(1) Description of the Plan

The following description of the JCI 401(k) Plan (the "Plan") provides only general information. Participants should refer to the amended plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of JCI Jones Chemicals, Inc. (the "Company" or the "Employer") who have completed six months of service and have attained age twenty-one. The Plan was established effective June 1, 1986, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan has adopted certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA").

(b) Contributions

Participants in the Plan may contribute up to 100% of their annual pretax compensation, not to exceed the maximum annual contribution limit allowed by the Internal Revenue Code (the "Code"). The Plan provides for matching contributions of 100% of employee contributions up to 6% of a participant's eligible compensation. Upon enrollment in the Plan, participants may direct employee and employer contributions in whole percentage increments to any of the investment options and may change their investment options on a quarterly basis. The Plan also accepts rollover contributions from other qualified plans at any time.

The Company may, at its discretion, make additional discretionary and qualified non-elective contributions to the Plan. There were no discretionary and qualified non-elective contributions made during 2019.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, rollover contributions from other qualified retirement plans, and allocations of the Plan's investment income and administrative expenses. The allocation of plan investment income and administrative expenses is based upon the participant's account balance.

(d) Vesting

Participants are immediately 100% vested in their voluntary and rollover contributions plus actual investment income thereon. Participants are 100% vested in Company matching contributions plus the actual investment income thereon after completion of the second year of service.

(1) Description of the Plan - Continued

(e) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may not exceed five years unless the loan is for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined at the time of the loan by the plan administrator. The interest rate in effect ranged from 4.25% to 6.50% during 2019. Principal and interest are paid ratably through payroll deductions. A participant may not have more than one outstanding loan balance at any time and not have more than five loans during any one year period. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

(f) Payment of Benefits

The Plan provides for payment of benefits of the participant's vested account balance as soon as reasonably practical upon retirement, death, total and permanent disability, or termination of employment. The Plan also provides for distribution to a participant upon reaching normal retirement age. Benefits are recorded when paid.

Participants, while employed, may make withdrawals against their vested account balance in accordance with the Plan, which generally requires the demonstration of financial hardship.

As a result of the Bipartisan Budget Act of 2018 and effective January 1, 2019, the requirement to suspend employee contributions and Company matching contributions to the Plan as a result of a hardship withdrawal was removed.

(g) Forfeitures

Non-vested benefits of terminated participants are forfeited on the date the employee terminates. Forfeitures are used to reduce employer matching and employer qualified non-elective contributions. At December 31, 2019 and 2018, $9 and $317, respectively, were available to offset employer matching and employer qualified non-elective contributions. The Company used $311 forfeitures to reduce Employer match contributions and pay plan expenses during the year ended December 31, 2019.

(h) Administrative Expenses

All significant costs related to plan administration are paid by the Company.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for benefits and changes in net assets available for benefits in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments in registered investment companies are stated at fair value as determined by quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year end.

The Morley Stable Value Fund (the "Fund") is a common/collective trust fund. The Fund consists of a diversified portfolio of stable value investment contracts issued by life insurance companies, banks and other financial institutions, the performance of which may be predicted by underlying fixed income investments. The principal value of these assets are designed to remain stable regardless of stock and bond market fluctuations. The Fund is maintained by Principal Global Investors Trust Company who has retained Morley Capital Management to service as investment advisor. The Fund is valued based on the NAV of units reported by the sponsoring bank or trust company. The NAV is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily and there are no restrictions on redemptions from this fund. The Plan had no unfunded commitments relating to the Fund at year end.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Included in net appreciation in fair value of investments are realized and unrealized gains and losses resulting from market value adjustments and from recording the results of sales of investments.

(d) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities based upon participant requests. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(2) Summary of Significant Accounting Policies - Continued

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(3) Information Certified by Great-West Trust Company, LLC (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosures under ERISA. Accordingly, Great-West Trust Company, LLC, the Plan's custodian, have certified that the following information included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments, at fair value and notes receivable from participants as of December 31, 2019 and 2018, as shown in the statements of net assets available for benefits;
- Total investment income and related investment activity for the year ended December 31, 2019, as shown in the statement of changes in net assets available for benefits;
- Assets held for investment purposes as presented in the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2019.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to related information included in the financial statements and supplemental schedule.

(4) Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means; if the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability;

(4) Fair Value Measurements - Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Registered Investment Companies

Registered investment companies are valued at quoted market prices in an exchange and active markets, which represent the NAV of shares held by the Plan at year end.

Common/Collective Trust

Collective trust funds are valued based on the unit value as determined by the sponsoring bank or trust.

As of December 31, 2019 and 2018, the Plan's investments measured at fair value on a recurring basis were as follows:

		Fair Value Measurements at Report Date Using		
Description	**Assets Measured at Fair Value at December 31, 2019**	**Observable Inputs (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 11,381,915	11,381,915	-	-
Common/collective trust at NAV	1,739,471 **(a)**			
	$ 13,121,386			

		Fair Value Measurements at Report Date Using		
Description	**Assets Measured at Fair Value at December 31, 2018**	**Observable Inputs (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 9,556,515	9,556,515	-	-
Common/collective trust at NAV	1,059,589 **(a)**			
	$ 10,616,104			

(a) *In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.*

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Party-in-Interest Transactions

The Plan paid approximately $27,000 to Great-West Life & Annuity Insurance Company, an affiliate of the custodian, for services provided to the Plan during 2019. The Plan also paid approximately $29,500 for investment advisory fees during the year. Participant loans are considered party-in-interest transactions, because they are transacted with plan participants. These transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA; they are, however, expressly exempted from the prohibited transaction rules.

(7) Tax Status

The Plan has adopted the Great-West Trust Company Defined Contribution Prototype Plan and Trust, which received its latest opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype plan adopted by the Company, as then designed, was qualified under Section 401(a) of the Code. The adopted plan document has been amended since receiving the opinion letter; however, the plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 15, 2020, the date the financial statements were available to be issued.

(8) Subsequent Events - Continued

On January 30, 2020, the World Health Organization ("WHO") declared that the outbreak of the coronavirus originating in Wuhan, China (the "COVID-19 outbreak") constituted a Public Health Emergency of International Concern ("PHEIC"), creating risks to the international community as the virus spread globally beyond its point of origin. On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve as of the date the financial statements were available to be issued. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, there has been heightened market risk and the Plan's investment portfolio has incurred significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

In December 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was signed into law, related to required minimum distributions and the limitation of lifetime or stretch distributions to remain compliant under the applicable laws and regulations. These provisions are effective beginning January 1, 2020.

Additionally, on March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants.

Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000;
- Plan participants under the CARES Act and has implemented the following provisions:
    - Increased the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance;
- Extended the period for loan repayments, if applicable, up to one year.

The Plan is in the process of operationally being amended to implement certain changes permitted by the above law changes.
