Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☐ Unmodified (2) ☐ Qualified (3) ☒ Disclaimer (4) ☐ Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)?

☒ Yes ☐ No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WISS & COMPANY, LLP**

(2) EIN: **22-1732349**

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

	Yes	No	Amount
4a		X	
4b		X	

	Yes	No	Amount
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
4c		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
4d		X	
e Was this plan covered by a fidelity bond?	X		1000000
4e	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description is intended to give a general summary of the significant provisions of the Employees' Retirement Plan of Lonza, LLC (the "Plan"). Interested Plan participants should refer to the full Plan document for more detailed explanations and information regarding the Plan's provisions.

General - The Plan is a noncontributory, defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was sponsored by Lonza Inc., a wholly owned subsidiary of Lonza America Inc. ("LAI") through November 5, 2019, when Lonza Inc. was merged with and into Lonza, LLC (the "Company") who replaced Lonza Inc. as the Plan Sponsor. As a result of the merger, the name of the Plan was changed from Employees' Retirement Plan of Lonza Inc. to Employees' Retirement Plan of Lonza, LLC.

On January 1, 2007, the Plan sponsor decided to freeze the Employees' Retirement Plan of Lonza, LLC, as defined. As a result, any employee hired after January 1, 2007 is not allowed entrance into the Plan. All employees previously covered by the Plan continue to be covered by the Plan and are fully vested in their accrued benefits.

Effective December 31, 2007, the Plan was amended to freeze benefit accruals for all participants other than those participants who attain age 50 by June 30, 2008. Also, participants who were eligible to receive a disability retirement benefit under the Plan as of December 31, 2007, continued to accrue benefits under the provisions of the Plan without the application of a benefit freeze. Effective December 31, 2010, the Plan was amended to freeze all benefit accruals for all participants. In addition, all participants are 100% vested in their accrued benefit.

Pension Benefits - Under the terms of the Plan, participants are eligible for pension benefits upon reaching the normal retirement age of 65. Monthly benefit payments are computed by multiplying the number of years of credited service by a benefit rate, subject to certain limitations specified in the Plan. Retirees may elect to receive pension benefits in various forms of annuity options. Lump-sum cash distributions are provided for present value distributions of \$5,000 or less. Participants may also elect early retirement after attainment of age 55 and completion of five years of vesting service, as defined, and be able to receive actuarially reduced benefit payments commencing immediately at the early retirement date (after attainment of age 62, the participant is entitled to unreduced benefits).

Death and Survivorship Benefits - The surviving spouse of any deceased participant is entitled to a death benefit payable contingent upon the participant's employment status, age and years of credited service on the date of death.

Disability Benefits - The Plan also provides for disability retirement benefits for participants experiencing total and permanent disability occurring on or after completion of at least ten years of credited service. The normal monthly pension benefit is payable at the participant's normal retirement date and is computed in the same manner as a normal retirement pension benefit as if the participant remained employed until the normal retirement date and Plan-eligible compensation had remained unchanged.

Deferred Vested Pension Benefits - Participants terminating for reasons other than death, disability, or retirement who have completed five or more years of credited service are eligible for deferred vested pension benefits after attaining normal retirement age or at age 55 if the conditions for early retirement are fulfilled. Early retirement benefits are at a reduced percentage of normal retirement benefits based on the participant's age at the date of benefit commencement. The Plan provides for the full benefit upon attaining the age of 62.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

Trust Managed by the Trustee - The assets of the Lonza America Inc Master Retirement Trust are held and managed by State Street Bank and Trust Company (the "Trustee") for the years ended December 31, 2019 and 2018. Under the terms of the agreement between LAI and the Trustee, the Trustee manages Lonza America Inc. Master Retirement Trust on behalf of the Plan. The Trustee has been granted discretionary authority concerning purchases and sales of investments in the Lonza America Inc. Master Retirement Trust in accordance with the general guidelines established by the Plan Administrator. Additionally, the Plan's Retirement Committee (the "Committee") regularly reviews the investment performance with an independent investment advisor and the Committee may direct the acquisition and disposition of the assets of the Plan.

Funding Policy - The Company's policy is to make contributions to provide the benefits under the Plan and is subject to the provisions of ERISA. Contributions by the Company are based upon actuarial computations of the present value of future benefits to be paid to participants as of the beginning of the Plan year. The actuarial cost method used to determine employer contributions to the Plan is the projected unit credit method. In accordance with the Company's funding policy, contributions for 2019 and 2018 were within the minimum and maximum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by its investments advisors, trustees, and insurance company. See Note 6 for a discussion of fair value measurements.

Investment income in Lonza America Inc. Master Retirement Trust consists of interest income, dividend income and net appreciation/(depreciation) of investments. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Eligible expenses to the extent not reimbursed by the Company, include, but are not limited to, investment managers' fees, actuarial fees, legal fees, and audit fees. In addition, certain investment related expenses are included in net appreciation/(depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits. The Company provides internal accounting and administrative services to the Plan at no cost.

Risk and Uncertainties - The assets of the Lonza America Inc. Master Retirement Trust are primarily investment securities, which are monetary in nature. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan may have investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies and defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Concentration of Investment Risk - The Master Trust's investment in two funds comprises approximately 33% and 30% of total investments at December 31, 2019 and 2018, respectively.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Newly Adopted Accounting Pronouncements - Effective January 1, 2019, the Plan adopted Accounting Standards Update ("ASU") 2017-06, which is applicable for retirement plans held in a Master Trust. The standard does not affect the Statements of Net Assets Available for Benefits or the Statements of Changes in Net Assets Available for Benefits, but it does require expanded disclosures (see Note 5). The prior period financial statement was not affected other than the related expanded disclosures.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

The full impact of the COVID-19 outbreak continues to evolve as of the date the financial statements were available to be issued. This pandemic has adversely affected global economic activity and greatly contributed to deterioration and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity, cannot be determined at this time.

Note 3 - Plan Termination:

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, in the following order:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years prior to the termination date of the Plan, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).
- c) All other vested benefits (that is vested benefits not insured by the PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the PBGC level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefits that the PBGC guarantees, which is adjusted periodically.

Whether all the participants receive their benefits should the Plan terminate at some future date will depend on the adequacy, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 4 - Investments Certified by the Trustee:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Trustee has certified that the following information included in the financial statements is complete and accurate:

- a) Investments, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018.
- b) Investment income/(loss), as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 5 - Plan Interest in Master Trust:

The Plan's investments are in a Master Trust, which was established for the investment of assets of the Plan and several other sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. The value of the Plan's interest in the Lonza America, Inc. Master Retirement Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

At December 31, 2019 and 2018, the Plan's interest in the net assets of the Lonza America Inc. Master Retirement Trust was approximately 22%. Investment income and administrative expenses relating to the Lonza America Inc. Master Retirement Trust are allocated to the individual participating plans based upon average monthly balances invested by each plan. Those expenses which are specifically identifiable to the Plan are charged in full to the Plan. The Plan's specific interest in the net assets of the Lonza America Inc. Master Retirement Trust is neither senior nor subordinate to the specific interest of the other plans participating in the Lonza America Inc. Master Retirement Trust.

The following table presents the fair value of assets for the Master Trust and the Plan's interest in its investments as of December 31, 2019 and 2018, certified as complete and accurate by the Trustee.

	December 31, 2019		December 31, 2018

See Note 6 for all relevant fair value disclosures related to investment in the Master Trust including valuation methodologies used and leveling within the fair value hierarchy.

Note 6 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Interest bearing cash:* Valued at the closing price in a similar market in which the fund is traded.
- *Mutual funds:* Valued at the closing price reported on the active market in which the fund is traded.
- *Common stock:* Valued at the closing price reported on the active market in which the security is traded.
- *Common collective trusts:* Valued at net asset value (NAV) of units as reported in the audited financial statements by the investment manager. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.
- *US government and corporate debt securities:* Valued at the closing price reported in the active market in which the individual investment is traded. Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2019 and 2018, respectively.

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets available for Benefits.

At December 31, 2019 and 2018 the Master Trust had assets and liabilities consisting of a receivable for investments sold, accrued income, other receivable, and a payable for investments purchased. These assets and liabilities equal or approximate fair value due to the underlying assets being common stock, U.S. government securities, and interest bearing cash.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of levels 1, 2, or 3.

EMPLOYEES' RETIREMENT PLAN OF LONZA, LLC

NOTES TO FINANCIAL STATEMENTS

Note 7 - Accumulated Plan Benefits:

Accumulated plan benefits are those estimated future payments that are attributable under the Plan's provisions to the service that employees have rendered to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the actuarial valuation date and the expected date of payment.

The actuarial valuation was performed as of January 1, 2019; however, there are no material differences between the values determined as of that date and those presented as of December 31, 2018. The significant actuarial assumptions used in the valuation as of January 1, 2019 were: (a) assumed discount interest rate of 5.75%; (b) weighted average retirement age of 60.9; (c) separate rates for non-annuitants and annuitants, based on RP-2014 mortality tables projected generationally with Scale MP-2019. The projected unit credit method was used to determine contributions to the Plan. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 8 - Tax Status:

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 11, 2018, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Party-in-Interest:

The assets of the Master Trust invested in funds of the Trustee are considered party-in-interest transactions. The Trustee is a party-in-interest as a provider of investment management and custodial services to the trust funds.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.75% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Lonza regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Lonza and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan may pay small benefits (with a present value up to \$5,000) in a lump sum. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale – Significant Economic Assumptions for Contributions

Plan-related expenses As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust). Administrative expenses were estimated by reflecting the expected PBGC premiums, and the actual expenses, other than PBGC premiums, paid from the trust the preceding year.

Assumed return for asset smoothing The assumed return of 5.75% used for asset smoothing is the expected return on assets assumption chosen by the client with the help of their investment advisers for the 2019 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination The termination rates reflect a best estimate of future experience. Valuation results are reviewed annually with respect to gains and losses caused by termination patterns different than assumed as well as annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement The retirement rates reflect a best estimate of future experience. Valuation results are reviewed annually with respect to gains and losses caused by retirement patterns different than assumed as well as annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits

- Deferred vested benefit Deferred vested participants in the ERP group are assumed to begin benefits at age 62 (or current age if later) because the plan's experience is not considered to be credible, but it is expected that many participants will retire and begin benefits when benefits from the plan are paid unreduced at age 62.

Prescribed Methods

- Funding methods** The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Sources of Data and Other Information

Lonza Inc. furnished participant data as of 1/1/2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Changes in Assumptions and Methods

- Change in assumptions since prior valuation** The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.

The assumed plan-related expenses added to the normal cost were changed from \$835,000 for 2018 to \$614,000 for 2019.

- Change in methods since prior valuation** None.

Benefit Commencement Date

- Retirement Benefit Upon termination of employment
- Deferred Vested Benefit For employees in the legacy ERP: at age 62
For employees in the legacy Conalco plan: at age 65
- Preretirement Death Benefit The later of the death of the active participant or the date the participant would have attained age 55.

Form of payment 100% of participants elect a life annuity.

Percent married For employees in the legacy ERP: 90% of males and 50% of females are assumed to be married.
For employees in the legacy Conalco plan: 100% of males and females are assumed to be married.

Spouse age Wife three years younger than husband.

Covered pay N/A

Administrative expenses Normal cost includes a provision for administrative expenses. The amount included for plan related expenses is \$614,000 determined by taking the plan's previous year's actual administrative expenses adjusted for changes in the PBGC premium.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.75% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Lonza regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Lonza and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan may pay small benefits (with a present value up to \$5,000) in a lump sum. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale – Significant Economic Assumptions for Contributions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust). Administrative expenses were estimated by reflecting the expected PBGC premiums, and the actual expenses, other than PBGC premiums, paid from the trust the preceding year.

Assumed return for asset smoothing

The assumed return of 5.75% used for asset smoothing is the expected return on assets assumption chosen by the client with the help of their investment advisers for the 2019 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

The termination rates reflect a best estimate of future experience. Valuation results are reviewed annually with respect to gains and losses caused by termination patterns different than assumed as well as annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement

The retirement rates reflect a best estimate of future experience. Valuation results are reviewed annually with respect to gains and losses caused by retirement patterns different than assumed as well as annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits

- Deferred vested benefit Deferred vested participants in the ERP group are assumed to begin benefits at age 62 (or current age if later) because the plan's experience is not considered to be credible, but it is expected that many participants will retire and begin benefits when benefits from the plan are paid unreduced at age 62.

Prescribed Methods

- Funding methods** The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Sources of Data and Other Information

Lonza Inc. furnished participant data as of 1/1/2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Changes in Assumptions and Methods

- Change in assumptions since prior valuation** The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.

The assumed plan-related expenses added to the normal cost were changed from \$835,000 for 2018 to \$614,000 for 2019.

- Change in methods since prior valuation** None.

Effective December 31, 2010, Accrual Service is frozen for all participants.

Certain participants whose accrual service was previously frozen as of December 31, 2007 received subsequent accruals through December 31, 2010 or the end of the plan year prior to their termination, if earlier, in order to correct a nondiscrimination test. Refer to Appendices D and E of the plan document.

Covered Compensation

The average of the taxable wage bases for the 35 calendar years ending with the year an individual attains Social Security Retirement Age.

Compensation

Total remuneration paid by Lonza to an employee including base pay, overtime, shift differentials, holiday pay, bonuses, vacation pay and sick pay and salary reductions made pursuant to Section 125, 132(f) or 401(k) of the Code, but excluding (i) amounts realized from the exercise of non-qualified stock option; (ii) amount realized from the sale, exchange, or disposition of a stock acquired under a qualified stock option; (iii) amounts attributable to certain allowances and expenses.

Final Average Compensation

The greater of

(a) The final 60-month average compensation (subject to IRS Sect. 401(a)(17) limit) immediately preceding termination or retirement; or

(b) The average of the annual compensation (subject to IRS Sect. 401 (a)(17) limit) for the highest 5 consecutive years of the last 10 years immediately prior to termination or retirement

Annual Accrued Benefit

The benefit is the sum of (a), (b) and (c) as follows:

- (a) 1.05% times Final Average Compensation not in excess of Covered Compensation times Accrual Service (maximum 35 years)
- (b) 1.50% times Final Average Compensation in excess of Covered Compensation times Accrual Service (maximum 35 years)
- (c) 1.40% times Final Average Compensation times Accrual Service in excess of 35 years

The benefit for a "401(a)(17) employee" is subject to the following minimum, the sum of (d) and (e):

- (d) Frozen Accrued Benefit as of December 31, 1993, subject to the IRS Compensation limits in effect at the time
- (e) Accrued Benefit by applying the above formula [(a) + (b) + (c)], but based on the Final Average Compensation and Accrual Service subsequent to December 31, 1993

A "401(a)(17) employee" is a participant whose accrued benefit after December 31, 1993 is based on compensation in excess of \$150,000 for a plan year prior to January 1, 1994.

Effective December 31, 2007, accrued benefits were frozen for active participants who did not attain age 50 by June 30, 2008.

Effective December 31, 2010, all benefit accruals were frozen.

Certain participants whose accrual service was previously frozen as of December 31, 2007 received subsequent accruals through December 31, 2010 or the end of the plan year prior to their termination, if earlier, in order to correct a nondiscrimination test.
