RIO GILL 401(k) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

NOTE 1. DESCRIPTION OF PLAN & TRUST

The following description of the Rio Gill 401(k) Plan & Trust is for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan & Trust is a defined contribution plan adopted January 1, 1998 that covers substantially all employees of participating employers who are at least twenty-one years of age and have one year of service with the Company. Participating employers, who are covered by the provisions of the Plan are:

American Farms, LLC
G & H Farms, LLC
MESA Packing, LLC
Gills Onions, LLC
King City Nursery, LLC
Gill Ranch Company, LLC
Western Harvesting, LLC
Gill Transport, LLC
King City Transplants, LLC
Western Organic, LLC
Western Harvesting Transport LLC
Cold Valley Farms, LLC

The Plan & Trust are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Eligible participants may contribute, by voluntary payroll deductions, up to the maximum allowed by sections 404, 415, 402(g) and 401(k) of the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The employers may make a matching contribution equal to a discretionary percentage, to be determined by the employers each year, of the participant's salary reduction. For the years ending December 31, 2019 and 2018, the employers matched 15% of the participants' deferrals.

Participant Accounts – Each participant's account is credited or debited with (1) the participant's contributions by payroll deduction, (2) the participant's portion of employer matching, (3) an allocation of earnings and losses, (4) any loans made to or repaid by the participant, and (5) an allocation of Plan expenses.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. The vesting schedule is as follows:

COMPLETED YEARS OF SERVICE	VESTED PERCENTAGE
1	25%
2	50%
3	75%
4	100%

In determining years of service for vesting purposes, years of service attributable to service prior to the effective date of the Plan or a predecessor plan are excluded.

NOTE 1. DESCRIPTION OF PLAN & TRUST (Continued)

Payment of Benefits – Upon retirement, death, or disability, a participant or participant's beneficiary may receive a lump-sum distribution equal to the value of his or her account. Upon termination, a participant may receive a lump-sum distribution equal to the value of their vested account balance. Pre-retirement distributions of a participant's account are limited to amounts in the participant's rollover account, or to borrowings under the loan provisions of the Plan.

Participant Investment Options – Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Participant Loans – Participants may apply to borrow from the Plan a minimum amount of $1,000 and a maximum equal to the lessor of $50,000, or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant loan fund. Loans may be repaid over any reasonable period, not to exceed the fifth anniversary of the date the funds were borrowed. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local economic conditions and rates being charged by local financial institutions for similar loans, as determined by the Plan Administrator. The Interest rate for all participant loans ranged from 4.25% - 6.5%. New loans were issued at interest rates between 5.75% and 6.50% during the year ended December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Forfeitures – When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the employers' matching contribution. At December 31, 2019 and 2018, forfeited nonvested accounts totaled $13,362 and $8,597, respectively. No forfeited amounts were used to reduce employers' contributions for the years ending December 31, 2019 and 2018.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting which is in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants – Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits are recorded when paid.

Plan Expenses – Expenses to administer the Plan, if not paid by the sponsor, may be paid by the Plan and certain fees are allocated to the individual participant accounts.

Subsequent Events – The Plan Administrator has evaluated subsequent events through November 12, 2020, the date the financial statements were available to be issued.

NOTE 3. CERTIFIED INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2019 and 2018 and interest, dividends, and net appreciation (depreciation) of fair value of investments for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure Under ERISA.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB), *Accounting Standards Codification* ASC 820 *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: the fair value of mutual funds is based on quoted net asset values ("NAV") of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Common stock: the fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 10,930,499	$ -	$ -	$ 10,930,499

NOTE 5. PARTIES-IN-INTEREST

During the years ended December 31, 2019 and 2018, Plan investments were invested in funds held by Fidelity Management Trust Company, the Plan Custodian, as described by the Plan and therefore, certain transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services are included as a reduction of the return earned on each fund. In addition, loan fees, redemption fees and check fees paid from the applicable participant accounts to the plan custodian amounted to $9,424 and $2,631 for the years ended December 31, 2019 and 2018, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Board of Trustees has the right under the Plan document to terminate this Plan subject to the provisions of ERISA. In the event of termination, each participant, retired participant, former participant and beneficiary shall be entitled to receive any amount credited to that person's account.

NOTE 7. INCOME TAX STATUS

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes. Although the Plan has been amended since its adoption, the Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7. INCOME TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 9. RECONCILIATION OF THE 5500 TO FINANCIAL STATEMENTS

For the years ending December 31, 2019 and 2018, the employers matched 15% of the participants' deferrals.

Participant Accounts – Each participant's account is credited or debited with (1) the participant's contributions by payroll deduction, (2) the participant's portion of employer matching, (3) an allocation of earnings and losses, (4) any loans made to or repaid by the participant, and (5) an allocation of Plan expenses.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. The vesting schedule is as follows:

COMPLETED YEARS OF SERVICE	VESTED PERCENTAGE
1	25%
2	50%
3	75%
4	100%

In determining years of service for vesting purposes, years of service attributable to service prior to the effective date of the Plan or a predecessor plan are excluded.

NOTE 1. DESCRIPTION OF PLAN & TRUST (Continued)

Payment of Benefits – Upon retirement, death, or disability, a participant or participant's beneficiary may receive a lump-sum distribution equal to the value of his or her account. Upon termination, a participant may receive a lump-sum distribution equal to the value of their vested account balance. Pre-retirement distributions of a participant's account are limited to amounts in the participant's rollover account, or to borrowings under the loan provisions of the Plan.

Participant Investment Options – Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Participant Loans – Participants may apply to borrow from the Plan a minimum amount of $1,000 and a maximum equal to the lessor of $50,000, or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant loan fund. Loans may be repaid over any reasonable period, not to exceed the fifth anniversary of the date the funds were borrowed. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local economic conditions and rates being charged by local financial institutions for similar loans, as determined by the Plan Administrator. The Interest rate for all participant loans ranged from 4.25% - 6.5%. New loans were issued at interest rates between 5.75% and 6.50% during the year ended December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Forfeitures – When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the employers' matching contribution. At December 31, 2019 and 2018, forfeited nonvested accounts totaled $13,362 and $8,597, respectively. No forfeited amounts were used to reduce employers' contributions for the years ending December 31, 2019 and 2018.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting which is in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants – Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits are recorded when paid.

Plan Expenses – Expenses to administer the Plan, if not paid by the sponsor, may be paid by the Plan and certain fees are allocated to the individual participant accounts.

Subsequent Events – The Plan Administrator has evaluated subsequent events through November 12, 2020, the date the financial statements were available to be issued.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB), *Accounting Standards Codification* ASC 820 *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: the fair value of mutual funds is based on quoted net asset values ("NAV") of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Common stock: the fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019

NOTE 5. PARTIES-IN-INTEREST

During the years ended December 31, 2019 and 2018, Plan investments were invested in funds held by Fidelity Management Trust Company, the Plan Custodian, as described by the Plan and therefore, certain transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services are included as a reduction of the return earned on each fund. In addition, loan fees, redemption fees and check fees paid from the applicable participant accounts to the plan custodian amounted to $9,424 and $2,631 for the years ended December 31, 2019 and 2018, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Board of Trustees has the right under the Plan document to terminate this Plan subject to the provisions of ERISA. In the event of termination, each participant, retired participant, former participant and beneficiary shall be entitled to receive any amount credited to that person's account.

NOTE 7. INCOME TAX STATUS

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes. Although the Plan has been amended since its adoption, the Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7. INCOME TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
