1. DESCRIPTION OF PLAN

The following brief description of Quirch Foods Co. 401(K) Plan (the "Plan") provides only general information. Reference to the Plan agreement should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Quirch Foods Co. (the "Employer") who have completed at least six months of service and are age twenty-one or older. Effective January 1, 2014, the Plan was amended to also include the employees of Helmsman Freight Solutions, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the Plan is January 1, 1998.

Participant Accounts

An employee who has attained the age of twenty-one years and has completed six months of service has met the eligibility requirements and may enter the Plan on the first day of the first, fourth, seventh and tenth month of the Plan year coinciding with or following the completion of eligibility requirements. Each participant's account is credited with the participant's contribution and an allocation of (a) the Employer's contribution and (b) Plan earnings. Allocations of earnings are based on the individual participant's account balances.

Payment of Benefits

Upon termination of service, a participant may request to receive a lump-sum amount equal to the vested percentage of his or her account. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus actual earnings thereon is based on the accumulated years of vesting service.

Contributions

Contributions to the Plan are made by the participants and the Employer. A participant may elect to defer a percentage of his pre-tax compensation, not to exceed the maximum contribution limits specified by ERISA. The Employer may make a matching contribution equal to a discretionary percentage of the participant's salary reductions.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon and shall not be subject to forfeiture for any reason. Vesting in the discretionary Employer matching contribution is based on years of service in accordance with the following:

Years of Service	Vested Percentage
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Notwithstanding the above, a participant shall become fully vested upon his normal retirement date, upon his date of death, or upon the date of his total or permanent disability.

Forfeited Accounts

Forfeitures are first used to pay the Plan's administrative expenses. Any remaining forfeitures are used to reduce Employer matching contributions. Forfeitures amounted to approximately $8,000 and $11,300 during the years ended September 30, 2018 and 2017, respectively.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from the Plan an aggregate amount not to exceed the lesser of $50,000 or 50% of the vested portion of their account balance. Loan terms range from one to five years, except in the case of a loan for the purchase of a primary residence, which shall be determined by the Employer. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. Interest rates as of September 30, 2018 and 2017 ranged from approximately 4.75% to 6.00% and 4.75% to 6.25%, respectively. Principal and interest is paid ratably through monthly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan's group annuity contract with John Hancock Life Insurance Company ("John Hancock") is not "fully benefit-responsive." Therefore, for financial statement purposes, this contract must be carried at fair value. Fair value also means market value. John Hancock pooled separate accounts are reported at fair value.

Administrative Expenses

For the years ended September 30, 2018 and 2017, substantially all administrative expenses were paid by the Employer.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned and are reflected as a component of net appreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status

The Plan adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement developed by The Pension Studio effective October 1, 2009, which obtained a favorable Internal Revenue Service ("IRS") opinion determination letter on March 31, 2014 in which the IRS stated that the form of the underlying volume submitter plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Subsequent Events

The Plan has evaluated subsequent events through July 11, 2019, which is the date the financial statements were available to be issued.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Effective October 4, 2005, the Plan entered into a group annuity insurance contract with John Hancock. John Hancock receives the contributions and deposits them into pooled separate accounts according to the participant's election. John Hancock pooled separate accounts are reported at fair value. As of September 30, 2018 and 2017, the Plan did not hold any guaranteed interest accounts; therefore, all accounts are carried at fair market value.

4. INVESTMENTS

During 2018 and 2017, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value from pooled separate accounts by $1,050,642 and $1,438,561, respectively.

5. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. All of the Plan's investments, including notes receivable from participants of $1,000,827 and $1,035,813 as of September 30, 2018 and 2017, respectively, are party-in-interest investments, since John Hancock, the Plan's trustee, is the issuer of the pooled separate accounts.

6. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock, trustee as of and for the years ended September 30, 2018 and 2017, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

If the Plan is terminated, the participants will be entitled to their entire account balance. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

10. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the accounting standard are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2018 and 2017.

Pooled Separate Accounts: Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end. (See NOTE 3)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets and liabilities measured and recorded at fair value on a recurring basis consisted of the following types of instruments as of September 30, 2018 and 2017:

10. FAIR VALUE MEASUREMENTS (CONTINUED)
