NOTE A - DESCRIPTION OF THE PLAN

The following description of the Foursquare Labs Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan, which became effective on April 1, 2016, is a restatement of an existing plan which originally started on January 1, 2010 and is a defined contribution plan under Internal Revenue Code ("IRC") Section 401(k), which permits employees elective contributions. The Plan covers all eligible employees of Foursquare Labs Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") as amended.

In accordance with the provisions of the Plan, all full-time employees of the Company who are age 21 or older will become eligible immediately to participate in the Plan. Temporary and Intern Employees are excluded, unless such individual(s) attain age 21 and complete(s) at least 1,000 hours of service during a 12 month period beginning on the employee's date of hire.

Ascensus Trust Company is the custodian. The Vanguard Group, Inc. ("Vanguard") is the record-keeper of the Plan and has retained Ascensus Inc. as a subcontractor to provide record-keeping services to the Plan.

[2] Contributions:

Participants may contribute up to 85% of pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In no event may participant pre-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan within 30 days of eligibility. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation. The Plan also has an escalation feature whereby the deferral rate will increase each year by 1% up to a maximum of 12% for new and existing employees.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[4] Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon.

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. Interest rates on outstanding loan balances range from 5.25% to 6.5% and 4.75% to 6.5% at December 31, 2019 and 2018, respectively. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed whey they are incurred.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or substantially equal annual, or more frequent installments over a period, not to exceed the joint life expectancy of the participant and his beneficiary.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

[2] Subsequent events:

The Plan has evaluated subsequent events through October 26, 2020, the date the financial statements were available to be issued.

[3] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

Substantially all expenses, with the exception of fees related to notes receivable from participants and administrative expenses, incurred in connection with the administration of the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

[6] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Ascensus, LLC, as agent for Ascensus Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments and related investment and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the statement of changes in net assets available for benefits for the year ended December 31, 2019, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2019 and 2018:

Investment Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 153,362,961**	**$ -**	**$ -**	**$ 153,362,961**

Investment Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,282,886	$ -	$ -	$ 10,282,886

Changes in fair value levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E- TAX STATUS

The Plan has adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by CCH Incorporated DBA FTwilliam Com. On March 31, 2014, the Internal Revenue Service ("IRS") stated in an advisory letter that the Volume Submitter adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE F - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of mutual funds managed by Vanguard. Ascensus Trust Company is the Plan custodian and Vanguard is the record keeper; therefore, transactions related to these investments qualify as party-in-interest. Fees paid by the Plan for record keeping and loan processing were $ 7,432 for the year ended December 31, 2019.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2019 may not necessarily be indicative of amounts that could be realized in a current market exchange. The extent of the impact of the coronavirus ("COVID-19") outbreak on the financial performance of the Plan's investments will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions and the impact of COVID-19 on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.

COVID-19 poses risks to the Company as well, given that such public health epidemics, if sustained, could impact Company employees and customers in affected regions. Additionally, a prolonged widespread epidemic could adversely impact global economies and financial markets resulting in an economic downturn that may impact demand for the Company's products. Such impacts could adversely affect Company profitability, cash flows and financial results. At this point, the extent to which the coronavirus may impact the Company's financial results is uncertain.

NOTE H - MUTUAL FUND FEES

Certain investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE J - NONEXEMPT PARTY-IN-INTEREST TRANSACTION

During the year ended December 31, 2019, it was discovered that certain amounts withheld were not timely remitted to the Plan. The Plan administrator deposited $107,857 into the Plan in September 2019, which includes lost interest of $8,378, in order to make the affected participants whole. In addition, in October 2020, the Plan administrator also deposited $4,269 into the Plan, which includes lost interest of $216, in order to make the affected participants whole.

NOTE K - CORONAVIRUS AID, RELIEF, AND ECONOMIC SECURITY ("CARES") ACT

The Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020 and provided optional distribution and loan provisions as well as suspension of required minimum distributions ("RMDs") for anyone required to receive an RMD in 2020.

The Plan Sponsor did not elect to implement any of the optional provisions.
