INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Red Cow 401(k) Retirement Plan
San Diego, California

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Red Cow 401k Retirement Plan, which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company (AUL), the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that AUL holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of and for the year ended December 31, 2019, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters
The supplemental Schedule H, Line 4i - Schedule of Assets Held At End of Year, and Schedule H, Line 4a - Schedule of Delinquent Participant Contributions as of or for the year ended December 31, 2019, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – PLAN DESCRIPTION

The following description of the Red Cow 401k Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective January 1, 2019, is a defined contribution plan covering substantially all employees of Red Cow, Inc and affiliated companies qualifying as members of a controlled group (collectively referred to as the "Company"). Employees covered by a collective bargaining agreement and non-resident aliens are excluded from participating in the Plan. The Plan includes the following affiliated companies: Asphalt & Concrete Specialist, Vivo Group, Inc., Harvey, Inc., HIP HQ, LLC, Go Heli, LLC, and Go Equipment, LLC.

The Plan is designated to qualify as a Safe Harbor 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to participate after reaching 21 years of age and having completed at least 30 days of service. Employees may enter the Plan on the first day of the month coinciding with or following the date after eligibility requirements are met. To be eligible for employer matching, the Participant must have completed one year of service or 1,000 hours.

Contributions

Participants may contribute up to 100% of their pretax annual compensation, or after-tax Roth contributions, as defined in the Plan, subject to certain Internal Revenue Code limitations. Participants who have attained age 50 before year end are eligible to make catch-up contributions. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants can change their salary deferral rate which becomes effective on the first day of the next payroll period.

The Company makes a safe harbor matching contribution equal to 100% of the participant deferral up to the first 3% of Plan compensation plus 50% of the amount between 3% and 5% of Plan compensation. Safe harbor matching contributions are made each pay period. Total safe harbor matching contributions for the year ended December 31, 2019 were $157,251.

The Company may also make a discretionary contribution. Discretionary contributions are made annually. There was no discretionary contribution for the year ended December 31, 2019.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, Company contributions and an allocation of the Plan's earnings and losses, including administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – PLAN DESCRIPTION (Continued)

Investment Options
Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a guaranteed interest account as investment options for the participants. An investment balance reallocation may be made at any time. Participants can change their investment selections daily.

Vesting
Participants are immediately vested in their contributions and the safe harbor match. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years in which each participant completes 1,000 hours of service. Participants are 100% vested after 6 years of credited service, or if they were an employee upon retirement, disability, death, or termination of the Plan.

Benefit Payments
Upon attainment of age 59 1/2, or termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account or substantially equal installments over a stipulated period. For termination of service for other reasons, a participant may receive the value of the interest in his or her account as a lump-sum distribution or elect to rollover the balance into another qualified benefit plan.

If the participant's vested account balance does not exceed $5,000, the distribution will automatically be paid in a single lump-sum payment. A terminated participant with a balance of less than $1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account.

Plan Termination
Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Administrative Expenses
The trustees have elected to have the Company pay for the administrative and audit fees of the Plan. For the year ended December 31, 2019, there were no expenses paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual method of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value, except for the fully benefit-responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Pooled Separate Accounts
The pooled separate accounts are amounts allocated to variable investment accounts within an American United Life Insurance Company (AUL) separate account which is credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. The value of each accumulation unit is published each business day. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entities as directed by the contract holder. The Plan's pooled separate accounts are valued using the net asset value as a practical expedient, which is the price at which participants are able to initiate transactions. These funds have no redemption restrictions or unfunded commitments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Guaranteed Interest Contract

The Plan's fully benefit-responsive guaranteed investment contract (AUL Stable Value Account) is backed by AUL's general account assets. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract can be subject to a market value adjustment upon contract termination. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value is equal to the principal balance plus accrued interest. At December 31, 2019, the investment in the AUL Stable Value Account was $401 and is included in the statement of net assets available for benefits under "Investment at contract value."

Interest rates are established and declared for new contributions that will be received in a calendar year. The rate is based on the return AUL expects on new investments made and held within the AUL general account and will always equal or exceed the contractually guaranteed rate.

The crediting interest rate is based on an agreed-upon formula with the issuer and is 1.25% at December 31, 2019. Such interest rates are periodically reviewed for resetting based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying securities.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. Certain events might limit the Plan's ability to transact at contract value with AUL. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan's sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with Plan participants, are probable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosures on contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

As of December 31, 2019, the Plan's investments were held by the custodian, American United Life Insurance Company (AUL). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	2019
Investments:	
Pooled separate accounts at fair value	$ 481,512
Guaranteed interest account at contract value	401
Total investments	$ 481,913
Investment income:	
Net appreciation in fair value of investments	$ 30,869
Interest income	4
Total investment income	$ 30,873

During 2019, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $30,869.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification Topic No. 820 ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts - Valued at fair value based on the NAV of the units held in the account. The NAV, as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the account less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There are no restrictions on redemption by participants.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	$ -	$ -	$ -	-
Investments at net asset value (a)				481,512
Total investments at fair value				**$ 481,512**

(a) In accordance with Subtopic 820-10, certain investments that were measured at contract value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth the disclosure for the fair value measurement of investments that are measured at NAV per share (or its equivalent) as a practical expedient as of December 31, 2019:

	Fair Value December 31 2019	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts				
Asset allocation (I)	$ 382,858	$ -	Daily	None
Bonds (II)	8,107	-	Daily	None
Global/international (III)	13,051	-	Daily	None
Large cap blend (IV)	24,577	-	Daily	None
Large cap growth (V)	14,442	-	Daily	None
Large cap value (VI)	4,767	-	Daily	None
Small/mid/specialty (VII)	33,710	-	Daily	None
Total	$ 481,512	$ -		

(I) Pooled separate accounts - asset allocation: This class consists of target-date portfolios which provide diversified exposure to stocks, bonds, and cash for those investors who have a specific date in mind for retirement. The investments seek high total return over time through a combination of capital appreciation and income. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. Management adjusts the allocation among asset classes to more-conservative mixes as the target date approaches, following a preset glide path.

(II) Pooled separate accounts - bonds: This class invests in fixed income securities that have been determined to be appropriate for its investment goal, primarily seeking income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund.

(III) Pooled separate accounts - global/international: This class includes three main types of funds. International funds invest in stocks of companies outside of the United States. World Stock funds invest in stocks of companies in the United States and developed countries outside of the United States. Emerging Markets funds invest in securities of developing countries and demonstrate the greatest volatility of performance due to the unstable nature of their economies, political structures and currencies. The fund seeks long-term capital appreciation and growth.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

(IV) Pooled separate accounts - large cap blend: This class seeks long-term growth of capital and income by investing primarily in common stocks of companies that appear to offer superior opportunities for capital growth and most of which have a history of paying dividends. The blend style is assigned to portfolios where neither growth nor value characteristics predominate. These portfolios tend to invest across the spectrum of US industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index.

(V) Pooled separate accounts - large cap growth: This class invests primarily in stocks of larger U.S. companies employing an investment style of growth. A growth fund invests in the stocks of companies that are growing rapidly. Growth companies tend to reinvest all or most of their profits for research and development rather than pay dividends. Growth funds are focused on generating capital gains rather than income. Funds emphasizing growth stocks will typically have higher price/earnings ratios and make little or no dividend payments.

(VI) Pooled separate accounts - large cap value: This class seeks long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. The investment styles exhibited are value and "blend." Stocks are selected for price appreciation and for the value of the current income provided through dividends.

(VII) Pooled separate accounts - small/mid/specialty: This class employs investment styles of growth, value, or a blend of growth and value. These funds seek capital appreciation by investing primarily in stocks of small-and medium-sized companies. Generally, these companies are striving to develop new products or markets and have above-average earnings growth potential. "Specialty" or "sector" funds invest in stocks of companies in a particular industry.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are pooled separate accounts and units of a stable value fund contract that is managed by American United Life Insurance Company. OneAmerica is the Plan's third-party administrator and American United Life Insurance Company is the Plan's custodian, as defined by the Plan. As described in Note 1, the Company paid certain expenses related to Plan operations and investment activity to various service providers. Therefore, these transactions qualify as party-in-interest transactions.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 – INCOME TAX STATUS

The Plan has adopted a Volume Submitter Profit Sharing Plan with CODA with Edberg & Perry Inc., which the Internal Revenue Service has determined by an advisory letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections on the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe the Plan is currently being designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States require the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The required IRS Form 5500 for the year ended was not filed timely. The Plan sponsor will file the 2019 IRS Form 5500 under the Department of Labor's Delinquent Filer Voluntary Compliance Program.

NOTE 8 – DELINQUENT PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2019 certain participant contributions were not remitted to the Plan in a timely manner, resulting in prohibited transactions. In 2019, the total delinquent contributions were $15,302. The Plan administrator will correct the delinquent contributions outside of the Department of Labor's Voluntary Fiduciary Correction Program.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 Form 5500:

	2019
Net assets available for benefits per the financial statements	$ 553,162
Employer contribution receivable	(4,982)
Net assets available for benefits per the Form 5500	**$ 548,180**

The following is a reconciliation of the affected components of the changes in net assets available for benefits per the financial statements at December 31, 2019 to the Form 5500:

Total contributions per the financial statements	$ 524,074
Employer contribution receivable	(4,982)
Total contributions per the Form 5500	**$ 519,092**

NOTE 10 – SUBSEQUENT EVENTS

Subsequent to year-end, the United States and global markets experienced significant volatility in value resulting from uncertainty caused by the world-wide COVID-19 pandemic. The Plan sponsor is closely monitoring its investment portfolio and its liquidity and is actively working to minimize the impact of this volatility. The Plan's financial statements do not include adjustments to fair value that have resulted from this volatility.

Subsequent to year end, the Plan was amended to allow for certain special eligibility rules pertaining to a specific participant.

The Company has evaluated subsequent events through October 29, 2020, the date that the financial statements were available to be issued
