SUNPRO SOLAR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2019 (Audited) and 2018 (Compiled)

1) Description of plan

The following description of the Sunpro Solar 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

Sunpro Solar 401(k) Plan is a defined contribution plan which was adopted on January 1, 2017, covering substantially all employees of Marc Jones Construction, LLC dba SunPro Solar (the Company or Employer) and its other participating employer Buildpro, LLC. In order to be eligible to participate in the Plan, employees must be 18 years of age and have completed 6 months of service. The effective Plan entry date is January 1 or July 1 coinciding with or the next following date on which such eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 31, 2019, the Plan changed custodians from John Hancock Life Insurance Company to Transamerica Life Insurance Company, Inc.

(b) Contributions

Participants may make elective contributions to the Plan by deferring a percentage of their compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code. In addition, a participant who has attained age 50 before the close of the plan year shall be eligible to make catch-up contributions in accordance with limitations under the Internal Revenue Code. The total of deferrals and company matching contributions cannot exceed the yearly statutory maximum.

The Plan implemented a Safe Harbor plan design as permitted by the Internal Revenue Service ("IRS"), which exempted the Plan from certain compliance issues, primarily associated with non-discrimination testing issues. If eligible, participants will receive a Safe Harbor Matching Contribution equal to 100% of the amount the participant contributes to the Plan for each payroll period up to the first 3% of Plan compensation plus 50% of the amount the participant contributes between 3% and 5% of Plan compensation.

(c) Participant accounts

Each participant's account is credited with the participant's contribution and allocation of the Company contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount or installments, equal to the value of the vested interest in his or her account. Upon reaching age 59 ½, participants are also eligible for in-service distributions. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the participant's elective deferral and rollover accounts into the Plan. Balances under \$5,000 for terminated participants, may be paid out at the discretion of the Company.

NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2019 (Audited) and 2018 (Compiled)

1) Description of plan (continued)

(e) Administrative expenses

The Company absorbs significant administrative costs of the Plan. Administrative expenses paid by the Plan arise from fees for the processing of distributions and loans that are charged to their respected participants' accounts. In addition, certain investment accounts charge asset and participation fees that are allocated among the respected participants.

(f) Vesting

Participants are immediately vested in their voluntary contributions and basic safe harbor matching contributions plus actual earnings thereon. Vesting for additional employer non-elective or profit sharing contributions is based on years of service. A participant becomes 20 percent vested after two years of service, 40 percent after three years, 60 percent after four years, 80 percent after five years, and 100 percent vested after six years of service. A year of service is defined as 1,000 hours of service within a Plan year. Participants will become fully vested if they are employed by the Company on or after their normal retirement date at age 65. If a participant dies or becomes permanently disabled before attaining the normal retirement age, the participant's account becomes 100 percent vested.

(g) Investment options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment allocations any time via telephone, internet or written instructions.

(h) Forfeitures

Forfeitures occur after termination of employment at the earlier of when participants with non-vested account balances, as defined by the Plan, have either five consecutive 1-year breaks in service or receive a distribution of their entire vested portion of their account balance. Forfeitures are used to reduce administrative expenses and then any remaining will be added to any discretionary Employer contributions. If the participant is re-employed and fulfills certain requirements, as defined by the Plan, the participant's account will be reinstated. Forfeitures available to offset future Employer contributions and administrative expenses was \$749 at December 31, 2019.

(i) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(j) Notes receivable from participants

Loans to participants from the Plan are not permitted.

2) Summary of accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

SUNPRO SOLAR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2019 (Audited) and 2018 (Compiled)

2) Summary of accounting policies (continued)

(b) Use of estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America, requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Investment valuation and income recognition

Plan investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan maintains a benefit-responsive investment contract with Transamerica Life Insurance Company. Transamerica Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair value, as reported to the Plan by Transamerica Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yield for 2019 was 0.90%.

(d) Risks and uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(e) Payment of benefits

Benefits are recorded when paid by the Plan.

3) Federal income tax status

The Plan is based on a prototype plan which received an opinion letter from the Internal Revenue Service dated September 30, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the letter, including amendments made to comply with recent law changes. The Plan itself has not separately applied for a determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes had been included in the Plan's financial statements.

SUNPRO SOLAR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2019 (Audited) and 2018 (Compiled)

3) Federal income tax status (continued)

United States generally accepted accounting principles requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is not subject to U.S. federal and state income tax examinations by tax authorities beyond three years from the filing of those returns.

4) Information certified by the Plan's custodians (unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by the custodians. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

	<u>2019</u>	<u>2018</u>
Investments:		
Pooled separate accounts	\$ 1,920,616	\$ 689,455
Investment contract	1,467	-
Income:		
Net appreciation in fair value of investments	\$ 243,519	

5) Related party transactions

Certain investments of the Plan are managed by Transamerica Life Insurance Company, the custodian of the Plan, for the year ended December 31, 2019. Therefore, investment transactions involving the purchase and sale of these investments, including investment management fees, qualify as party-in-interest transactions. All of these transactions are exempt from prohibited transaction rules.

6) Investments

The Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value in 2019 by \$243,519.

7) Fair value measurement

Financial Accounting Standards Board Accounting Standards Codification 820-10, *Fair Value Measurements* ("FASB ASC 820-10"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2019 (Audited) and 2018 (Compiled)

7) Fair value measurement (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at net asset value (NAV), which approximates fair value, as the assets are market-to-market on a daily basis.

Investment contract: Valued at fair value which approximates contract value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

<u>Assets at Fair Value as of December 31, 2019</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts	\$ 1,920,616	\$ -	\$ -	\$ 1,920,616

	<u>Assets at Fair Value as of December 31, 2018</u>

8) Subsequent events

Effective May 1, 2020, the Company amended the Plan and will no longer be designated safe harbor plan.

The Company has evaluated subsequent events through the date of the auditors' report, the date which the financial statements were available to be issued. As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which has triggered volatility in financial markets. However, because the values of the Plan's individual investments have and will fluctuate in response to market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. There were no additional material subsequent events besides in the above paragraph that required recognition or additional disclosures in these financial statements.
