trust is stated at fair value, which has been determined based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a description of the valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold, as well as held, during the year.

**Administrative Expenses**—Administrative expenses of the Plan are paid by the Master Trust, as provided in the Plan document.

**Payment of Benefits**—Benefit payments to participants are recorded upon distribution.

**Contribution Receivable from Employer**—Contributions made by the Company that are attributable to the plan year, but which were not paid as of year-end, have been recorded as a contribution receivable to the Plan.

**Reclassification**— Certain amounts presented in the December 31, 2018 fair value measurement table in Note 5 have been reclassified, as necessary, to be consistent with the 2019 presentation.

**Subsequent Events**—For the year ended December 31, 2019, subsequent events were evaluated through October 13, 2020, the date the financial statements were available to be issued.

**New Accounting Pronouncements**— Accounting pronouncement adopted: In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting. This Update changes reporting and disclosure requirements for plans with a master trust and eliminates redundant disclosures for plans with 401(h) accounts. This Update is effective for the fiscal periods beginning after December 15, 2018. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2019 plan year, and prior year disclosures in Note 4 have been revised to reflect the retrospective application.

**Accounting pronouncement not yet adopted:** In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the FASB Concepts Statement, including the consideration of costs and benefits. The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted. The Plan is currently evaluating the impact that the guidance will have on the Plan’s financial statements.

### 3. FUNDING POLICY

Contributions to the Plan are made solely by the Company. The Company's funding policy is to make contributions to the Plan sufficient to meet the minimum funding requirements of the Internal Revenue Code (IRC) and the Employee Retirement Income Security Act as amended, along with any related regulations issued by the Internal Revenue Service (IRS) and Department of Labor. Matson may at its sole discretion, make additional contributions to the Plan within the maximum deductible limits imposed by the IRC. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2019 and 2018.

### 4. INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust account by the Trustee, and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Company's various pension plans for investment and administrative purposes. Although assets of multiple plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets and investments of the Master Trust at December 31, 2019 and 2018 are as follows:

|                                                                                                          | 2019                    |                                                | 2018                    |                                                |

### 5. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair

value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

**Asset Valuation Techniques**—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

**Registered Investment Companies (Mutual Funds)**—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Common Stock**—Investments in common stock are valued at the closing price reported on the active market on which the securities are traded, on the last business day of the Plan year. Common stock is categorized as Level 1.

**Cash Equivalents**—Held primarily in short-term money market commingled funds, which are valued at cost plus accrued interest.

**Fixed-Income Securities**—Corporate bonds and U.S. government treasury and agency securities are valued based upon the closing price reported in the active market in which the security is traded. U.S. government agency and corporate asset-backed securities may utilize models, such as a matrix pricing model, that incorporates other observable inputs, such as cash flow, security structure, or market information, when broker-dealer quotes are not available.

**Real Estate Interests**—The fair value of real estate funds are determined by the issuer based on the net asset values of the funds. Net assets values are determined by dividing the fund's net assets, as recorded in the fund's audited financial statements, by the number of units outstanding at the valuation date. Fair value for underlying investments in real estate is determined through independent property appraisals.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2019:

**Transfers between Levels**—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

<sup>(a)</sup> This class includes investments in limited partnership interests that invest in U.S. commercial real estate assets. The fair values of investments in this class are estimated using the NAV of the Plan's limited partnership interest in underlying assets of the investment. Distributions from the investment are received following a withdrawal request by the Plan. The fair value of each individual property is

based on independent property appraisals and it is probable that all of the investments in this class will be sold at an amount different from the NAV of the Plan's partnership interest.

## 6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and service. The accumulated plan benefits for salaried non-bargaining active employees are based on their frozen final pay formula benefit as of December 31, 2011, plus their cash balance benefit. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following table presents the actuarial present value of accumulated plan benefits at December 31, 2019 and 2018, and changes in accumulated plan benefits for the year ended December 31, 2019:

| Actuarial present value of accumulated plan benefits:                    | 2019                  | 2018                  |

| Present value of benefits accumulated                                    | 2,195,530             |                       |
| Actuarial assumption changes                                             | <u>1,291,814</u>      |                       |
| Actuarial present value of accumulated plan benefits — December 31, 2019 | <u>\$ 162,850,852</u> |                       |

Significant actuarial assumptions used in the actuarial present value of accumulated benefits at December 31, 2019 and 2018, are as follows:

- Mortality tables used in December 31, 2019 and 2018 valuations: Pri-2012 white collar mortality table along with modified mortality improvement scale MP-2019 and RP-2014 mortality table along with modified mortality improvement scale MP-2018, respectively
- Retirement age assumptions (representative annual rates of retirement were used)
- Investment return: 7.25% and 7.50% per annum for 2019 and 2018

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and

assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

## 7. INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2019 and 2018, and for the year ended December 31, 2019 included in the Plan's financial statements that was prepared by or derived from information prepared by the Trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

Notes 4 and 5: All investment balances and investment information have been certified by the Trustee, excluding the classification of investments by level in Note 5.

## 8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

## 9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments in the Master Trust are invested in securities managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

## 10. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the employer, by letter dated July 25, 2017, that the Plan and related trust are designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, the Benefits Administrative Committee and the Investment Committee believe the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the

Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax position that more likely than not would not be sustained upon examination by the IRS. No uncertain tax positions were recorded at December 31, 2019 and 2018. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

\*Subsequent to year-end, the Sponsor elected to make an additional contribution to the Plan for the year ended December 31, 2019, for a total of \$4,872,000. These contributions of \$1,624,000, \$1,624,000, and \$1,624,000 were deposited into the Plan on April 15, 2020, July 15, 2020, and September 15, 2020, respectively.

## 12. SUBSEQUENT EVENTS

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets.

In March 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted. Among other provisions, the CARES Act provides temporary options for Plan participants with respect to certain Plan distributions. Plan management has adopted and implemented certain provisions of the CARES Act and expects to make related Plan document amendments by the relevant deadline.

The Plan was amended effective January 1, 2020, to eliminate 66-2/3% last survivor annuity optional form of payment.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Schedule SB, Part V — Summary of Plan Provisions****Disability**

- Benefit If an active participant eligible for benefits is disabled and receiving benefits under the employer's long term disability plan, they will continue to accrue vesting service and credited service.

**Pre-retirement Death – Traditional Pension Benefits**

- Eligibility Married at least 1 year, with a vested benefit or eligible for retirement.
- Benefit The spouse receives 1/2 of the 50% Joint and Survivor benefit that would have been in effect had the participant terminated on the date of death and survived to the date payments commenced, and then died immediately thereafter. The benefit is reduced for early retirement if the requested commencement date is before the participant's normal retirement date. If the participant's death occurs before the normal retirement date, this benefit is deferred until the date the participant would have reached age 65 (or if the participant had at least 5 years of service at death, at the spouse's election, any time after the date the participant would have reached age 55).
- Alternative Benefit If the participant has met the early retirement eligibility, the spouse receives an immediate monthly annuity equal to the following percentage of the normal retirement benefit, but not less than the surviving spouse's benefit described above:

| Surviving Spouse's Age at Participant's Date of Death | Percentage of Normal Retirement Benefit |
|-------------------------------------------------------|-----------------------------------------|
| 53 and over                                           | 50%                                     |

| Maximum compensation | Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2019, the limit is \$280,000. |
| • Maximum benefits   | Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2019, the limit is \$225,000.                                                                                                                          |

**Schedule SB, Part V — Summary of Plan Provisions****Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated effective June 29, 2012, are included in this valuation:

- **Most recent plan amendments included:** Amendments adopted after the valuation date and effective after the current plan year are included in the valuation.
  - For the Retirement Plan for Employees of Matson, the plan restatement dated June 29, 2012, amended through the sixth amendment
- **Plan amendments excluded:** Generally, amendments adopted after the valuation date and effective after the current plan year are not included in the valuation.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include any late retirement increases.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with their accrued benefits actuarially increased for late retirement, using the Unisex Pension 1984 Mortality Table set back two years for participant and seven years for contingent annuitants and an interest rate of 6.5% per year.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 436 benefit restrictions:**
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
