Contributions

Participants could elect to contribute pre-tax and Roth deferral contributions, up to 80% of their compensation, as defined in the Plan document. Participants who had attained or were expected to attain age 50 before the close of the taxable year were permitted to make catch-up contributions. Participants could also make rollover contributions from other qualified plans. Participants directed their contributions into various investment options offered by the Plan.

The Company could make a discretionary matching contribution on employee contributions and catch-up contributions calculated on an annual basis in accordance with the provisions contained in the plan document. For the period ended January 1, 2020 and year ended December 31, 2019, no discretionary employer matching contributions were made.

Vesting

Participants were immediately and fully vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon was based on years of service, as follows:

<u>Years of Service</u>	<u>Vesting %</u>
<2	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures

Forfeitures, plus earnings thereon, were used to reduce plan administrative expenses or future employer contributions. There were no forfeitures for the period ended January 1, 2020 and year ended December 31, 2019.

Participant Accounts

Each participant's account was credited with their contributions, employer contributions, and the earnings thereon. Contributions to the Plan were invested by the trustee as directed by the participants. Each participant could elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant was entitled to, was the benefit that could be provided from the participant's vested account.

Notes Receivable from Participants

Participants could borrow up to the maximum amount which is equal to the lesser of \$50,000 or 50% of their vested account balance. A participant must have been an active employee to be granted a loan. The terms of the loan could not exceed five years unless it is for the purchase of a principal residence. A participant's vested account balance served as collateral for the loan. The principal portion of the loan was repayable through payroll deductions and bore interest at a reasonable interest rate as determined by the trustee. Approximately \$16,000 of notes receivable from participants were transferred to the Ferrero U.S.A., Inc. and Subsidiaries Profit Sharing and 401(k) Plan.

Payment of Benefits

Upon normal retirement age (65), death, disability or termination of service, vested benefits could be distributed in the form of a lump sum, installment, or partial payment, as described by the plan document. Participants can also make in-service withdrawals upon reaching age 59 ½. In certain other cases and subject to the approval of the plan administrator, participants could request a withdrawal of a portion of their vested account balance in the case of financial hardship.

Administrative Expenses

Certain administrative expenses of maintaining the Plan were paid by the Plan, as permitted by the Plan document. All other administrative expenses were paid by the Company, which are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through November 12, 2020, the date the financial statements were available for issuance.

3. Information Certified by the Plan's Trustee

The following is a summary of the investments and notes receivable from participants of the Plan as of January 1, 2020 and December 31, 2019, and for the period ended January 1, 2020, included in the Plan's financial statements, that was prepared or derived from information provided by Fidelity Management Trust Company

Fannie May Confections Brands, Inc. 401K Plan

("Fidelity"), the trustee of the Plan. The plan administrator has obtained certifications from the trustee that such information is complete and accurate. Information related to assets held by the trustee as of January 1, 2020, and December 31, 2019, is as follows:

	2020	2019
Mutual funds, at fair value	\$ -	\$ 1,677,614
Notes receivable from participants	-	15,744
	<u>\$ -</u>	<u>\$ 1,693,358</u>

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the assets or liabilities; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for investments measured at fair value:

- Mutual funds: Shares held by the Plan at year end are valued at unadjusted quoted prices in active markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2019 are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$ 1,677,614</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,677,614</u>

5. Tax Status

The IRS has determined by a letter dated March 31, 2014, that the prototype document upon which the Plan is based is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has not filed an application for an individual determination

Fannie May Confections Brands, Inc. 401K Plan

letter from the IRS as to whether the Plan meets the qualification requirements of Section 401(a) of the IRC. However, the Company believes that the Plan is currently designed and being operated in compliance with the application requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan provides for various investment options in registered investment funds that invest in investment securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

7. Related Party Transactions and Party-In-Interest Transactions

Fidelity, the trustee of the Plan, manages certain plan investment, and therefore, these transactions qualify as party-in-interest transactions. There were no fees paid to the trustee for the period ended January 1, 2020.

8. Reconciliation of Financial Statements to Form 5500

The Form 5500 was prepared on the cash basis for the period ended January 1, 2020 and year ended December 31, 2019, and the financial statements were prepared on the accrual basis.

The following is a reconciliation between the statement of changes in net assets available for benefits per the accompanying financial statements and the Form 5500 for the period ended January 1, 2020:

Transfer of Assets from this Plan per Financial Statements	\$ (1,682,575)
Net change in employee contributions receivable	42,067
Net change in excess contributions payable	<u>(52,850)</u>
Transfer of Assets from this Plan per Schedule H of Form 5500	<u><u>\$ (1,693,358)</u></u>
