1 DESCRIPTION OF PLAN

The following description of The Briar Team, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of The Briar Team, LLC and a related entity (the "Companies") under Section 401(k) of the Internal Revenue Code, who have completed at least six months of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). Participants direct the investment of their contributions into various investment options offered by the Plan. The Companies are not required to make matching contributions or non-elective contributions to the Plan, but may elect to do so. The Companies' contributions are invested as directed by the participant. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Companies' matching contributions, as well as allocations of the Companies' profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Companies' contribution portion of their accounts is based on years of service as follows:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 9.25%. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, if the vested account balance, excluding rollover contributions, exceeds $5,000, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments or a combination of the two. For vested accounts, excluding rollover contributions, less than $5,000, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts

As of December 31, 2019 and 2018, forfeited nonvested accounts totaled $12,599 and $40,571, respectively. These accounts are used to reduce employer contributions or to pay administrative expenses.

2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Companies. Expenses that are paid by the Companies are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2020, the date these financial statements were available to be issued.

3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

a) Quoted prices for similar assets or liabilities in active markets.
b) Quoted prices for identical or similar assets or liabilities in inactive markets.
c) Inputs other than quoted prices that are observable for the asset or liability.
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

Pooled Separate Accounts - Pooled separate accounts are comprised primarily of investments, typically mutual funds, held in the sub-accounts of an insurance company. The fair value of the underlying investments are a publicly quoted pricing input used in determining the net asset value of the pooled separate account, whose fair value is not publicly quoted. Net asset value is used as a practical expedient to estimate the fair value of a pooled separate account as long as certain requirements are met.

Collective Trust Funds - Valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Investments measured at net asset value (a)	$ -	$ -	$ -	$ 5,619,264
Investments at fair value	$ -	$ -	$ -	$ 5,619,264

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investments measured at net asset value (a)	$ -	$ -	$ -	$ 4,195,446
Investments at fair value	$ -	$ -	$ -	$ 4,195,446

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels

There were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3 during 2019 or 2018.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 3,272,045	N/A	Daily	12 months
Collective trust funds	2,347,219	N/A	Daily	12 months

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 2,549,532	N/A	Daily	12 months
Collective trust funds	1,645,914	N/A	Daily	12 months

4 PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the custodian, therefore, these transactions qualify as party in interest transactions and are denoted as such on the supplemental schedule of assets (held at end of year).

The Plan pays the custodian for custodial, record keeping, investment and other administrative services. These payments are included as administrative expenses in the accompanying financial statements.

5 PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

6 TAX STATUS

The IRS has determined and informed the Companies, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7 RISKS AND UNCERTAINTIES

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The extent of the impact and effects of the recent outbreak of the coronavirus on the Plan's operations will depend on future developments, including the duration and spread of the outbreak, related travel advisories and restrictions and the recovery time of disrupted financial markets, all of which are highly uncertain and cannot be predicted. While the Plan's operations have not been significantly impacted due to the virus to date, if the virus causes significant negative impacts to economic conditions, the Plan's operations may be adversely affected.

8 CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held as of December 31, 2019 and 2018, and net appreciation in fair value of investments for 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian.
