The Doctors Management Company 401(k) Savings Plan

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2019

1. Description of the Plan

The following description of The Doctors Management Company 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1987. The Plan is a defined contribution plan covering eligible nonunion employees of The Doctors Management Company (the Employer or TDMC), a wholly owned subsidiary of The Doctors Company, an Interinsurance Exchange (the Exchange). The Plan is available to those employees who are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Employer. Effective August 1, 2018, the trustee of the Plan was changed from State Street Bank and Trust to Fidelity Management Trust Company. Also, effective August 1, 2018, the Plan's recordkeeper was changed from Transamerica Retirement Solutions to Fidelity Investments.

Contributions are participant directed, and each participant may direct contributions and account transfers between various fund options. Additionally, participants are allowed to direct their plan assets in a separate brokerage account (BrokerageLink) through Fidelity Investments. Through this account participants can buy and sell mutual funds, stocks, and bonds that are not available through the Plan.

Effective July 30, 2019, the Exchange acquired Hospitals Insurance Company (HIC) as well as select assets of the Federation of Jewish Philanthropies (FOJP). Following the close of this transaction, the employees of HIC and FOJP became employees of an affiliate of TDMC called Healthcare Risk Advisors (HRA). TDMC amended the Plan in order to provide HRA employees the opportunity to participate in the Plan effective August 1, 2019. The Plan recognized those employees' prior service for eligibility, vesting, and accruals. The former employees of HIC and FOJP had 90 days to make their elections to transfer to the Plan. The total amount transferred to the Plan by former employees of HIC and FOJP was $5,816,005 and is included in the participant rollover balance. All other provisions of the Plan remain the same.

1. Description of the Plan (continued)

Contributions

Participants may contribute up to 100% of their annual compensation and bonus subject to Internal Revenue Service (IRS) limitations.

The Employer makes matching contributions for the benefit of each participant equal to 200% of the participants' elective contribution, up to a maximum of 4% of each participant's compensation per pay period. In addition, the Employer contributes an additional 2% contribution to all eligible participants.

Participant Accounts

Each participant's account is credited with the participant's and Employer's contributions and an allocation of (a) plan earnings and (b) forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' compensation or account balances, as defined by the Plan. At December 31, 2019 and 2018, $166,028 and $131,909, respectively, of unallocated forfeitures are included in the Cash Reserve Fund of Fidelity Management Trust Company.

Vesting

Participants are fully vested in their voluntary contributions plus actual earnings thereon. Employer matching contributions vest as follows: an employee with more than one, two, three, four, and five years of service would be 20%, 40%, 60%, 80%, and 100% vested, respectively. In addition, benefits fully vest upon normal retirement, death, or permanent disability (while in the employment of the Employer), or upon termination of the Plan.

Participant Withdrawals

Withdrawals from the Plan are available upon termination of employment by the participant or upon the participant attaining age 59 1/2. Hardship withdrawals are also available to participants. Participants may elect to receive either a lump-sum amount equal to the vested account balance or a series of periodic payments over a selected term, as prescribed by the Plan.

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to suspend, terminate, or completely discontinue contributions. In the event of plan termination, the full value of all participants' accounts would become fully vested and nonforfeitable.

Notes Receivable From Participants

Participants are allowed to obtain loans in an amount not to exceed the lesser of $50,000 or one-half of the participant's vested accrued benefit under the Plan. Interest rates on loans to participants ranged from 4.25% to 6.00%. These loans are to be repaid over 6 months to 15 years at the prime interest rate in effect on the date the loan was obtained and are fully collateralized by the participant's remaining vested account balance.

Expenses

Administrative expenses are payable by the Plan. The Employer can, at its discretion, elect to pay administrative expenses. The Plan paid the majority of such expenses in 2019 and 2018.

Revenue Sharing

Fidelity Management Trust Company provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the plan administrator and Fidelity Management Trust Company. Fidelity Management Trust Company receives revenue from mutual fund and collective trust fund service providers for services Fidelity Management Trust Company provides to the funds. This revenue is used to offset certain amounts owed to Fidelity Management Trust Company for its administrative services provided to the Plan.

If the revenue received by Fidelity Management Trust Company from such mutual fund or collective trust fund service providers exceeds the amount owed under the MSA, Fidelity Management Trust Company remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay plan administrative expenses or allocated to the accounts of

1. Description of the Plan (continued)

participants. During 2019, the Plan received revenue credit deposits in the amount of $309,509, which has been recognized as other income. In the event that the Plan expenses exceed the amount available as described above, the Plan may make a payment to Fidelity Management Trust Company for administrative expenses not covered by sharing of the excess revenue.

2. Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan are presented on the modified cash basis, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (U.S. GAAP). Under this basis, investment assets are reported at fair value; investment income, including net realized and unrealized appreciation (depreciation) in fair value of investments, is recognized in the period incurred; contributions are recognized when received rather than earned; and benefits and expenses are recognized when paid rather than as incurred.

Use of Estimates

The preparation of financial statements on the modified cash basis requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

2. Significant Accounting Policies (continued)

Valuation of Investments

Accounting Standards Codification 820, *Fair Value Measurement* defines fair value, expands disclosure requirements, and specifies a hierarchy of valuation techniques. The following are the levels of the hierarchy and a brief description of the type of valuation information (inputs) that qualifies a financial asset for each level:

- Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets where the specific security is traded.

- Level 2 – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates, credit risks, etc.), and inputs that are derived from, or corroborated by, observable markets. Financial models are often used to develop these prices.

- Level 3 – Developed from unobservable data, reflecting management's own assumptions

When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of financial assets and these assets are classified as Level 1, primarily common stocks. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, fair value is estimated using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets would be classified as Level 2. If quoted market prices are not available, fair value is determined by using broker quotes or an internal analysis of each investment's financial statements and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation.

2. Significant Accounting Policies (continued)

Thus, financial assets may be classified in Level 3 even though there may be some significant inputs that may be readily available.

The following is a description of the valuation methodologies used for financial assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds – These are classified as Level 1 because quoted prices are available for these securities in an active market.

Common/collective trust funds and registered investment trusts – These are classified as Level 1 as the trusts are valued based on a net asset value (NAV) that meets the definition of having a readily determinable fair value.

Other funds – These assets include the BrokerageLink Account, which comprises cash, money market funds, common stocks, exchange-traded funds and mutual funds, which are classified as Level 1 because quoted prices are available for these financial instruments.

Distributions to Participants

Distributions to participants are recorded when paid.

New Accounting Pronouncement

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements,* which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical expedient in accordance with ASC 820, *Fair Value Measurement.* The amendments are effective for all entities for fiscal years beginning after December 15, 2019 and is applied prospectively, but entities are permitted to early adopt. Plan management is currently evaluating the effect that the provisions of ASU 2018-09 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, and net appreciation in the fair value of investments, interest on notes receivable to participants and dividend and interest income for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as follows:

	Assets at Fair Value

5. Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the code.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest Transactions

Certain plan investments are shares of funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory or administrative exemption exists.

7. Subsequent Events

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic. Fears of a broader worldwide outbreak and its impact on the global economy resulted in significant volatility in the U.S. financial markets.

Also in March of 2020, the CARES Act (the CARES Act) was enacted by the U.S Government in response to the economic disruption caused by the COVID-19 pandemic. As a result of the CARES Act, the Plan began allowing participants to take distributions related to the COVID-19 pandemic of up to $100,000 from the Plan without penalty. If the distributions are not repaid within three years, they are treated as taxable income. In addition, the loan limits of the Plan increased to the lesser of $100,000 or the participant's entire balance if they are originated within 180 days of the signing of the CARES Act with repayment to start one year after the loan distribution. Plan management continues to monitor the impact of COVID-19, including reviewing the CARES Act and any resulting changes to the Plan, but is currently unable to determine the extent to which COVID-19 will affect the Plan's participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits in the future.

Management evaluated subsequent events for the Plan through October 12, 2020, the date the financial statements were available to be issued.
