Notes to Financial Statements

1. Description of Plan

The following description of the Retirement Plan and Trust for Employees of Evening Post Publishing Company and Affiliated Companies (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering eligible employees of Evening Post Industries, Inc. (the "Company"). The Retirement Committee of the Company controls and manages the operation and administration of the Plan. Metropolitan Life Insurance and Annuity Company and Bank of New York Mellon (the "Custodians") serve as the custodians of the Plan, and together with several investment managers, manage the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2008, the Plan was frozen and eligibility into the Plan was closed to any new participants.

Change in Plan Year

The Plan was amended to change its fiscal year end to September 30 to coincide with the Plan Sponsor's fiscal year. The change in the Plan's year end was approved by the Internal Revenue Service (the "IRS") on March 26, 2018. The Plan previously operated on a calendar year basis, creating a short plan year for the nine month period ended September 30, 2017. The financial statements and accompanying notes include the activity for the nine month period ended September 30, 2017, and the balances for the period then ended. Comparative financial statements are presented as of September 30, 2018 and for the year then ended.

Pension Benefits

Participants with five years of continuous service, as defined by the Plan, are entitled to pension benefits upon retirement. If employees terminate before rendering five years of continuous service, they forfeit the right to receive pension benefits upon retirement. Pension benefits are provided to participants under several types of retirement options based upon years of continuous service and age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option.

Death and Disability Benefits

In the event of a vested employee's death, his or her designated beneficiary will be entitled to receive a survivor benefit equal to fifty percent of the participant's accrued benefit according to the Plan provisions. The survivor benefit commences on the earliest date that the deceased participant could have elected to receive retirement benefits. If a participant with 15 or more years of service becomes disabled, he or she may elect disability retirement which commences when the benefits under the Plan Sponsor's disability insurance expire.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

**Retirement Plan and Trust for Employees of Evening Post Publishing Company
and Affiliated Companies
Notes to Financial Statements**

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodians. See Note 6 for a discussion of fair value measurements.

The assets of the Plan are invested in accounts maintained by Metropolitan Life Insurance and Annuity Company ("MetLife"), except for investments totaling \$36,041,359 and \$29,805,603 as of September 30, 2018 and 2017, respectively, which are held by Bank of New York Mellon. A portion of the assets maintained by MetLife are invested in pooled separate accounts which are multiple employer funds and are segregated at market value as determined by MetLife in accordance with accepted practices, laws and regulations.

Assets are also maintained in an immediate participation guaranteed funds contract which is valued at contract value, which approximates fair value, by MetLife in its general account. The contract value represents contributions made by the Company under contract plus interest at the per annum contract rate less benefits paid to participants, contract administration fees and other direct expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through July 11, 2019, the date the financial statements were available to be issued.

3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the year ended September 30, 2018 and for the nine month period ended September 30, 2017.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation for the highest five years of consecutive calendar years of pensionable pay during the ten year period ending on the earlier of the participant's termination date or December 31, 2008, the date the Plan was frozen. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. During 2018, no amendments to the Plan became effective.

The significant actuarial assumptions used in the valuations as of January 1, 2017 and October 1, 2017 were:

Actuarial cost method	Projected unit credit method
Discount rate	3.90% and 3.82%, respectively
Assumed return on investments	5.50% and 6.50%, respectively
Mortality rate	Aggregate 2006 base rates from the RP-2014 mortality study projected generationally from 2006 using Scale MP-2017
Retirement age	Age 65 or age on actuarial value date, if greater

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits was as follows:

	<u>October 1, 2017</u>
Vested benefits:	
Participants currently receiving benefits	\$ 80,367,352
Other participants	<u>75,232,833</u>
Total vested benefits	155,600,185
Non-vested benefits	<u>131,033</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 155,731,218</u>

**Retirement Plan and Trust for Employees of Evening Post Publishing Company
and Affiliated Companies**
Notes to Financial Statements

The actuarial present value of accumulated plan benefits increased as follows:

Actuarial present value of accumulated plan benefits, as of January 1, 2017	\$ 159,610,985
Increase (decrease) attributable to:	
Interest accumulation	4,479,889
Benefits paid	(5,048,247)
Change in actuarial assumptions	(2,812,955)
Other Changes	<u>(498,454)</u>
Actuarial present value of accumulated plan benefits, as of October 1, 2017	<u>\$ 155,731,218</u>

5. Unaudited Information Certified by Custodian

One of the Plan's Custodians, Metropolitan Life Insurance and Annuity Company, has custody of the majority of the Plan's assets except for the investments of \$36,041,359 and \$29,805,603 as of September 30, 2018 and 2017, respectively, which are held by Bank of New York Mellon. The Plan's Custodians manage the plan assets and are authorized to execute investment transactions for the Plan. All of the financial information disclosed in the accompanying financial statements and supplemental schedules related to investments and investment-related activity was supplied and certified as complete and accurate to the best of its knowledge and belief by the Metropolitan Life Insurance and Annuity Company, except for the Plan assets held by Bank of New York Mellon.

The accompanying financial statements include the following unaudited information as of September 30, 2018 and 2017 and for the year ended September 30, 2018 and for the nine month period ended September 30, 2017, which was obtained from data prepared and certified to be complete and accurate by Metropolitan Life Insurance and Annuity Company:

	<u>2018</u>	<u>2017</u>
Investments	<u>\$ 88,261,899</u>	<u>\$ 88,803,196</u>
Interest and dividend income	<u>\$ 2,124,439</u>	<u>\$ 1,646,186</u>
Net appreciation in fair value of investments	<u>\$ 1,953,876</u>	<u>\$ 6,670,403</u>

6. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

**Retirement Plan and Trust for Employees of Evening Post Publishing Company
and Affiliated Companies
Notes to Financial Statements**

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at September 30, 2018 and 2017. The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts

The Plan invests in pooled separate accounts for which quoted prices are not available in active markets for identical instruments. The Plan utilizes the net asset value ("NAV") per share, as determined by MetLife, as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

Common collective trust funds

These funds are valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 15 business days' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Hedge funds

These funds are valued at the NAV per share of the investment fund as provided by the investment manager. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant purchases may occur monthly and participant sales may occur quarterly. Following a twelve-month holding period for each series of shares, if the Plan initiates a full redemption of a series of shares, the issuer reserves the right to require 65 to 90 days' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Non-benefit-responsive investment contract

The fair value of the non-benefit-responsive investment contract is estimated by MetLife, as the contract value, which approximates fair value (see Note 7). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic and market developments, and credit ratings of the insurance company. Disclosure of unobservable inputs to fair value measurement has not been included for the non-benefit-responsive investment contract because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by MetLife.

Notes to Financial Statements

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of September 30, 2018 and 2017:

Assets at Fair Value as of September 30, 2018			
	Level 1	Level 2	Level 3
Interest-bearing cash	\$ 292,052	\$ -	\$ -
Non-benefit-responsive investment contract	-	-	211,364
Total assets in the fair value hierarchy	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 211,364</u>
Investments measured at NAV (a)			123,799,842
Investments at fair value			<u>\$124,303,258</u>

Assets at Fair Value as of September 30, 2017			
	Level 1	Level 2	Level 3
Non-benefit-responsive investment contract	\$ -	\$ -	\$ 1,295,795
Total assets in the fair value hierarchy	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,295,795</u>
Investments measured at NAV (a)			117,313,004
Investments at fair value			<u>\$118,608,799</u>

(a) In accordance with Topic 820, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of September 30, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at September 30, 2018	Fair Value at September 30, 2017	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts (b)	\$ 88,050,535	\$ 87,507,401	None	Daily	1 month
Common collective trust funds	\$ 28,457,150	\$ 24,165,294	None	Daily	15 days
Hedge funds (c)	\$ 7,292,157	\$ 5,640,309	None	Quarterly	65-90 days

(b) The pooled separate accounts' underlying investments are various publicly-traded equity and fixed-income securities, including common shares, preferred shares, securities convertible into equities, corporate bonds, mortgages and cash equivalents. The funds may also invest in exchange-traded futures and options for hedging and risk reduction purposes and as a tool for duration management. For pooled separate accounts for which the underlying investments are equity securities, the investments' principal strategies are to provide long-term growth of capital by investing in diversified portfolios of the equity securities of various companies with above average growth prospects. For pooled separate accounts for which the underlying investments are fixed-income securities, the investments' principal strategies are to provide attractive total returns, current income and capital gains, with volatility approximately that of broad market indices. Amounts may be transferred among the pooled separate

accounts, although certain restrictions may apply. Withdrawals may be made in cash not later than 31 days after the date notice of withdrawal is received to the extent permitted under the terms of the MetLife contract.

- (c) *The fund's investment objective is to achieve superior risk-adjusted total returns by investing primarily in public and private non-investment grade and nonrated debt securities. The fund pursues its investment objective by investing all or substantially all of its assets in GoldenTree Select Offshore Intermediate Fund, L.P., a Cayman Islands exempted limited partnership, which, in turn, invests a material portion of its assets in GoldenTree Master Fund, Ltd., a Cayman Islands exempted company. The fund does not intend to invest more than 15% of the fund's NAV in securities of any one issuer, whether held directly or indirectly.*

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no gross transfers for the year ended September 30, 2018.

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis for the year ended September 30, 2018 and for the nine month period ended September 30, 2017:

	September 30,	
	2018	2017
Fair value, beginning of year	\$ 1,295,795	\$ 760,945
Purchases	11,000,000	500,000
Sales	(14,222,166)	(15,048,247)
Issuances	14,300,000	15,690,446
Settlements	(12,162,265)	(607,349)
Fair value, end of year	<u>\$ 211,364</u>	<u>\$ 1,295,795</u>

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. Non-benefit-responsive Investment Contract with Insurance Company

The Plan maintains an Immediate Participation Guarantee contract with MetLife. The investment is reported at contract value, which approximates fair value. The contract value represents contributions made by the Company under contract plus interest at the per annum contract rate less benefits paid to participants, contract administration fees and other direct expenses. Funds are invested with MetLife in pooled separate accounts. The funds are used to pay monthly benefits to retired participants, who have been issued a guaranteed annuity by MetLife at the time of retirement. Funds are not withdrawn to purchase the annuity, rather funds remain in the pooled separate accounts and MetLife requires the Company to maintain a minimum balance requirement to meet the contract liabilities created by the annuity guarantees.

8. Exempt Party-In-Interest Transactions

Certain Plan investments are managed by the custodians of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund. Fees paid by the Plan for administrative services were \$361,432 and \$326,259 for the year ended September 30, 2018 and for the nine month period ended September 30, 2017, respectively. The Plan paid premiums to the Pension Benefit Guaranty Corporation (the "PBGC") of \$1,036,015 and \$0 for the year ended September 30, 2018 and for the nine month period ended September 30, 2017. PBGC premiums are reported in administrative expenses in the accompanying statements of changes in net assets available for benefits.

9. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated December 3, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (the "IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

and Affiliated Companies**
Notes to Financial Statements

11. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

On December 31, 2008 (Freeze Date), the Plan was amended to freeze participants' plan benefits. Upon freezing the Plan, all participants with less than five years of service, who remained in service, were able to continue working towards their five years in order to become fully vested in their accrued retirement benefits. However, only the years of service and compensation earned prior to December 31, 2008 will be considered for calculation of the retirement benefit. New employees since the Freeze Date are not be eligible to participate in the Plan.

12. Reconciliation of Financial Statements to Form 5500

13. Subsequent Event

On May 2, 2019, the Company entered into a contract with Metropolitan Life Insurance Company where in exchange for a consideration payment of approximately \$59,000,000, Metropolitan Life Insurance Company will provide a non-participating single premium annuity contract for future annuity payments to certain retired participants and beneficiaries under the terms and provisions set forth in the contract. Non-guaranteed benefit payments and the related obligation for other participants will continue to be administered by the Plan.

EIN: 57-0160880 PN: 001

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 60% of males and 60% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$215,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
