Techtronic Industries 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Techtronic Industries 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all hourly and salaried employees of Milwaukee Electric Tool Corporation, DreBo America, Inc., Hoover, Inc., One World Technologies, Inc., Royal Appliance Manufacturing Co. (d/b/a TTI Floor Care North America), R&B Sales and Marketing, Inc., Macao (Commercial Offshore) Ltd., and Techtronic Industries North America, Inc. (collectively, the Company). Employees who are age 18 or older are eligible to participate in the Plan following completion of one hour of service. The Plan Administrator is responsible for oversight of the Plan. The Employee Benefits Committee (formerly, Retirement Committee) of the Company determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change in recordkeeper and trustee: Effective January 1, 2019, T. Rowe Price Retirement Plan Services, Inc. became the Plan's recordkeeper and T. Rowe Price Trust Company became the Plan's trustee. In order to facilitate this change, the Plan experienced a blackout period from December 21, 2018 through January 18, 2019.

Plan amendments: Effective January 1, 2019, the Plan was amended and restated to adopt a volume submitter plan sponsored by T. Rowe Price Retirement Plan Services, Inc. As a result, the Plan's service requirement was eliminated, the deferral limit was increased to 75% of compensation each payroll period, and to modify the provisions around hardship distributions.

The Plan was amended on July 24, 2019 to permit Milwaukee Electric Tool Corporate Employees' Profit Sharing Retirement Plan and Imperial Blades, LLC 401(k) Plan to merge into the Plan effective August 1, 2019. The mergers resulted in the transfer to the Plan of approximately \$49 million. The amendment also increased the maximum number of outstanding loans per participant to two.

The Plan was amended on August 9, 2019 with an effective date of September 3, 2019 to permit after-tax contributions up to 75% of their compensation each pay period.

Contributions: Participants may contribute up to 50% of their annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollovers). The Plan provides for an automatic employee deferral election of 5% unless such participant makes a different deferral election directly with T. Rowe Price Retirement Plan Services. In addition, if a participant is automatically enrolled, the plan will automatically increase a participant's deferral election by 1% until the participant reaches a maximum of 8% of a participant's compensation. The Company may make matching contributions, at its discretion, in an amount not to exceed 8% of a participant's compensation. The Company's contribution percentage was 50% of the first 8% of compensation for the year ended December 31, 2019. The Company may also make discretionary non-elective contributions to the Plan. There were no non-elective contributions for the year ended December 31, 2019. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available under the Plan in 1% increments. Participants may change their investment options daily.

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions and the Company's matching contribution, as well as allocations of any non-elective contributions and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's contributions made on or after January 1, 2014, plus actual earnings thereon. Amounts credited to a participant under a prior Plan are subject to any applicable vesting schedule provided under the prior Plan.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, reaches retirement age, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Benefits are payable in lump-sum payments with certain exceptions allowed.

Forfeitures: Forfeitures are used to reduce future employer contributions or to pay Plan expenses. Forfeited nonvested accounts totaled \$328 and \$11,282 at December 31, 2019 and 2018, respectively. During 2019, forfeitures of \$58,702 was used to pay Plan expenses and none were used to reduce employer contributions.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. Loan terms range up to five years or over a reasonable period of time for the purchase of a participant's primary residence, as established by the Plan Administrator at the time of the loan. Effective August 1, 2019, participants can only two outstanding loans at a time. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates determined quarterly by the Plan Administrator. These rates range from 4.25% to 9.5% on loans outstanding at December 31, 2019, and the loans mature through 2032. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Non-interest bearing cash: As discussed in Note 1, effective January 1, 2019, the Plan's trustee changed to T. Rowe Price Trust Company. On January 2, 2019, the Plan's investments were transferred in-kind to the new trustee, except for three investments that were sold and the proceeds held in a non-interest bearing account as of December 31, 2018 pending the transfer.

Techtronic Industries 401(k) Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Employee Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee. See Note 4 for discussion of fair value estimates.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Excess contributions payable: Participant contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charges directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2019) through October 23, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by T. Rowe Price Trust Company (Current Trustee) and State Street Bank and Trust Company (Former Trustee)

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included in the Plan's financial statements and supplemental schedule of assets (held at end of year), that was prepared by or derived from information prepared by the current and former trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current and former trustee that information they provided to the Plan Administrator related to the following assets is complete and accurate (current trustee) and complete and accurate to the best of their knowledge and belief (former trustee). Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule of assets (held at end of year) related to the following assets:

	December 31	
	2019	2018
Non-interest-bearing cash	\$ -	\$ 21,810,663
Investments at fair value:		
Interest-bearing cash	\$ -	\$ 51,143
Common collective trust funds (includes stable value)	279,130,085	182,115,872
Registered investment companies	156,406,318	85,897,783
	<u>\$ 435,536,403</u>	<u>\$ 268,064,798</u>
Notes receivable from participants	<u>\$ 9,134,531</u>	<u>\$ 5,930,963</u>

T. Rowe Price Trust Company also certified to the completeness and accuracy of \$59,643,112 of net appreciation in fair value of investments, \$11,187,832 of interest and dividends, and \$367,796 of interest income on notes receivable from participants related to the aforementioned plan assets for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Techtronic Industries 401(k) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the best level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common collective trust funds: Valued at the NAV of shares in each account held by the Plan at year-end. The NAV is not a publicly-quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

Interest-bearing cash: Carrying amount approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

Description	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 156,406,318	\$ -	\$ -	\$ 156,406,318
Investments measured at NAV (a)				279,130,085
Investments at fair value				<u>\$ 435,536,403</u>

Description	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 85,897,783	\$ -	\$ -	\$ 85,897,783
Investments measured at NAV (a)				182,115,872
Interest-bearing cash				51,143
Investments at fair value				<u>\$ 268,064,798</u>

- (a) In accordance with the Fair value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. Interest-bearing cash is not required to be classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Techtronic Industries 401(k) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2019 and 2018.

Investment	Fair Value December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2019	2018			
Common collective trust stable value fund	\$ 23,412,594	\$ 18,145,971	None	Daily	None
Common collective trust funds	255,717,491	163,969,901	None	Daily	None
	<u>\$ 279,130,085</u>	<u>\$ 182,115,872</u>			

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 5. Related Party and Party-in-Interest Transactions

T. Rowe Price Retirement Plan Services, Inc., the recordkeeper, and T. Rowe Price Trust Company, the trustee, (collectively, T. Rowe); therefore, transactions with T. Rowe qualify as party-in-interest transactions. Fees paid by the Plan to T. Rowe and other service providers totaled \$516,913 and \$80,552, respectively, for the year ended December 31, 2019. The Company also paid certain administrative expenses of the Plan.

For the year ended December 31, 2019, the Plan received \$65,359 under a revenue sharing agreement with T. Rowe. These proceeds are included in other income in the statement of changes in net assets available for benefits. Each quarter, T. Rowe calculates the revenue sharing amount based on the annual rate stipulated in the service agreement and invests the proceeds into a designated investment account. As soon as administratively possible after the proceeds are credited to the Plan, T. Rowe liquidates the account and allocates to eligible participants.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Tax Status

The Plan has received a determination letter from the IRS dated December 26, 2017, stating that the Plan is qualified under Section 401(k) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Net income per the Form 5500	<u>\$ 99,753,278</u>

Note 9. Nonexempt Transactions

During 2017, the Company inadvertently failed to timely deposit \$391 of participant deferrals. The Company reimbursed the Plan for lost interest, filed Form 5330 and paid the applicable excise tax in 2019. The excise tax was paid from the Company's assets and not from assets of the Plan.

Note 10. Subsequent Events

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets.

In March 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted. Among other provisions, the CARES Act provides temporary options for Plan participants with respect to certain Plan distributions and loans. Plan management has adopted and implemented certain provisions of the CARES Act and expects to make related Plan document amendments by the relevant deadline.
