G.S. WIRING SYSTEMS, INC. SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note 1—Description of the Plan

The following description of the G.S. Wiring Systems, Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on July 1, 1992 for the benefit of eligible employees of G.S. Wiring Systems, Inc. and Japan West (collectively, the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan entered into an agreement with Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (the Trustees), as of January 9, 2019 to act as trustees of the Plan's assets. The Plan was restated as of this effective date. The Plan also has an agreement with Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the Custodian). Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company continues to act as custodian for certain plan assets.

Contributions

Eligible employees may elect to defer a portion of their compensation to be contributed to the Plan not to exceed the dollar limit set by law. Participants who have attained the age of fifty before the end of the Plan year are eligible to make catch-up contributions. In addition, participants are eligible to receive a discretionary matching and discretionary profit sharing contribution set by the Plan Sponsor. For the year ended December 31, 2019, the Company elected to match 50% of the first 5% of each participant's deferral contribution. There were no discretionary profit sharing contributions for the year ended December 31, 2019.

The Plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the Plan on the employee's date of hire and will be eligible for the discretionary employer matching contribution. The amount of the automatic deferral is 3% of the participant's eligible compensation and their contributions are invested in a designated balanced fund until changed by the participant.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contribution.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's discretionary matching contribution (when made) and an allocation of (a) the Company's discretionary profit sharing contribution (when made) (b) Plan earnings (losses) and (c) charged with an allocation of administration expenses, if any, of their respective elected investment option. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances or specific participant transactions, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1—Description of the Plan—continued

Notes receivable from participants

Participants may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The \$50,000 is reduced by the highest note receivable balance during the past 12 months minus the loan balance on the date a new note receivable is made. The note receivable term may not be longer than five years. Notes receivable are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time the notes are issued. Principal and interest are paid ratably through payroll deductions. Notes receivable are secured with at least 50% of the present value of the participant's vested interest in the Plan. The Plan allows for participants to have two notes receivable outstanding at a time.

Payment of benefits

Upon termination of service due to retirement, death or disability, if earlier, or termination, a participant may elect to receive either a lump-sum equal to the value of the participant's vested interest in his or her account, or annual installment payments, as defined by the plan agreement. If a participant's balance was less than \$5,000 and a distribution election was not made, the full value of the account was to be distributed in a single lump-sum within a reasonable period of time, either directly to the participant if the balance did not exceed \$1,000, or to an individual retirement account if the balance was between \$1,000 and \$5,000. Further, the Plan Administrator may permit a participant who experiences a qualified financial hardship, as defined, to receive a lump-sum distribution of a portion of the participant's account balance.

Vesting

Participants are 100% vested in their contributions plus any earnings thereon. Vesting in the Plan Sponsor's discretionary contributions plus earnings thereon is based on years of continuous service. A participant is 20%, 40%, 60%, 80% and 100% vested after 1, 2, 3, 4, and 5 years of credited service, respectively.

Forfeitures

Forfeitures of terminated participants' non-vested accounts are used to reduce the Plan's administrative expenses or to reduce future employer discretionary contributions. The Plan must reinstate the participant's non-vested account balance if the participant is re-employed prior to five consecutive one-year service breaks. In 2019, the Company did not use any forfeitures. At December 31, 2019 and 2018, forfeited non-vested accounts totaled \$17,634 and \$1,081, respectively.

Administrative expenses

Fees related to the administration of the Plan or associated with the investment of Plan assets may be paid by the Plan or by the Company. Administrative expenses that are paid by the Company are excluded from these financial statements. Fees incurred as a result of the participant's investment decision will be allocated to that participant. Participants are charged processing fees directly for distributions, including in-service distributions, hardship distributions and loan originations and these fees are excluded from administrative expenses.

Note 1—Description of the Plan—continued

Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Plan Sponsor may determine.

Note 2—Summary of significant accounting policies

Basis of accounting

The Plan maintains its records on the accrual basis, whereby income is recognized when earned and expenses are recognized when the obligations are incurred.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value with the exception of the Guaranteed Interest Fund (a fully benefit-responsive investment contract) which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment transactions are accounted for on a trade-date basis and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned. Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are rewarded on the accrual basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If the participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Contributions

Employee salary deferrals and Employer contributions are included in income during the period the related salary is earned.

Benefits paid to participants

Benefit payments to participants are recorded when paid.

Reclassification

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year.

Note 3—Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held as of December 31, 2019 and 2018, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest, dividends, and notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan Sponsor and certified by the Trustees and Custodian, as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors. Participant accounts are allocated among the investment options as directed by the participants.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic 820, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2019 and 2018

Note 4—Fair value measurements—continued

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes in methodologies used at December 31, 2019 and 2018.

Mutual Funds- valued at quoted market prices that represent the net asset value of shares held by the Plan at year end and are classified as Level 1. The net asset value is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price and, therefore, are deemed to be actively traded.

Pooled Separate Accounts- valued based on the net asset value of units held by the Plan at year-end as provided by the insurance company. The net asset value, as provided by the Custodian, is used as a practical expedient to estimate fair value and are not assigned a level in the fair value hierarchy. The net asset value is based on the fair value of the underlying assets owned by the account, net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported net asset value.

Common Collective Trusts- valued at the net asset value of units of a collective trust. The net asset value, as provided by the Trustees and Custodian, is used as a practical expedient to estimate fair value and are not assigned a level in the fair value hierarchy. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. The net asset value would not be used when if it is determined to be probable that the investment will be sold for an amount different than the reported net asset value. If the Plan initiates a full redemption of the common collective trusts, the issuer reserves the right to require a delay withdrawal in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4—Fair value measurements—continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets that are measured at fair value.

Mutual funds	\$ 1,089,802	\$ 1,089,802	\$ 0	\$ 0

Investments measured at net asset value (a)	5,791,630

Description	Total	Fair Value Measurements at December 31, 2018 Using		
		Level (1)	Level (2)	Level (3)

Investments measured at net asset value (a)	4,373,856			
Total investment assets at fair value	\$ 5,959,899			

- (a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The common collective trusts have no unfunded commitments, have a daily redemption frequency and require a redemption period ranging from 1-day to 12 months. The fair value of the common collective trusts' fair value is \$5,791,066 and \$12,467 at December 31, 2019 and 2018, respectively.

The pooled separate accounts have no unfunded commitments, have a daily redemption frequency and requires a 1-day redemption period. The fair value of the pooled separate accounts' fair value is \$564 and \$4,361,389 at December 31, 2019 and 2018, respectively.

Note 5—Fully benefit-responsive investment contract with an insurance company

The Plan has a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company maintains the contributions in a general account starting in 2019. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Total value of the contract was \$19,534 as of December 31, 2019. Interest crediting rates are reviewed on a quarterly basis for resetting. The crediting interest rate and the yield for the fixed annuity contract was 1.45% as of December 31, 2019.

Participants may transfer their account balance to any other investment option offered under the Plan by the Trustees at any time with no restrictions or penalties. If a participant transfers out of the investment contract, Great-West Life & Annuity Insurance Company reserves the right to restrict transfers for up to 30 days. If the Plan Sponsor chooses to terminate the investment contract, there may be participant transfer restrictions until the money is paid to the next provider. If there is a Plan Sponsor initiated event, a market value adjustment is assessed on participant distributions for a period of 12 or 36 months, depending on market conditions. These transactions are processed after the resolution of closed or disrupted financial exchanges or markets.

Note 6—Related party and party in interest transactions

Certain Plan investments are managed by the Trustees and the Custodian. Accordingly, as defined by the Plan, these transactions qualify as party in interest transactions. Fees paid by the Plan for investment management services are included in net (depreciation) appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the Trustees and the Custodian in the amount of approximately \$27,157 during 2019.

Note 7—Tax status

The Internal Revenue Service issued a letter dated March 31, 2014 that the Prototype Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Prototype Plan has been amended since receiving the determination letter; however, the Plan Sponsor and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 8—Risks and uncertainties

The Plan invests in various mutual funds, pooled separate accounts, an investment contract and common collective trusts with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Note 9—Subsequent events

The Plan Sponsor has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued and has noted the following that requires disclosure:

As a result of the spread of the COVID-19 coronavirus during 2020, economic uncertainties have arisen as of the date of the financial statements. The extent of the impact of COVID-19 on the Plan's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, and the impact on the Plan Sponsor, participants and investments, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Plan's financial condition or results of operations is uncertain.
