1. Description of the Plan

The following description of the Rensa Filtration Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Rensa Filtration, Inc. as defined in the Plan document. Rensa Filtration, Inc. includes its wholly owned subsidiaries, Viskon-Aire Corp.; RoboVent Products Group, Inc.; RoboVent Solutions Group, Inc.; D-Mark Inc.; and its majority owned subsidiary, Permatron Corporation (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Consolidation and Mergers

The Plan was established effective January 1, 2019 as a result of the consolidation and merger of the following plans:

- The Robovent Group of Companies 401(k) Profit Sharing Plan and Trust (Robovent Plan)
- Permatron Corporation 401(k) Profit Sharing Plan (Permatron Plan)
- Viskon-Aire Corporation 401(k) Profit Sharing Plan (Viskon-Aire Plan)

Robovent Plan assets of approximately $499,000 were transferred into the Plan on January 2, 2019. The Robovent Plan filed a final Form 5500 in 2018. Permatron Plan assets of approximately $580,000 were transferred into the Plan on January 14, 2019. Viskon-Aire Plan assets of approximately $1,972,000 were transferred into the Plan on January 15, 2019.

In addition, the D-Mark Inc. 401(k) Plan and Trust (D-Mark Plan) was merged into the Plan effective October 1, 2019, resulting in a transfer in of approximately $238,000 on October 23, 2019.

The management of the Company believes that the Plan mergers were a tax-exempt transaction under the applicable provisions of the Internal Revenue Code (IRC) and, therefore, are not subject to federal income taxes.

Eligibility and Contributions

Employees of the Company are eligible to participate in the Plan after attaining age 18 with at least six months of service. The entry date to the Plan is the first day of the subsequent quarter after meeting the eligibility requirements.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1% of eligible compensation and their contributions investment in a designated investment fund until changed by the participant. There is a scheduled increase of 1% up to a maximum of 3% of compensation that occurs on each anniversary of the participant's entry date. The auto-enrollment and escalation provisions are effective for Plan years beginning after January 31, 2019 and therefore will become effective January 1, 2020 for the Plan.

Each year, participants may contribute up to the maximum allowable amount of pretax annual compensation subject to the limitations under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan allows participants to designate all or a portion of their deferrals as Roth contributions to the Plan on an after-tax basis.

The Plan provides for Company safe-harbor matching contributions equal to 100% of the participant deferrals up to the first 3% of each participant's compensation, plus 50% of participant deferrals up to the next 2% of compensation, not to exceed 5% of compensation, as defined in the Plan document.

Contributions are subject to certain IRC limitations.

Participants may direct all their contributions among one or more funds offered by the Plan. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

The Plan does not allow for loans. However, individuals who were former participants of the Robovent Plan and had outstanding loans at the time of the merger into the Plan were allowed to rollover their loans into the new plan. These participants must pay out the remainder of their loans and will not be permitted to take out future loans. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Interest rates on loans currently outstanding range from 4.50% to 7.25%. Principal and interest are paid ratably through payroll deductions over the remaining term.

Payment of Benefits

Upon termination of service due to death, disability, termination of employment, attainment of age 59½, or retirement, a participant will generally receive the value of their vested interest in his or her account in the form of a lump-sum amount, or as a rollover to another entity. If the participant's vested interest in the Plan is less than $5,000, a mandatory lump-sum distribution may be made to the participant. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary profit-sharing contribution portion of their accounts plus actual earnings thereon is based on the following:

Vesting Service (Years)	Vesting (%)
Less than 1	-
2	20
3	40
4	60
5	80
6	100

Forfeited Accounts

At December 31, 2019, forfeitures were immaterial to the financial statements. Forfeited non-vested amounts attributable to Company contributions can be used to reduce Company contributions, restore forfeitures, or to pay the administrative expenses of the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and John Hancock Trust Company, LLC (John Hancock). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable and requested distributions from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including November 20, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the Covid-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant volatility in financial markets. Because the values of the Plan's individual investments have, and will, fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act). The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increase the available loan amount, as described in Note 1, to the lesser of $100,000 or 100% of the participant's vested account balance
- Extend the period for loan repayments, if applicable, up to one year

The CARES act provisions implemented by the Plan, as described above, pertaining to loans are not a permanent provision whereby the Plan document was amended to allow loans for all participants indefinitely. The Plan is solely allowing loans to its participants in the interim period as part of the CARES Act relief provision.

3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 –Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2019.

Registered Investment Companies – These are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Money Market Fund – Money market fund is valued using amortized costs, which approximate fair value.

Collective Investment Trusts (CITs) – These are valued based on the NAV of units of the CITs. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the trust, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments:

December 31, 2019

	Investments in the Fair Value Hierarchy			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 175,442	$ -	$ -	$ 175,442
Money market fund	9,971	-	-	9,971
Total Investments, in the fair value hierarchy	$ 185,413	$ -	$ -	185,413
Collective investment trusts, measured at NAV*				3,753,910
Total Investments, at fair value				$3,939,323

* The CITs, which are measured at fair value using the NAV per share (or its equivalent) practical expedient, have not been categorized in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

4. Information Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2019 and for the year then ended. Accordingly, the Plan's trustee, John Hancock, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the accompanying statement of net assets available for benefits as of December 31, 2019
- Investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019
- Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements and supplemental schedule.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

6. Related-Party and Party-in-Interest Transactions

Certain employees of the Company provide administrative services to the Plan. Employees are not paid by the Plan for their services.

7. Tax Status

The Plan adopted a prototype plan document from John Hancock Trust Company, LLC, which received an opinion letter from the Internal Revenue Service (IRS) on April 8, 2012, stating that the prototype plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Prohibited (Non-Exempt) Transactions

During the Plan year ended December 31, 2019, the Company inadvertently failed to separate and remit, in a timely manner, certain participant contributions from its assets within the required time period, as specified by the DOL Reg. 2510.3012. Failure to separate and remit contributions within the specific time period is a prohibited transaction, according to the provisions of ERISA and the IRC. Lost earnings associated with the late remittances will be paid by the Plan sponsor to the participant accounts in 2020.
