Independent Auditor's Report

To the Administrative Committee of the Pasadena Refining System, Inc. Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pasadena Refining System, Inc. Retirement Plan "Plan", which comprise the statements of net assets available for benefits and of accumulated benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the 2019 Financial Statements

Our responsibility is to express an opinion on the 2019 financial statements based on conducting the audit in accordance with auditing standards in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2019 financial statements.

Auditor's Responsibility for the 2018 Financial Statements

Our responsibility is to express an opinion on the 2018 financial statements based on conducting the audit in accordance with auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion on the 2018 Financial Statements paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2018 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any audit procedures with respect to the information submitted in

Note 4, which was certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the 2018 Financial Statements

Because of the significance of the matter described in the Basis of Disclaimer of Opinion on the 2018 Financial Statement paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2018 financial statements.

Opinion on the 2019 Financial Statements

In our opinion, the financial statements referred to above, of Pasadena Refining System, Inc. Retirement Plan as of December 31, 2019 and for the year then ended, present fairly in all material respects, the net assets available for benefits and of accumulated benefits of the Plan as of December 31, 2019, and the changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, schedule of reportable transactions and schedule of assets held as of December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2019 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content of the 2018 Financial Statements in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2018 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2019 and 2018

Note 1 – Description of Plan

The following description of the Pasadena Refining System, Inc., Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

Pasadena Refining System, Inc. (“Employer”) maintains a defined benefit retirement plan with an originally effective date of January 25, 2005.

The Plan covers all bargained employees, age 21 or older, after one year of service, provided that the employee has performed more than 1,000 hours of service in the year. Eligible participants enter the plan in the following year in which the eligibility requirements have been met.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to 2.4% of the participant’s compensation for the first 20 years of benefit service, after their benefit accrual date, plus 3% of the participant’s compensation for benefit service exceeding 20 years of benefit service after their benefit accrual date. The Plan permits early retirement at ages 55, for participants who have completed 15 years of vesting service. A participant’s early retirement benefit is actuarially reduced in accordance with the Plan Document. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Employer’s contributions.

Unless the participant elects an optional form of payment provided by the Plan, participant’s normal retirement pension will be payable in the form of a five-year certain and life annuity with 60 monthly payments guaranteed for unmarried participants and a qualified joint and survivor annuity for participants with a living spouse at the time the pension become payable.

If a participant dies after their payments have begun, then the pension must be paid to their beneficiary as least as rapidly as under the method of distribution elected by the participant. If a participant dies before the pension payments have started, their pension must be distributed within five years after the participant’s death.

Vesting

A participant will be credited with one year of vesting service for each plan year in which the participant completes 1,000 hours of service. Eligible employees who were former employees of Crown Petroleum Corporation as of January 24, 2005 and who become employees of the Employer as of January 25, 2005 will have hours of service for vesting purposes (but not benefit accrual purposes) credited to the extent credited under the Crown Retirement Plan. A participant will become 100% vested in his accrued benefit after 5 or more years of service. Vesting is 0% for less than 5 years of service.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of Pasadena Refining System, Inc., Retirement Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Employer, as provided by the plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expense incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

The Plan paid a total of \$ 248,367 and \$ 242,622 for 2019 and 2018, respectively in administrative expenses for the year as reported on the statements of changes in net assets available for benefit. These expenses are in addition to investment related expenses.

Pasadena Refining Systems, Inc., Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefits accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2019 and 2018 were (a) life expectancy of participants (the RP-2017 Mortality Table was used), (b) retirement age assumptions (upon termination of employment after age 55 with 15 years of service), and (c) investment return. The 2019 and 2018 valuations included an assumed average rate of return of 6.0% and 5.2%, respectively. The 2018 valuation was revised to reflect an election to use prefunded balance to satisfy a portion of the minimum required contribution. The return on asset assumption is net of administrative expenses associated with providing benefits.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2020 and 2019. Had the valuations been performed as of December 31, there would be no material difference.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued.

On March 11, 2020 the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. This pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the Plan's various investment securities have incurred declines in fair value since December 31, 2019. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to

Pasadena Refining Systems, Inc., Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities within active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - o Quoted prices for similar assets or liabilities in active markets;
 - o Quoted prices for identical or similar assets or liabilities in inactive markets;
 - o Inputs other than quoted prices that are observable for the asset or liability;
 - o Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Money Market – These funds are valued at the closing price reported by the fund sponsor from an actively traded exchange. These are included as Level 1 in the ASC 820 hierarchy.

The following table details the Plan's investments at fair value, by value within the fair value hierarchy, as of December 31, 2019 and 2018.

	<u>2019</u>			
	Fair Value	Level 1	Level 2	Level 3

Gains and losses (realized and unrealized) included in changes in net assets available for benefits are reported in net appreciation in fair value of investments.

Note 4 – Information Certified by the Trustee

The Plan's administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator limited auditing procedures with respect to investment information certified by US Bank National Association, the trustee which included total investments as of December 31, 2018, and the total investment income for the year ended December 31, 2018.

Note 5 – Funding Policy

The Plan's funding policy is for the Employer to make annual contributions in an amount which will meet or exceed the Plan's annual ERISA minimum funding requirement, based on the advice of the actuary of the Plan. During 2019 and 2018, the Employer made contributions of \$1,500,000 and \$6,000,000, respectively. The Employer's contributions for 2019 and 2018, paid during 2020 and 2019, respectively, meet/exceeded the minimum funding requirements of ERISA. Additionally, in 2018 the Plan made a corrective contribution of \$66,706 to the plan for prior year overpayments to Plan participants.

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 6 – Related-Party Transactions and Party-in-Interest Transactions

The following is a list of the known parties-in-interest that provided services to the Plan during 2019 and 2018:

- The Employer provides administrative services to the Plan and absorbs administrative costs for the Plan.
- US Bank National Association is the custodian and trustee of the Plan Assets.
- T. Rowe Price is the recordkeeper of the Plan.
- Willis Towers Watson is the actuary for the Plan.
- Lockton Investment Advisors, LLC is the Plan's investment advisor and aids the Plan in meeting the Plan's fiduciary duties.
- Calvin Martin & Company, PLLC is the Plan auditor.

All of the above transactions are exempt party-in-interest transactions from the prohibited transaction rules under ERISA.

Note 7 – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

Pasadena Refining Systems, Inc., Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

1. Benefits attributable to employee contributions, considering those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit amount that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below)
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC, if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PGBC.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019 and 2018 that ceiling is approximately \$5,608 and \$5,420 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the Plan terminate, the account of each participant shall be fully (100%) vested and non-forfeitable as of the effective date of the termination of the Plan. Should the Plan partially terminate, the account of each participant who is deemed to be affected by the partial termination shall be fully (100%) vested and non-forfeitable as of the effective date of the partial termination. The participant's account shall continue to participate in the earnings credited, expenses charged, and any appreciation or depreciation of the investment fund until the vested account is distributed. The vested accounts may be distributed to participants after the effective date of the Plan termination.

Note 8 – Tax Status

The Plan obtained its latest determination letter on January 7, 2008, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with applicable requirements of the IRS. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS.

Pasadena Refining Systems, Inc., Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by these various taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Note 9 – Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to risk such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

On March 11, 2020 the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. On March 13, 2020, the President of the United States declared a national emergency relating to the disease. In addition to the President's declaration, state and local authorities have recommended social distancing and have imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however are expected to have material adverse impacts on domestic economies and may result in the United States entering a period of recession.

The Employer is considered an "Essential Business" and remained open during the mandatory business closures.

As a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits, as mentioned above. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Actuarial Value of Assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2018 plan year, discounted using the effective interest rate for the 2018 plan year.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions and is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Pasadena Refining System, Inc. furnished participant data and plan provisions as of 1/1/2019. Information on assets and contributions was supplied electronically from Wells Fargo. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are assumed to equal the actual administrative expenses paid by the plan for the most recent 12- month period for which information was available.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination and Retirement	Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used. Rates have not resulted in significant gains and losses in the annual valuation.
Benefit commencement date for deferred benefits	Deferred vested participants are assumed to commence benefits at the earliest date when benefits are unreduced under the terms of the plan. Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The assumed plan-related expenses added to the target normal cost were changed from \$300,000 to \$250,000.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination and Retirement Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used. Rates have not resulted in significant gains and losses in the annual valuation.

Benefit commencement date for deferred benefits Deferred vested participants are assumed to commence benefits at the earliest date when benefits are unreduced under the terms of the plan. Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used.

Percent married The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

Spouse age The assumed age difference for spouses is based general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The assumed plan-related expenses added to the target normal cost were changed from \$300,000 to \$250,000.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on January 25, 2005 (amended effective January 1, 2008).

Covered Employees	Employees who are members of PACE or the Local Chain 716 of the Incentive Brotherhood of Electrical Workers.
Participation Date	First of the month following attainment of age 21 with at least one year of service. Participants in the Crown Central Plan as of January 24, 2005 are automatic participants.

Definitions

Annual Compensation	The total compensation paid to a participant during the plan year as reported on the IRS Form W-2 plus eligible elective deferrals excluding signing bonuses, bonuses, imputed income, and individual recognition awards. Subject to Code 401(a)(17) limits. Compensation prior to January 25, 2005 is not used.
Benefit Service	Years and months from date of hire or January 25, 2005 if later. Service with Crown Central for former Crown Central participants who became participants on January 25, 2005 is used to determine the benefit accrual percentage. For participants who participated in the lockout from February 5, 1996 to February 1, 2001, service has been reduced five years, per the collective bargaining agreement.
Normal retirement date (NRD)	Later of first of the month on or after the participant's 65th birthday and the first of the month after the 5th anniversary of the date on which a participant first completes an hour of service

Eligibility for Benefits

Normal retirement	Age 65
Early retirement	15 years of service, including service with Crown Central
Vested benefit	Five years of service, including service with Crown Central
