THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of the Plan

The following description of The James B. Oswald Company 401(k) Plan & Trust ("Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan document.

General

The Plan is a defined contribution plan established by The James B. Oswald Company ("Company") on January 1, 1995, under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a qualified cash or deferral arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

During the year ended December 31, 2019, the Company's Board of Directors elected to terminate The James B. Oswald Company Employee Stock Ownership Plan ("ESOP"). Participants in the ESOP were given the option to have their account balances distributed to them or rolled over into the Plan. As a result of this liquidation, 47,762.9169 shares of JBO Holding Company Class A Common Stock ("Company Stock") valued at \$35,989,358 were rolled over into the Plan along with \$1,595,216 in cash during the year ended December 31, 2019. Additional shares of Company Stock may be contributed by the Company in the form of a discretionary profit sharing or discretionary employer matching contribution to the Plan, subject to Plan provisions.

Participants are not permitted to direct their deferrals to invest in shares of Company Stock nor can they direct a liquidation of Company Stock held in their account to reinvest in other investment options within the Plan, except as provided by the JBO Holding Company Bylaws which govern, among other items, when and how shares of Company Stock may be transacted. Such Bylaws provide participants with diversification opportunities beginning at age 60. Upon attainment of age 60, participants who hold shares of Company Stock within the Plan may elect to redeem up to 15% of their shares of Company Stock and may redeem up to an additional 15% in each subsequent year until the participant reaches age 67. Redemption rights are cumulative to the extent not fully exercised in a given year. Upon attaining age 67, participants have the ability to redeem 100% of their shares. The Bylaws also provide JBO Holding Company the ability to call a participant's shares subject to the same schedule. Participants who terminate employment with the Company are not permitted to hold Company Stock under the Bylaws. Shares of Company Stock held in accounts of participants who have terminated employment with the Company will be redeemed by the Plan as administratively feasible.

Administration

The Plan is administered by an advisory committee appointed by the Board of Directors of the Company.

Eligibility and Participation

All employees of the Company that are at least 20½ years of age are eligible to participate in the Plan on the first of any month coinciding with, or following, the completion of 60 days of service. Temporary employees (as defined in the Company's personnel policies), along with certain other classes of employees (certain union and non-resident alien employees and leased employees) are not eligible to participate in the Plan. Participation in the Plan is voluntary. The Plan provides for an automatic enrollment/deferral election in the absence of an alternative election being made by the employee.

THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of the Plan (Continued)

Contributions

Eligible employees can contribute up to 100% of their annual compensation, as defined by the Plan, subject to certain limitations under the IRC. The Company may provide a discretionary matching and/or profit sharing contribution as authorized by the Board of Directors of JBO Holding Company. For 2019, the Board of Directors authorized a discretionary matching contribution of fifty percent (50%) of deferrals made by eligible participants, on the first 6% of each participant's annual compensation, as defined, and a discretionary profit sharing contribution equal to 3% of each participant's eligible compensation, as defined.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching/profit sharing contributions, as well as the participant's allocated share of the Plan's income and any related administrative expenses. Allocations are based on the proportion that each participant's account balance has to the total of all participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in their contributions to the Plan and the earnings thereon. Vesting in employer matching and profit sharing contributions is based on years of service. A participant vests in employer contributions according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
At least 2 but less than 3	20%
At least 3 but less than 4	40%
At least 4 but less than 5	60%
At least 5 but less than 6	80%
6 or more	100%

For purposes of the above vesting schedule, a "year of service" is a measuring period beginning on the employee's date of hire. Generally, an employee will be credited with a "year of service" for each Plan year in which the employee completes 1,000 hours of service beginning on the employee's date of hire and ending on his or her last day of employment with the Company.

Benefits

Upon termination of service due to death, disability or retirement (including early retirement as defined by the Plan), a participant (or his or her beneficiary) may elect to receive a payment amount equal to the value of the participant's vested interest in his or her account. The form of payment is one or more distributions or installments over a specified term. Upon termination of service for other reasons, a participant may elect to receive one or more distributions of the vested interest in his or her account. The Plan also allows for certain in-service withdrawals subject to plan and IRC provisions.

THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of the Plan (Continued)

Forfeitures

Forfeitures of nonvested account balances may be used to pay Plan expenses or reduce future employer contributions, at the option of the Company. At December 31, 2019 and 2018, there was \$69,093 and \$30,498, respectively, in forfeited non-vested accounts. During 2019, \$99,591 of forfeitures was used to reduce the Company's contribution.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, active participants will become fully vested in their account balances.

Notes Receivable From Participants

A participant may borrow the lesser of \$50,000 or 50% of his or her vested account balance with a minimum loan amount of \$1,000. Loans are secured by the remaining balance in the participant's account. Loans are repayable through payroll deductions over periods ranging up to 60 months or longer when the loan proceeds are used to purchase a primary residence. The interest rate is determined by the plan administrator based on prevailing market conditions and is fixed over the life of the loan.

Note 2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by Matrix Trust Company ("Matrix") and Voya Retirement Insurance and Annuity Company ("Voya"), the Custodians. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure in these financial statements, through the date of the independent auditors' report.

Administrative Expenses

The administrative expenses of the Plan are paid from Plan assets, while the administrative costs of mutual funds, loan processing fees and benefit payment fees are charged directly to the affected participants.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Matrix and Voya, the Custodians, have certified to the completeness and accuracy of all investments reflected in the statements of net assets available for benefits at December 31, 2019 and 2018, the supplemental schedule at December 31, 2019, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2019 and investment related information in the notes to the financial statements. This information is unaudited by independent accountants.

THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs for which little or no market data exists

The following is a description of the valuation methodologies used for Plan assets measured at fair value:

- Mutual funds: Investments in mutual funds are valued based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.
- Common/collective trust: The investment in the common/collective trust fund is held and managed by Principal Global Investors Trust Company. The fair value of investments held in this account is based on its reported net asset value ("NAV"). The NAV is based primarily on observable inputs and the market value of the underlying investments and is classified as Level 2.
- The investments in pooled separate accounts are held and managed by Voya. The fair value of investments held in these accounts is based on their reported NAV. The NAV is based primarily on observable inputs, the market value of the underlying investments, and is classified as Level 2.
- Private company common stock: The investment is in Company Stock. The fair value of the common stock is based on third-party valuations performed utilizing and comparing several valuation methodologies including company comparable analysis, discounted cash flows, and earnings multiples. The fair value is based primarily on unobservable inputs and is classified as Level 3.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2018 to 2019. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level the Plan's assets at fair value on December 31, 2019 and 2018:

Note 5. Guaranteed Investment Contract

The Plan has a fully benefit-responsive guaranteed investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract values for credit risk of the contract issuer or otherwise. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on an annual basis for resetting.

THE JAMES B. OSWALD COMPANY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Guaranteed Investment Contract (Continued)

This contract meets the fully benefit-responsive investment criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct permitted withdrawals or transfers of all or a portion of their account balances at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Voya may terminate the contract at any time after 5 years from the date the contract became effective, which was December 12, 2018, with notice of 90 days.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Tax Status

Through November 30, 2019, the Plan utilized a prototype plan document designed by Voya. That document had received a favorable determination letter from the Internal Revenue Service ("IRS"). Effective December 1, 2019, the Plan adopted a volume submitter document designed by McDonald Hopkins. That document received a favorable determination from IRS. The Company has not requested a separate determination letter from the IRS for the Plan and related trust. The plan administrator believes that the Plan and related trust are designed and being operated in compliance with the applicable IRS and ERISA requirements to qualify as tax exempt. Therefore, no provision for Federal income taxes has been made in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS.
