DEFINED BENEFIT PLAN FOR UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Hyster-Yale Group, Inc Defined Benefit Plan for Union Employees (the "Plan") provides only general information. Reference should be made to the Plan document for a more complete description of the Plan's provisions.

General: The Plan (as amended and restated as of September 1, 2015), is sponsored by Hyster-Yale Group, Inc. (the "Company"), and is a defined benefit pension plan within the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (as amended).

The Plan is frozen for purposes of eligibility and benefit accruals.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company ("Trustee") is the trustee of the Plan. Investment decisions are made by the Hyster-Yale Group, Inc. Retirement Funds Investment Committee.

Vesting: Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirements under ERISA. Company contributions made for the 2019 and 2018 plan years met or exceeded the ERISA minimum funding requirements.

Benefits: Under the Plan, participants are eligible for benefits upon reaching age 65, or beginning at age 55 with at least 15 years of service, as defined. Certain Danville employees are eligible for a special early retirement pension upon completion of 30 years of service. In general, benefits are computed on the basis of a fixed amount per month for each year of service during which the participant was an active participant of the Plan.

Various disability pre-retirement and post-retirement benefits are payable under the Plan. In general, benefits are distributed in the form of monthly payments.

Plan Transfer: Effective December 31, 2019, the Hyster-Yale Group, Inc Pension Plan for Non-Union Employee ("Non-Union Plan") was merged into the Plan. The merger resulted in the transfer of \$36,033,121 in net assets into the Plan's trust and \$26,041,295 (unaudited) in benefit obligations. The amounts above represented all of the net assets and actuarial present value of accumulated plan benefits for the Non-Union Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Benefit Payments: Benefits are recorded when paid.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs for the asset or liability. Level 3 inputs include the Plan's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following descriptions are of the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2019 Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at December 31, 2018 Using Quoted Prices in Active Markets for Identical Assets (Level 1)
Investments		
Mutual Funds	\$ 65,911,628	\$ 27,688,259

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. The accumulated plan benefits for active employees are based on the years of service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by actuaries from Willis Towers Watson, the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuations of the Plan as of December 31, 2018 are as follows:

Assumed rate of return	7.50%
Mortality basis	RP-2014/MP-2018
Retirement age	Rates vary by age, with an average expected retirement age of 67

December 31, 2019 and 2018

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The \$60,588 decrease in the present value of accumulated plan benefits in 2018 that is due to actuarial assumption changes is attributable to the change of the mortality improvement scale from MP-2017 to MP-2018.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - INVESTMENTS (UNAUDITED INFORMATION)

The Trustee holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income, has been certified by them. This information has not been audited by independent accountants.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. Certain investments held by the Plan at December 31, 2019 and 2018 are shares of mutual funds managed by Vanguard Group, Inc. The Trustee is a wholly owned subsidiary of the Vanguard Group, Inc. therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 6 - PLAN TERMINATION

Although it has not expressed an intention to do so, the Company has the right to terminate the Plan at any time within the constraints of ERISA and the Internal Revenue Code. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 7 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated January 29, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("the Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plan is qualified and the related trust is tax-exempt.

NOTE 7 - INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to federal income tax examinations for years prior to 2016.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2020, which is the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The ultimate impact of the coronavirus on the Plan and the Company will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

Effective January 1, 2020, the Plan was renamed the Hyster Yale Group Inc. Combined Pension Plan.

NOTE 9 - DECEMBER 31, 2019 ACTUARIAL VALUATION (UNAUDITED)

The December 31, 2019 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefits as of December 31, 2019 is as follows:

Actuarial present value of accumulated plan benefits:

NOTE 9 - DECEMBER 31, 2019 ACTUARIAL VALUATION (UNAUDITED) (Continued)

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2019 consists of the following:

Actuarial present value of plan benefits at beginning of year	\$ 25,487,490
Net actuarial gains	225,864
Increase due to decrease in the discount period	1,811,019
Benefits paid	(2,730,463)
Transfer from other plan	26,041,295
Assumption changes	<u>306,862</u>
Actuarial present value of plan benefits at end of year	<u>\$ 51,142,067</u>

The \$306,862 increase in the present value of accumulated plan benefits in 2019 that is due to actuarial assumption changes is attributable to the change of the mortality improvement scale from MP-2018 to MP-2019 and the mortality basis from RP-2014 to Pri-2012.

Form of payment	Life annuity (100% electing)

Actuarial value of assets Average of the fair market value of assets on the valuation date and the five immediately preceding months, adjusted for contributions, benefits, administrative expenses and expected investment returns, including contributions receivable. The average asset value must be within 10% of market value, including discounted contributions receivable.

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. Willis Towers Watson has reviewed the plan provisions with HYG and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Willis Towers Watson used asset data supplied by the trustee. HYG furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the Company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	As required by IRC §430, the basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Assumed return for asset smoothing	The assumed return of 7.50% used for asset smoothing is the expected return on assets assumption chosen by HYG with the help of their investment advisers for the 2019 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is HYG's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation. This rate is limited by the prior year third segment rate of 6.29%.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement	Assumed retirement rates differ by age because of expected differences in retirement rates by age.

Prescribed Methods

Funding methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	The segment interest used to calculate the funding target were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by IRS in October 2017 in regulation §1.430(h)(3)-1. Assumed plan-related expenses of \$255,751 were added to the target normal cost (as compared to \$299,295 for plan year 2018).

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as a life annuity in the amount described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the actuarially equivalent 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 75% or 100% joint and survivor annuity and a 5-, 10- or 15-year certain and life annuity.
Conversion factors for optional forms of payment	7.50% and the 1971 TPF&C Unisex Mortality Table set back six years for beneficiaries.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the IRC. The plan provides for increasing the dollar limits automatically as such changes become effective.
Plan status for PBGC reporting purposes	Benefits frozen.
