1. Description of the Plan

The following description of the ShopLC Global, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and effective on February 1, 2000. On April 20, 2011, the age and years of service requirements described below for eligibility purposes were waived for all employees. Any individual hired after this date is subject to the eligibility requirements described below. All employees who have completed at least 1,000 hours of service during the 12-month period immediately following the date of hire and are age eighteen or older are eligible to participate in the Plan. Beginning in 2016, eligible employees may become a participant in the Plan on the first day of the Plan year or the first day of the fourth, seventh, and tenth month of the Plan year. On February 6, 2017, the Plan was amended to so that employees may be eligible after one month of service and can enter the Plan the first day of each month. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the "Code").

In order to achieve certain efficiencies, the Plan Administrator determined it reasonable to merge Jewelry Channel, Inc. 401(k) Profit Sharing and Trust into the STS Jewels, Inc. 401(k) Plan, an affiliated Plan, effective October 14, 2013. In connection with the merger, assets were liquidated and transferred to the STS Jewels, Inc. 401(k) Plan. Effective July 1, 2019, the Plan name changed to ShopLC Global, Inc. 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During the Plan year ended December 31, 2018 and through June 30, 2019, Fidelity Management Trust Company was the trustee of the Plan and Fidelity Workplace Services was the record keeper of the Plan. On July 1, 2019, the Plan changed its trustee to Reliance Trust Company and record keeper to ADP, LLC.

Investments and Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer matching contributions in any combination of investment options. The investment options consist of twenty-nine mutual funds and one stable value common trust fund. Participants may change their investment options at their discretion.

Contributions

Participants may contribute a percentage of their annual compensation, up to 60%, with the contributions and earnings thereupon being nontaxable until withdrawn from the Plan. Participants may also rollover amounts representing distributions from other qualified plans.

The Company may make a matching contribution to all employees as a percentage of the employee's deferral compensation, as defined, subject to the limits provided by the Code. For the year ended December 31, 2018, and up to March 31, 2019, the Company elected to contribute a matching contribution to all employees at an amount equal to 100% of the participant's elective deferral not to exceed 3% of the participant's compensation. Effective April 1, 2019, the Company increased the matching percentage to 4%.

Participant Accounts
Each participant's account is credited with the participant's deferral contribution, the Company's matching contribution, and earnings of the participant's individual account. Allocations are based on participant compensation as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting
Participants are immediately 100% vested in their deferral contributions. The Company's matching contribution becomes vested based on the participants' number of years of service with the Company according to the following schedule: Less than 1 year – 0%, 1 year – 33%, 2 years – 66%, 3 years or more – 100%. One thousand hours of service must be completed to be credited with a year of vesting.

Benefit Payments
Upon separation of service, due to death, disability, or retirement, a participant will receive their benefits as a lump-sum amount equal to the value of the participant's vested interest. Participants can request a distribution from the Plan of their vested interest in the Plan before termination if they satisfy financial hardship criteria. Participants will receive their benefits as a lump-sum amount equal to the value of the participant's vested interest.

Forfeitures
Any forfeitures occurring during a Plan year shall be applied to reduce the contributions of the Employer. Notwithstanding any other provision of the Plan to the contrary, forfeitures shall first be used to pay administrative expenses under the Plan, if so directed by the Employer. At December 31, 2019 and 2018, there was a forfeiture balance of $5,657 and $146 respectively. During the years ended December 31, 2019 and 2018, forfeitures used to fund employer matching contributions and administrative expenses were approximately $19,936 and $7,656 respectively.

Notes Receivable from Participants
Participants may borrow from their deferral contributions fund account from a minimum of $500 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local borrowing rates. Current interest rates range from 5.75% to 7.33%. Loan repayments are made ratably through payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence in which case the loan terms may exceed five years.

Administration
Administrative costs and expenses, including legal, annual per participant fee, minimum combined annual recordkeeping and trustee fee, package nondiscrimination testing, compensation testing, and return of excess contributions are paid out of the Plan unless paid directly by the Company.

Income Tax Status
Fidelity Management and Research Company's underlying standardized prototype profit sharing plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. The IRS has determined by a letter dated July 16, 2014 that ADP's non-standardized prototype profit sharing plan is designed in accordance with applicable sections of the Code. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress. As of December 31, 2019, the Plan's tax years that are subject to income tax examination are 2017 through 2019.

Termination
The Company expects to continue the Plan indefinitely, but by resolution of its Board of Directors, reserves the right to terminate the Plan. If the Plan were terminated, the accrued benefit accounts for each participant would become fully vested and non-forfeitable. Such accrued benefit accounts will be held under the Plan to be distributed as provided in the Plan upon death, retirement or termination.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that change in these estimates and assumptions in the near term could be material to the financial statements.

Valuation of Investments and Income Recognition
The Plan's investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts (which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Concentration of Credit Risk
The Plan's participants are employed in the retail jewelry industry located in the Austin, Texas metropolitan area. All of the Plan's employer contributions and contributions receivable are from two contributing employers located within the Austin metropolitan area. The two contributing companies are STS Jewels, Inc. and ShopLC Global, Inc.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Payment of Benefits
Benefits are recorded when paid.

Recently Issued Accounting Pronouncements
In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement.* This update modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, by removing, adding, and/or modifying certain disclosures related to the treatment investments reported in the fair value hierarchy levels 1, 2, and 3. The amendments in this update are effective for all entities for fiscal years beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted upon issuance of this update. The Plan is currently evaluating the impact this standard will have on the financial statements when adopted.

3. Information Certified by the Plan's Trustee
The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2019	2018
Mutual funds	$ 5,424,434	$ 3,374,973
Stable value asset trust fund	316,966	-
Money market funds	-	319,349
Notes receivable from plan participants	67,102	28,737

Years ended December 31,	2019	2018

Net investment gain from stable value asset fund	4,077	-
Dividend income	249,011	246,280
Income from notes receivable from plan participants	3,212	1,691
Other income	476	-

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The Plan follows the provisions of FASB Accounting Standards Codification ("FASB ASC 820") *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2019 and 2018.

Money market fund and Mutual funds: Valued at the net asset value of shares held by the Plan at year-end.

Stable Value Asset Trust Fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

December 31, 2019		**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	**$**	**5,424,434**	**$ -**	**$ -**	**$ 5,424,434**
Total assets in fair value hierarchy		**5,424,434**	**-**	**-**	**5,424,434**
Investments measured at net asset value*		**-**	**-**	**-**	**316,966**
Investments at fair value	**$**	**5,424,434**	**$ -**	**$ -**	**$ 5,741,400**

December 31, 2018		Level 1	Level 2	Level 3	Total
Money market fund	$	319,349	$ -	$ -	$ 319,349
Mutual funds		3,374,973	-	-	3,374,973
Total assets in fair value hierarchy	$	3,694,322	$ -	$ -	$ 3,694,322

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Stable value asset trust fund	$ 316,966	N/A	Daily	12-30 months

5. Fully Benefit Responsive Investment Contracts

The Plan holds a portfolio of investment contracts that comprises a portfolio of synthetic investment contracts, and short-term investments. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

December 31,	2019	2018
Synthetic investment contracts	$ 297,504	N/A
Short-term investments	19,462	N/A
Total	316,966	N/A

All investment contracts held by the Trust are entered into directly between the Trust and the issuer of the contract and are nontransferable. Permitted participant-initiated withdrawals refer to withdrawals from the Trust by the Plan as a result of participant transactions allowed by the Plan, such as participant withdrawals for benefits, loans, or transfers to other funds or trusts within the Plan.

The synthetic investment contracts held by the Trust include wrapper contracts that provide a guarantee that the credit rate will not fall below zero percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates.

The crediting rate is based, in part, on the relationship between the contract value and the market value of the underlying assets, as well as previously realized gains and losses on underlying assets. The crediting rate generally will reflect, over time, movements in prevailing interest rates. Crediting rates are reviewed quarterly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The existence of certain conditions can limit the Plan's ability to transact at contract value with the contract issuer. Specifically, any event outside the normal operation of the Plan that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the Trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

6. Benefit Payments

As of December 31, 2019 and 2018, there were no benefit payment requests that were not processed at the end of the period and were distributed in the subsequent period.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2019 and 2018 to Schedule H of Form 5500:

Less: Other adjustments		**-**		(268)
Net income per Schedule H of Form 5500	**$**	**2,082,319**	$	725,007

8. Subsequent Events

The Plan has evaluated subsequent events occurring after December 31, 2019, the date of the most recent statement of net assets available for benefits date, through October 15, 2020, the date the financial statements were available to be issued.

In March 2020, the World Health Organization recognized the novel strain of coronavirus, COVID-19, as a pandemic. The coronavirus outbreak has severely restricted the level of economic activity around the United States. Despite the current situation, the Company has been able to operationally address the challenges posed by COVID-19.

Despite the above factors, the Company does not currently expect COVID-19 to have a significant, negative impact on its financial position. However, the Company will continue to monitor these and other factors in order to address any circumstances that may negatively impact its financial condition.

The Plan does not believe any other subsequent events have occurred that would require further disclosure or adjustment to the financial statements.
