1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the Company's contribution, Plan earnings, and charged with an allocation of investment management fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The safe harbor match contributions are 100% vested. Vesting in the Plan Sponsor's profit sharing contribution portion of their accounts and earnings thereon is based on years of continuous service. A participant is 20% vested after two years of service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates of 4.25% - 6.5%. Loans are only available for certain purposes as defined by the loan policy in the Plan document.

Payment of Benefits

Upon termination of service due to retirement, death, disability or termination of employment, a participant may elect to receive a lump-sum cash payment. Distributions made from the Plan for reasons other than death may be made as a lump sum payment or substantially equal annual, or more frequent installments over a period not to exceed the joint life expectancy of the Participant and his Beneficiary. A single lump-sum distribution will be made to terminated participants whose vested balance is less than $5,000.

In certain hardship situations, as described in the Plan Document, participants may withdraw part of their account balances while actively employed.

Forfeitures

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $147,676 and $9,876, respectively. These accounts may be used to reduce future employer contributions or to pay qualified administrative expenses of the Plan. During 2019, $43,722 of forfeitures were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, other than the fully benefit-responsive investment contract discussed in Note 3, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2020, the date the financial statements were available to be issued. During the period from December 31, 2019 to October 9, 2020, the Plan did not have any material recognizable subsequent events other than those disclosed in Note 10.

3. Guaranteed Investment Contract

The Plan is invested in a collective investment fund (Fund) which invests primarily in stable value products, such as Guaranteed Investment Contracts (GICs), Separate Account GICs, and Synthetic GICs. The Fund is considered to be fully benefit-responsive. The Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The underlying contract issuers are contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Fund.

Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment fund. The Fund is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the plan by SunTrust, represents contributions made under the Fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value within the limits of the Fund.

In certain circumstances, the amount withdrawn from the GIC would be payable at fair value rather than at contract value. These circumstances may include, but are not limited to, the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events not within the control of the Fund resulting in a material and adverse financial impact on the issuer's obligations under the GIC.

Based on prior experience, the plan administrator believes that it is not probable that such circumstances would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with participants.

The GICs into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the GIC on short notice. These circumstances may include, but are not limited to, the following:

3. Guaranteed Investment Contract (continued)

1. The Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated;
2. The plan administrator fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or
3. If the fixed-income securities underlying the separate account or synthetic GIC fail to meet certain criteria as specified in each GIC.

If one of these events were to occur, the issuer could terminate the separate account or synthetic GIC at the market value of the underlying fixed-income securities (or in the case of traditional GIC, at the hypothetical market value based upon a contractual formula). The plan administrator believes that these conditions are not probable of occurring.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 14,244,465**	**$ -**	**$ -**	**$ 14,244,465**
Total assets at fair value	**$ 14,244,465**	**$ -**	**$ -**	**$ 14,244,465**

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,389,417	$ -	$ -	$ 10,389,417
Total assets at fair value	$ 10,389,417	$ -	$ -	$ 10,389,417

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

6. Tax Status

The Plan has not requested a determination letter from the Internal Revenue Service (IRS) regarding the Plan's exemption from federal income tax under Section 401(a) of the IRC. However, the Plan adopted a volume submitter profit sharing plan. The volume submitter profit sharing plan has received an opinion letter from the IRS as to the volume submitter profit sharing plan's qualified status. The volume submitter profit sharing plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC, and as such, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

7. Related Party Transactions and Party In Interest Transactions

The Plan's investments are managed by the Trustee, SunTrust. These transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services amounted to $41,329 for the year ended December 31, 2019.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Information Certified by Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by SunTrust (the Trustee of the Plan).

9. Information Certified by Trustee (continued)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by SunTrust except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

10. Other Matter

In late 2019, a novel strain of coronavirus was reported in Wuhan, Hubei, China. The World Health Organization determined the resulting outbreak of COVID 19, the disease caused by this novel coronavirus, to be a pandemic. The pandemic is disrupting organizations worldwide as national and local governments implement measures intended to slow the spread of COVID 19. The extent of the impact of COVID 19 on the Plan will depend on certain developments outside of the Plan and the Plan Sponsor’s control, including the duration and spread of the outbreak; its impact on employees and vendors; and broader economic conditions, all of which are uncertain and cannot be predicted at this time.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (the CARES Act) was signed into law. The CARES Act brings immediate changes and relief to 401(k) plans. Participants should contact the Plan Sponsor regarding changes to the Plan as a result of the CARES Act.
