(1) Description of plan

The following description of the Sierra International Machinery, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Sierra International Machinery, LLC, and Sierra Recycling and Demolition, Inc., (the "Companies") for the benefit of its full-time employees who are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Companies' Benefits Committee ("Committee"), which is a committee of the Management of the Companies. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Companies' Board of Directors.

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Effective January 1, 2019, automatically enrolled participants have their deferral rate set at 6% of eligible compensation with annual increases of 1% up to 10%. In 2018, automatically enrolled participants had their deferral rate set at 3% of eligible compensation with annual increases of 1% up to 6%.These contributions are invested in a target date fund until changed by the participant.

The Companies contribute a discretionary percentage of the base compensation that a participant contributes to the Plan determined by the Companies on an annual basis. Employer matching contributions are made in an amount equal to 100% of deferrals up to 1% of compensation plus 50% of deferrals over 1% but not exceeding 6% of compensation. The Companies may elect to make profit sharing contributions allocated to individual accounts of active participants based on a formula specified by the employer. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options – Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers 24 mutual funds and a guaranteed investment account as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' contribution portion of their accounts is based on years of continuous service.

Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %	
	Profit Sharing	Employer Match
1	20%	0%
2	40%	100%
3	60%	
4	80%	
5	100%	

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or certain other optional forms of benefit payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - At December 31, 2019 and 2018, forfeited nonvested accounts totaled $6,562 and $3,754, respectively. These accounts will be used to reduce future employer contributions and pay plan expenses. For the years ended December 31, 2019 and 2018, employer contributions were reduced by $0, from forfeited nonvested accounts. Also, for the year and period ended December 31, 2019 and 2018, administrative expenses were reduced by $21,462 and $4,768, respectively.

Plan amendments - As a result of the Bipartisan Budget Act of 2018, effective January 1, 2019, participants are no longer suspended from making contributions to the Plan or from receiving Company matching contributions as a result of a hardship withdrawal.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - In 2019, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2019-09, *"Codification Improvements"* which makes changes to a variety of topics, to clarify, correct errors in, or make minor improvements to the Accounting Standards Codification ("ASC"). The portion of ASU 2019-09 that is most applicable to the Plan relates to whether certain investments have a readily determinable fair value or qualify for the net asset value per share practical expedient in accordance with ASC 820, Fair Value Measurement. The standard is effective for fiscal years beginning after December 15, 2019, with early

(2) Summary of significant accounting policies (continued)

adoption permitted. Management is still evaluating the impact of the adoption of ASU 2019-09 on the Plan's financial statements.

In 2018, the FASB issued ASU 2018-13, *"Fair Value Measurement - Disclosure Framework (Topic 820)"*. The updated guidance improves the disclosure requirements on fair value measurements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. Management is still evaluating the impact of the adoption of ASU 2018-13 on the Plan's financial statements.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Companies and are not included in the statements of changes in net assets available for benefits. Fees related to the recordkeeping services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation and appreciation of fair value of investments.

(3) Information prepared and certified by the trustee and custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, for the year ended December 31, 2019 and period ended 2018, Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC ("Great-West"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value (except for the fully benefit-responsive investment contract at contract value)
- Investment in guaranteed investment contract at contract value
- Net appreciation and depreciation in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,676,777	$ -	$ -	$ 8,676,777
Total investments in the fair value hierarchy	$ 8,676,777	$ -	$ -	8,676,777
Total investments at fair value				$ 8,676,777

Mutual funds	$ 6,348,032	$ -	$ -	$ 6,348,032
Total investments in the fair value hierarchy	$ 6,348,032	$ -	$ -	6,348,032
Total investments at fair value				$ 6,348,032

(5) Guaranteed investment contract with insurance company

The Plan has a fully benefit-responsive guaranteed investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0% percent. The crediting interest rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement for the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meets its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) termination of the Plan, (2) any transfer of all of the Covered Funds of the Plan which causes the amounts to cease to be Covered Funds, (3) partial plan termination, a spin-off, or a combination or series of such partial plan terminations or spin-offs, or any other action or changes with regard to the Plan that causes a significant withdrawal from the Plan, or (4) termination of any recordkeeping arrangement, service agreement, or other contractual arrangements between or with regards to the Plan and Great-West or one of their affiliates or subsidiaries. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

(6) Related party transactions and party-in-interest transactions

Great-West is the custodian and trustee as defined by the Plan for the year ended December 31, 2019 and period ended 2018, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation and depreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As

(6) Related party transactions and party-in-interest transactions (continued)

described in Note 2, the Plan made direct payments to the third party administrator of $21,897 and $100 for the year ended December 2019 and period ended 2018, respectively, which was not covered by revenue sharing. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(7) Plan termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(8) Tax status

The Internal Revenue Service ("IRS") has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated March 31, 2014. Although the Plan has been amended since receiving the opinion letter, the plan administrative committee/plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Subsequent events

The Plan has evaluated subsequent events through October 15, 2020, which is the date the financial statements were available to be issued and noted the following items for disclosure:

(10) Subsequent events (continued)

On January 30, 2020, the World Health Organization declared a global health emergency because of the coronavirus (the "COVID-19 outbreak") creating risks to the international community as the virus spread globally beyond its point of origin. On March 11, 2020, the World Health Organization classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant instability in financial markets. As a result, there has been heightened market risk and the Plan's investment portfolio has incurred significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

In December 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was signed into law, related to required minimum distributions and the limitation of life-time or stretch distributions to remain compliant under the applicable laws and regulations. These provisions are effective beginning January 1, 2020.

Additionally, March 27, 2020, President Trump signed into law the Coronavirus Aid Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increased the available loan amount as described in Note 1 to the lesser of $100,00 or 100% of the participant's vested account balance
- Extended the period for loan repayments, if applicable, up to one year

The Plan is in the process of operationally being amended to implement certain changes permitted by the above law changes.
