INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Committee of the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the period from June 1, 2019 (date of plan inception) to December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Wells Fargo, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that Wells Fargo, N.A. holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2019 and for the period from June 1, 2019 to December 31, 2019, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Form 5500, Schedule H, Part IV, line 4i - Schedule of Assets (Held at End of Year) - December 31, 2019 and Schedule H, Part IV, line 4j - Schedule of Reportable Transactions - Period from June 1, 2019 to December 31, 2019, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN

The following description of the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan (the “Plan” or the “Continuation Plan”) is provided for general information only. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory defined benefit plan sponsored by Ogilvy Group, LLC (“the Company”), a wholly owned subsidiary of WPP Group plc (“WPP”). The Plan was adopted on June 1, 2019 as a spin-off of the Ogilvy & Mather Account Balance Defined Benefit Pension Plan, (the “terminated plan”) which terminated on July 1, 2019. Certain participants of the terminated plan transferred to the Plan with their accrued benefit equal to the benefit they would have been entitled to receive immediately before the creation of the Plan. Benefit payments to these participants will continue to be paid from the Plan. All amendments to the terminated plan have been incorporated into the Plan.

The Plan provides retirement and death benefits for all participating employees of the Ogilvy Group, LLC and the following affiliates: A. Eicoff and Company, BEN Marketing Group LLC, SoHo Square Inc., Leopard Communications, Inc., MAXX Marketing, Inc., Ogilvy Public Relations Worldwide, Inc. and SoHo Square Public Relations, Inc., (the “Companies”). The Plan is frozen for any service and benefit accruals and balances under the Plan will only accrue interest on a monthly basis.

The Plan is administered by the Company’s Retirement Plan Committee (the “Committee”) that is appointed by the Board of Directors. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Company’s Board of Directors. Wells Fargo Bank, N.A. serves as the trustee for the Plan. Mercer Human Resource Consulting (“Mercer”) is the actuary and record keeper for the Plan.

Participant Accounts

Under the Plan provisions, amounts are credited by the Company to the participants’ hypothetical accounts. The accounts are allocated interest credits at the end of every month. There are no compensation credits or other benefit accruals.

Eligibility and Vesting

Eligible employees of the Plan are only those individuals who transferred from the terminated plan. No new employees or rehired employees are eligible to participate in the Plan. Participants are fully vested in their benefit that was transferred in from the terminated plan.

1. DESCRIPTION OF THE PLAN – (continued)

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. Quarterly contributions were not required for the 2019 Plan year because of the Plan's funded status.

During the 2019 Plan year, although it did not express any intention to do so, the Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and ERISA.

Pension Benefits

Benefits are determined based on the participant's hypothetical account balance. Each participant begins to receive retirement benefits from the Plan upon retirement. For Plan purposes, retirement is as follows:

Early Retirement

Early retirement can begin on or after age 55, if vested, or if the participant has 20 years of service at termination through September 30, 2015. Effective October 1, 2015, those participants who wish to retire and who do not meet the early retirement requirements, can elect a lump sum distribution of their benefit at termination of employment.

Normal Retirement

Normal retirement can begin on or after age 62 if the participant has at least three years (or five years for certain individuals) of service with the Companies or upon attaining age 65, whichever is earlier. Participants with balances less than \$5,000 receive single lump-sum payments. Automatic benefits for unmarried participants are a single life annuity and a qualified joint & survivor annuity for married participants. For participants with balances in excess of \$5,000, the Plan offers a choice of seven different payment options: a lump sum distribution, a life annuity, a 50% joint/survivor annuity, a 75% joint/survivor annuity, a 100% joint/survivor annuity, installment payments over a period of one or more years not to exceed 10 years, or a life annuity with 10 years guaranteed. The Plan also provides for benefits to the beneficiaries of deceased participants as well as to permanently disabled participants.

Late Retirement

Late retirement begins after age 65. Participants who work past Normal Retirement continue to earn benefits under the Plan.

2. **SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation/depreciation in fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits. All administrative expenses except legal, accounting and consulting fees, are paid by the Plan. Brokerage fees are included in the cost of investments when purchased and deducted from the proceeds when investments are sold.

Subsequent Events

The Plan's management evaluated subsequent events through October 15, 2020, the date the financial statements were available to be issued.

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 ("COVID-19") as a pandemic. The COVID-19 pandemic has resulted in economic uncertainty and extreme volatility in financial markets and may continue to affect the value of Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the employees' compensation during each year of credited service. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated Plan benefits is determined by an independent actuary from Mercer, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2019 (the "Valuation Date") were: (a) life expectancy of participants based on the PRI-2012 white collar tables for males and females, with separate tables for current widows/widowers, and the MP-2019 generational projection scale; (b) retirement age assumptions (varying retirement rates based on graduated scale of retirement ages from age 55 to age 70 and above). Retirement rates range from 12.5% to 40% through age 69, then 100% thereafter; and (c) investment return for the year 2019 was 4.0%. The interest accumulation rate was updated as follows: For the "frozen account balance", 4.50%; and for the "alternate account balance", 3.9%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2019.

OGILVY & MATHER
ACCOUNT BALANCE DEFINED BENEFIT CONTINUATION PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

4. ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

Mercer, the actuary for the Plan, determined the actuarial present value of accumulated Plan benefits.

The actuarially determined present value of accumulated Plan benefits as of January 1, 2019 (the "Valuation Date"), were allocated to the Plan based on the actual liabilities calculated directly for the Plan's population by Mercer and are as follows:

	<u>2019</u>
Vested benefits:	
Active participants	\$ 40,518,502
Inactive participants with deferred benefits	158,533,125
Inactive participants receiving benefits	<u>12,922,968</u>
Total vested benefits	211,974,595
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 211,974,595</u></u>

5. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC", a U.S. government agency), up to the applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).

5. PLAN TERMINATION – (continued)

- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows: Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or other inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Fund

The mutual fund is valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value ("NAV") and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

6. FAIR VALUE MEASUREMENTS – (continued)

Common Collective Funds and Short-Term Investment Funds

The four BlackRock common collective trusts that make up the BlackRock O&M Journey Management Continuation Fund (“BJMF”), invest primarily in other BlackRock common collective trusts or in U.S. Fixed Income Series instruments. These trusts are valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the issuer reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly manner.

The investment in the BlackRock Short Term Investment Fund (“BSTIF”) is composed of high quality, short-term instruments of domestic and foreign issuers that are valued at the NAV of the short-term investment fund. The NAV is used as a practical expedient to estimate fair value as noted above.

The four collective trusts and the BSTIF included in the fair value table below, file a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Accordingly, certain disclosure requirements under ASU 2015-12 with respect to investment strategies for investments measured using the NAV practical expedient are not required in this report.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2019.

Investments at Fair Value as of December 31, 2019			
	Level 1	Total	
Mutual fund	\$ 3,080,907	\$ 3,080,907	
Total investments in the fair value hierarchy	3,080,907	3,080,907	
Investments in common collective trusts measured at NAV	-	229,858,798	
Investments at fair value	\$ 3,080,907	\$ 232,939,705	

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAVs per share as of December 31, 2019 for the BlackRock O&M Journey Management Continuation Fund and the WFTIF.

<u>As of December 31, 2019</u>				
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
BJMF	\$ 229,858,614	N/A	Daily	2 Days
WSTIF	184	N/A	Daily	N/A

7. RELATED-PARTY TRANSACTIONS

The Plan invests in shares of a money market fund that is managed by an affiliate of Wells Fargo Bank, N.A., and certain Plan investments are managed by BlackRock Institutional Trust Company, N.A. ("BlackRock"). These transactions qualify as permitted party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

8. TAX STATUS

Subsequent to December 31, 2019, the Plan obtained a determination letter on February 14, 2020, in which the Internal Revenue Service ("IRS") states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

9. UNAUDITED INFORMATION CERTIFIED BY THE TRUSTEE

The December 31, 2019 Statement of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the period from June 1, 2019 (Date of Plan inception) to December 31, 2019, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of \$232,939,705 at December 31, 2019 and related net investment loss of (\$372,672) for the period June 1, 2019 to December 31, 2019.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

417(e) lump sums

For legacy OPR final average pay benefits, liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and prescribed unisex mortality.

Cash balance plans

• Interest accumulation rate	4.50% for the “Frozen Account Balance,” and 3.90% for the “Alternate Account Balance”
• Whipsaw calculations	No
• Annuity conversion	Not applicable

Other economic assumptions

• Social Security taxable wage base increases	N/A
• Inflation	N/A
• Expected investment return	4.86% per year for 2017, 4.10% per year for 2018 and 4.00% per year for 2019
• Expenses	\$350,000 added to current year normal cost (\$332,500 to the Ogilvy & Mather Account Balance Defined Benefit Pension Plan; \$17,500 to the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan)

Rationale for Economic Assumptions

- **Cash balance interest accumulation rate** – The plan’s interest crediting rate is the greater of the yield on one-year Treasury bonds, or either 3% (Alternate Account Balance) or 4% (Frozen Account Balance) as described within the plan provisions. We have reviewed the average yield on the one-year Treasury bonds over the typical accumulation period based on Mercer Investment Consulting’s Capital Market Outlook. We have made allowance for the likelihood that the one-year Treasury Bond will exceed the aforementioned interest crediting rate floors in some years, with that likelihood increasing after a specified number of years.
- **Expected investment return**– The expected rate of return on plan assets is based on a weighted average blend of the hypothetical performance of the plan’s target asset mix, which includes equity, debt, and cash. Mercer’s Portfolio Return Calculator was used to justify estimated return rates specific to each asset class.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Expenses**— Administrative expenses are assumed to be the same as the prior year actual expenses adjusted for the expected change in PBGC premiums. For this purpose, expected expenses are rounded up to the next \$5,000.

Demographic assumptions**Mortality Sponsor Elections**

Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables. These tables are based on the RP-2014 mortality tables, adjusted to remove post-2006 improvement projections, projected with mortality improvement based on projection scale MP-2017.

Rationale for Demographic Assumptions

- **Withdrawal** – This assumption is based on an experience study covering the period from January 1, 2011, to December 31, 2015, and the expectation that future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- **Retirement age** – This assumption is based on an experience study covering the period from January 1, 2011, to December 31, 2015, and the expectation that future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Benefit commencement age** – This assumption is based on an experience study covering the period from January 1, 2011, to December 31, 2015. In order to incorporate the 2015 amendment that allowed commencement at any age, we relied on Mercer's experience with similar plans and the Ogilvy deferred vested cashout behavior, plus an annual review of relevant recent plan experience.
- **Form of payment** – 100% of participants are assumed to elect a lump sum of their cash balance account, based on experience that shows very few participants elect the actuarially equivalent annuity options.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**ACTUARIAL METHODS****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

The market value is the amount reported in the year-end trustee statement plus discounted receivable contributions.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor and Morneau Shepell (formerly Mercer Outsourcing) provide us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. Vested participants who terminated prior to the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB — Statement by Enrolled Actuary

Effective June 1, 2019, a portion of the assets and liabilities of the Ogilvy & Mather Account Balance Defined Benefit Pension Plan (EIN/PN: 13-2555496/003) were spun off into a new plan, the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan (EIN/PN: 13-2555496/005).

Prior to the spinoff, the Ogilvy & Mather Account Balance Defined Benefit Pension Plan was overfunded as of the January 1, 2019 valuation date. The plan's Excess Assets (\$35,391,627) far exceed the Target Normal Cost (\$350,000), so there was no Minimum Required Contribution. As a result, there was no required contribution to allocate to the two plans post-spinoff. Additionally, the plan had no carryover or prefunding balances prior to the spinoff.

For the purposes of determining the Target Normal Cost and Minimum Required Contribution for the post-spinoff period, we allocated the January 1, 2019 Funding Target to each post-spinoff plan based on the January 1, 2019 individual Funding Targets for the participants in each plan. The asset values as of January 1, 2019, were allocated to each plan in proportion to the actual asset allocation as of the spinoff date of June 1, 2019. The plans are frozen and have no Target Normal Cost related to benefit accruals. The expected PBGC Premium included in the Target Normal Cost, along with the portion of expenses expected to be paid prior to the spinoff date, were allocated entirely to the Ogilvy & Mather Account Balance Defined Benefit Pension Plan. The remaining expected expenses included in the Target Normal Cost were allocated equally between the Ogilvy & Mather Account Balance Defined Benefit Pension Plan and the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan. After this allocation, each plan post-spinoff has no Minimum Required Contribution, as the Excess Assets for each plan are greater than the Target Normal Cost for each plan.

For the purposes of the 2019 Schedules SB to Forms 5500, note that the counts, liabilities, and assets shown for the Ogilvy & Mather Account Balance Defined Benefit Pension Plan (EIN/PN: 13-2555496/003) are the pre-spinoff amounts as of January 1, 2019. The counts, liabilities, and assets shown for the Ogilvy & Mather Account Balance Defined Benefit Continuation Pension Plan (EIN/PN: 13-2555496/005) are the amounts allocated as of January 1, 2019 per the methodology above. The Target Normal Cost and Minimum Required Contribution shown for each plan also reflect the methodology above.

• Pensionable earnings	A Participant’s base pay, excluding overtime, bonuses, deferred compensation, severance pay and any other similar earnings. Eligible Compensation includes all 401(k) salary reduction contributions under the

Schedule SB, Part V — Summary of Plan Provisions

Company's 401(k) Plan. Eligible Compensation is limited to \$230,000 effective January 1, 2009.

The compensation of a Participant who is absent because of military leave will be based on the Participant's rate of pay when the leave began or, if the Participant was not receiving a determinable rate of pay when the leave began, the average of the Participant's pay during the shorter of 12 months before his military leave began or his Period of Service. Compensation will be credited under this paragraph only while the Participant's reemployment rights are protected by law.

Effective December 31, 2016, the plan was amended to freeze all future accruals and thus pensionable earnings are no longer applicable after this date.

- Interest Credits

Through the 1995 plan year, the rate of interest credited to a given plan year's accrual was given by the set of deferred PBGC interest factors in effect for the month ending prior to the plan year. These rates are shown in the table below:

Plan Year	Applicable Interest Credit Rate	
1989	7.00%	1990-1996
	5.75%	1997-2004
	4.00%	2005 and beyond
1990	6.50%	1991-1997
	5.25%	1998-2005
	4.00%	2006 and beyond
1991	6.75%	1992-1998
	5.50%	1999-2006
	4.00%	2007 and beyond
1992	6.00%	1993-1999
	4.75%	2000-2007
	4.00%	2008 and beyond
1993	5.25%	1994-2000
	4.00%	2001 and beyond
1994	4.00%	All Plan Years
1995	5.50%	1996-2002
	4.25%	2003-2010
	4.00%	2011 and beyond

Effective January 1, 1996, all future benefit accruals are credited with an amount equivalent to an annual interest rate equal to the greater of (i) 4% (interest crediting rate floor, or "ICR floor"), or (ii) the annual rate of interest on one-year Treasury constant maturities for the November preceding the plan year.

Effective January 1, 2014, all future benefit accruals are credited with an amount equivalent to an annual interest rate equal to the greater of (i) 3% (ICR floor) or (ii) the annual rate of interest on one-year Treasury constant maturities for the November preceding the plan year. The ICR floor was lowered from 4% to 3% by implementing a wear-away formula effective

Schedule SB, Part V — Summary of Plan Provisions

January 1, 2014. Note that the participant account balance under this amendment would be computed as the greater of (1) the account balance as of December 31, 2013, plus interest credits using the 4% ICR floor ("Frozen Account Balance"), and (2) the account balance as of December 31, 2013, plus compensation credits and interest credits using the 3% ICR floor ("Alternate Account Balance").

For plan years ending prior to January 1, 1997, interest credits determined above shall be credited annually as of the last day of the plan year to which the applicable interest credit relates.

For plan years beginning on or after January 1, 1997, interest credits determined above shall be credited as of the last day of the calendar month to which the applicable interest credit relates. For purposes of crediting interest monthly, each applicable annual rate of interest shall be converted into a corresponding monthly rate which, when compounded monthly, will yield the same amount of interest for the year.

- Compensation Credits

An account is established for each Participant at the end of the plan year in which the Participant first becomes eligible. For each plan year ending prior to January 1, 1997, a Participant's Account Balance shall be credited as of the last day of such plan year with a compensation credit equal to 10% of his compensation for that plan year. Effective for plan years beginning on and after January 1, 1997, a Participant's Account shall be credited at the end of each calendar month with a Compensation Credit equal to 10% of his Compensation for that month.

Effective January 1, 2007, a participant in the former "141" group shall be credited at the end of each calendar month with a Compensation Credit equal to 10% of his Compensation for that month. Prior to January 1, 2007, a participant in the former "141" group was credited at the end of each calendar month with a Compensation Credit equal to 5% of his Compensation for that month (3% Compensation Credit before 2006).

Effective January 1, 2008, a participant in the former BEN marketing group shall be credited at the end of each calendar month with a Compensation Credit equal to 10% of his Compensation for that month. Prior to January 1, 2008, a participant in the former BEN marketing group was credited at the end of each calendar month with a Compensation Credit equal to 3% of his Compensation for that month.

Effective January 1, 2008, a participant in the Leopard group shall be credited at the end of each calendar month with a Compensation Credit equal to 5% of his Compensation for that month, plus Interest Credits for each month.

Effective January 1, 2014, a participant in the Leopard group shall be credited at the end of each calendar month with a Compensation Credit equal to 6% of his Compensation for that month, plus Interest Credits for each month.

Schedule SB, Part V — Summary of Plan Provisions

Effective December 31, 2016, no additional Compensation Credits shall be credited.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, effective June 1, 2019, are included in this valuation:

- **Most recent plan amendments included:** N/A
- **Plan amendments excluded:** None.
- **Late retirement increases:** N/A
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations, as applicable.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* N/A
 - *Plan amendments:* N/A
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** N/A
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
