Note 1 - Plan Description

The following description of Holland & Hart Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on July 1, 1985 and most recently amended as of January 1, 2019. The Plan is available to employees and partners of Holland & Hart LLP (the "Firm") and participating employers (as defined in the plan document) as of the date of employment or upon admittance to the partnership. Partners and regular employees (as defined in the plan document) are eligible to make elective deferral contributions and receive matching contributions immediately; discretionary profit-sharing contributions and quarterly profit-sharing contributions are also available immediately to partners and regular employees, with the exception of certain nonpartner attorneys. All seasonal or temporary employees (as defined in the plan document) must complete one year of service to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Holland & Hart retirement plans committee, which is appointed by the management committee of the Firm, administers the Plan. Fidelity Management Trust Company (Fidelity) functions as trustee, manages plan assets, and maintains the Plan's records. Fidelity offers plan participants a variety of investment options, or individuals may invest in the various investment options through self-directed brokerage accounts. Individual accounts are invested in the various investment options at the direction of the participants. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

The Firm provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Contributions

Eligible employees are automatically enrolled upon employment at a 6 percent deferral percentage, unless another deferral percentage is elected. All employees enrolled in the Plan who do not make an affirmative election change as of December 1 of a given year to their deferral percentage will have their deferral percentage increased 1 percent effective the following January 1. Participants may make before-tax and Roth contributions between 2 percent and 75 percent of their annual eligible compensation, not to exceed $19,000, as limited by the IRS for 2019. Catch-up contributions for participants age 50 or older are permitted. This maximum percentage may be reduced by the plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

The Firm makes a discretionary matching contribution, as approved by the Firm's management committee. In 2019, the Firm's match was 30 percent of the first 7 percent of elected deferred compensation, not to exceed $5,700 per participant. The Firm has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are nonforfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. The Firm's match is funded on a payroll basis with a year-end true-up. The Firm contributed $2,001,374 in matching contributions for the year ended December 31, 2019.

Note 1 - Plan Description (Continued)

The Firm may make, at its sole discretion, contributions to the Plan on a quarterly basis based on year-to-date compensation, reduced by any previous quarterly profit-sharing contributions for the year. This applies to all eligible nonpartners. It also applies to eligible partners only if such partner is actively working with the Firm on the last day of each quarter end. The Firm made quarterly profit-sharing contributions based on 11.1 percent of compensation for partners and 7.5 percent of compensation for other personnel, up to the annual compensation limit established by the IRS, as defined in the plan document. The Firm made total profit-sharing contributions of $7,256,270 in 2019. Additional discretionary profit-sharing contributions may be made on an annual basis to eligible participants who are employed on the last day of the plan year. These contributions, if any, are allocated to participants based on eligible compensation as a ratio of total eligible compensation for the year. There were no additional discretionary profit-sharing contributions paid in 2019.

Participant Accounts

Each participant's account is credited or charged with the participant's contributions and withdrawals, as applicable, and an allocation of the Firm's contributions, plan earnings or losses, forfeitures, and plan expenses. Allocations are based upon plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately 100 percent vested in their voluntary contributions and rollover contributions and any income or loss thereon. Vesting in the Firm's contribution portion of their accounts, plus actual earnings thereon, is based on years of service.

Any employer matching contributions, annual profit-sharing contributions, quarterly profit-sharing contributions, and the earnings or losses thereon not fully vested when contributed will vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 1	- %
1	20
2	40
3	60
4	80
5	100

A participant's account becomes 100 percent vested upon death, attaining normal retirement age while an employee, retirement due to disability, or termination of the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Participants may have only one loan outstanding at any given time. The notes receivable are secured by the balance in the participant's account; bear interest at rates that range from 4.25 percent to 6.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator; and mature at various dates through December 2024. Loans have a maximum term of five years. Principal and interest are paid ratably through monthly payroll deductions. Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. Loans in the amount of $275,759 were deemed distributions in the current year.

Note 1 - Plan Description (Continued)

Benefit Payments

On termination of service due to death, disability, leaving the Firm, or retirement, a participant may elect to receive either a lump-sum amount equal to all or a portion of the value of the participant's vested interest in his or her account; partial payments; installment payments; or, with respect to certain funds, annuities.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. If an employee's vested account balance is greater than $5,000, the employee may delay the lump-sum distribution or the installment distribution equal to the value of his or her vested account balance until the required minimum distribution date. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Firm.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future firm contributions or to pay administrative expenses of the Plan. At December 31, 2019 and 2018, forfeited account balances totaled $1,045,969 and $77,189, respectively.

The Plan used $380,578 for the year ended December 31, 2019 to reduce employer contributions.

Party-in-interest Transactions

The Plan receives investment advisory services from Mercer Investment Consulting Inc. Certain plan assets are in investment funds managed by Mercer Funds; therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Termination

While it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. If the Plan is terminated for any reason, all participants become 100 percent vested, and the plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. government securities and corporate debt securities included in the self-directed brokerage account are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. All other investments, including other investments in the self-directed brokerage accounts, are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefits are recorded when paid.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest.

Administrative Expenses

Various administrative costs are paid by the Firm.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Plan participants may elect to invest in various investment options through self-directed brokerage accounts. This offering carries risks, including the potential for significant concentrations in individual securities and lack of diversification for the participant's portfolio.

Concentration of Investments

During the year ended December 31, 2019, three investments accounted for 51 percent of investment income.

As of December 31, 2019 and 2018, the fair values of investments greater than 10 percent of net assets available for benefits were the following:

	2019	2018
State Street S&P Index Fund	$ 82,156,971	$66,449,475
State Street U.S. Bond Index Fund	56,152,572	52,671,178
State Street Global Equity ex-U.S. Index Fund	51,674,323	43,568,805

A significant change in the market value of these investments would significantly affect the net assets available for benefits and related investment income of the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 12, 2020, which is the date the financial statements were available to be issued. Subsequent to December 31, 2019, the Firm indefinitely suspended discretionary employer matching contributions and discretionary employer profit-sharing contributions to the Plan, effective May 30, 2020, due to uncertainty caused by the COVID-19 pandemic. The Firm reinstated the discretionary employer matching contributions effective September 1, 2020.

Note 3 - Unaudited Information

Fidelity holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by Fidelity.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management’s own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

To the Holland & Hart Retirement Plans Committee
Holland & Hart Retirement Savings Plan

We have audited the financial statements of Holland & Hart Retirement Savings Plan (the "Plan") as and for the year ended December 31, 2019 and have issued our report thereon dated October 12, 2020. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated July 22, 2020, we conducted our audit in accordance with professional standards except that, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and as instructed by you, we did not perform any auditing procedures with respect to certified information except for comparing such information to the related information included in the financial statements. Because of the significance of the information that we did not audit, we did not express an opinion on the financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the certified information, were audited by us in accordance with auditing standards generally accepted in the United States of America and were subjected to tests of your accounting records and other procedures as we considered necessary to enable us to express an opinion as to whether they are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Our audit of the financial statements does not relieve you or management of your responsibilities. As part of our audit, we considered the applicable internal controls of Holland & Hart Retirement Savings Plan. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on August 23, 2020.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Holland & Hart Retirement Savings Plan are described in Note 2 to the financial statements. No significant new accounting policies were adopted, and the application of existing policies was not changed during 2019.

PRAXITY™
Empowering Business Globally

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was the Plan's valuation of investments.

Management has informed us that, in determining the appropriateness of the estimate of investment values, they have recorded the fair values based on market values provided by the investment custodian, plus any applicable valuation adjustments. We performed no specific procedures related to the valuation of the investments due to the limited scope nature of the engagement.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report.

We are pleased to report that no such disagreements arose during the course of our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We did not detect any misstatements as a result of audit procedures.

Significant Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards and plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 12, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for other information in documents containing the Plan's financial statements and report does not extend beyond the financial statements. We do not have an obligation to determine whether or not such other information is properly stated. However, we read the Plan's Form 5500 filing, and nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information or manner of its presentation appearing in the financial statements.

Other Information Provided for Your Consideration

Timely Deposit of Employee Deferrals

A Department of Labor (DOL) regulation requires that benefit plans remit employee contributions to the plan as soon as they can be reasonably segregated from the employer's general assets. In no case can this amount of time exceed 15 business days after the end of the month in which the amounts were withheld. The 15-business-day rule, however, is not a safe harbor. The general rule has been interpreted as being as little as zero days for entities with more than 100 employees. The DOL also looks at the consistency of timing and holds employers to the least number of days for deposits when determining if contributions are timely. During our audit, we noted no concerns over timely remittance of employee contributions.

This information is intended solely for the use of the Holland & Hart retirement plans committee and management of Holland & Hart Retirement Savings Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Plante & Moran, PLLC
