NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

NOTE A - DESCRIPTION OF PLAN

The following description of the TestAmerica Environmental Services, LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees (excluding interns, leased employees, nonresident aliens with no U.S. source income, employees who are covered under the terms of a collective bargaining agreement unless otherwise provided in such agreement, certain foreign transferees, and persons whom a related company does not consider its employee as evidenced by the related company's failure to withhold income or employment taxes from the person's compensation) of TestAmerica Environmental Services, LLC (Company) who have six months of service. Participants must complete six months of service to receive a discretionary matching contribution from the Company and participants must also be employed on the last day of the Plan year to be eligible for any discretionary profit sharing contributions made by the Company to the Plan. Effective December 31, 2019, the Plan was merged into the Eurofins 401(k) Savings Plan. In conjunction with the plan merger, net assets of \$193,332,967 were transferred to the Eurofins 401(k) Savings Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute up to 80% of pre-tax annual compensation and up to 15% of after-tax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrollment provision whereby an eligible employee shall automatically be enrolled on the 20th day following three months of service, unless they affirmatively elect not to participate in the Plan. Automatically, enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Each participant who has a deferral percentage greater than zero but less than 10% who has not opted out of this feature shall have their deferral percentage automatically increased 1% annually until their deferral percentage is 10%.

The Company may make a discretionary matching contribution based on a percentage of the participant's pre-tax contribution, as determined each year by the Company's Board of Managers. For 2019 and 2018, the Company matched 20% of the participant's pre-tax contribution up to a maximum of 2% of the participant's compensation. No discretionary matching contributions are made for any after-tax contributions. Discretionary matching contributions totaled \$1,180,487 for the year ended December 31, 2019.

The Company may also make a discretionary profit sharing contribution, as determined each year by the Company's Board of Managers. For a participant to receive the discretionary profit sharing contribution, they must have completed 1,000 hours of service during the Plan year and be employed on the last day of the Plan year unless their termination of service was due to death, disability, or retirement in such plan year. All discretionary profit sharing contributions are allocated to the accounts of all eligible participants in a pro-rata manner. There were no discretionary profit sharing contributions for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions, if any, and an allocation of the Company's contributions and Plan earnings (losses) and trust fees. Allocations are based on participant compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on the following table:

Years of Service	Percent Vested
1	25%
2	50%
3	75%
4	100%

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or the participant's vested account balance. The loans are secured by the balance in the participants account and bear interest at rates in the years ended December 31, 2019 and 2018 that range from 4.25% to 9.00%, which is determined by the prevailing bank prime rate plus 1.00%. The term of the loan may not exceed 5 years or 10 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions. In conjunction with the merger, notes receivable of \$2,777,869 was transferred to the Eurofins 401(k) Savings Plan.

Payment of Benefits

Participants, upon retirement or disability, shall be entitled to receive, as benefits, the entire amount credited to their accounts as of that date. Upon death, a participant's designated beneficiary shall receive the balance in the account. Participants may also be eligible for hardship or in-service distributions in accordance with the Plan document.

Participants whose employment terminates for reasons other than retirement, disability or death shall be entitled to receive the vested portion of their account balances in a lump sum in accordance with Plan provisions.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Loan administration and distribution fees are charged directly to the participant's account and are included in administrative expenses. Certain investment-related expenses are included in net appreciation of fair value of investments.

Forfeited Accounts

As of December 31, 2019 and 2018, there were unused forfeitures of \$0 and \$2,578, respectively. The amounts are used to reduce employer matching contributions or to pay administrative expenses. Forfeitures totaling \$46,837 and \$38,644 for the years ended December 31, 2019 and 2018, respectively, were used to reduce the discretionary matching contribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Except for the Plan's stable value investment option (see Note C), the Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays certain administrative costs and are expensed when incurred. Other expenses are paid by the Company.

NOTE C - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan participates in the Prudential Guaranteed Income Fund (GIF), which is considered to be a Guaranteed Investment Contract, of GIC. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2019 and 2018, the contract value of the fully benefit-responsive investment contract was \$0 and \$30,263,985, respectively.

TestAmerica Environmental Services, LLC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the contract issuers and with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include the following: (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; or (4) a material amendment to the agreements without the consent of the issuer.

NOTE D – FAIR VALUE MEASUREMENTS

There is a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement

TestAmerica Environmental Services, LLC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds - Valued based on quoted prices of the fund in active markets.

Pooled separate accounts - Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 126,452,478	\$ -	\$ -	\$ 126,452,478
Total assets in the fair value hierarchy	<u>\$ 126,452,478</u>	<u>\$ -</u>	<u>\$ -</u>	<u>126,452,478</u>
Investment measured at NAV (a)				<u>13,116,480</u>
Investments, at fair value				<u>\$ 139,568,958</u>

(a) The pooled separate account is measured at fair value using NAV as the practical expedient and has not been classified in the fair value hierarchy

The table below presents additional information for investments whose fair value is estimated using NAV per share as of December 31:

	2019	2018	Unfunded Commitment	Redemption frequency	Redemption restrictions	Redemption notice period
Pooled separate account	\$ -	\$ 13,116,480	\$ -	Daily	1 transfer every 30 minutes	30 days or 2 years

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts shall become 100% vested and all unallocated amounts shall be allocated to the accounts of all participants. The Plan was merged into the Eurofins 401(k) Savings Plan effective December 31, 2019.

NOTE F - TAX STATUS

The Plan has on file a favorable opinion letter from the Internal Revenue Service (IRS) dated April 24, 2014, for the prototype standardized profit-sharing plan with a cash or deferral arrangement that the Company has adopted. The Plan has since been amended and restated, but the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Prudential Trust Company and Prudential Retirement Insurance and Annuity Company, one of the trustees and; therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance in the participant's accounts and certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions also qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

NOTE H - CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements has been certified as complete and accurate by Prudential Retirement Insurance and Annuity Company (PRIAC), the trustee of the Plan:

- Investments at fair value, investments at contract value and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.
- Net investment income and interest on notes receivable from participants, in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

The Plan's independent accountants did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements.

TestAmerica Environmental Services, LLC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2019, financial statements for subsequent events through November 4, 2020, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

TestAmerica Environmental Services, LLC 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

NOTE A - DESCRIPTION OF PLAN

The following description of the TestAmerica Environmental Services, LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees (excluding interns, leased employees, nonresident aliens with no U.S. source income, employees who are covered under the terms of a collective bargaining agreement unless otherwise provided in such agreement, certain foreign transferees, and persons whom a related company does not consider its employee as evidenced by the related company's failure to withhold income or employment taxes from the person's compensation) of TestAmerica Environmental Services, LLC (Company) who have six months of service. Participants must complete six months of service to receive a discretionary matching contribution from the Company and participants must also be employed on the last day of the Plan year to be eligible for any discretionary profit sharing contributions made by the Company to the Plan. Effective December 31, 2019, the Plan was merged into the Eurofins 401(k) Savings Plan. In conjunction with the plan merger, net assets of \$193,332,967 were transferred to the Eurofins 401(k) Savings Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute up to 80% of pre-tax annual compensation and up to 15% of after-tax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrollment provision whereby an eligible employee shall automatically be enrolled on the 20th day following three months of service, unless they affirmatively elect not to participate in the Plan. Automatically, enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Each participant who has a deferral percentage greater than zero but less than 10% who has not opted out of this feature shall have their deferral percentage automatically increased 1% annually until their deferral percentage is 10%.

The Company may make a discretionary matching contribution based on a percentage of the participant's pre-tax contribution, as determined each year by the Company's Board of Managers. For 2019 and 2018, the Company matched 20% of the participant's pre-tax contribution up to a maximum of 2% of the participant's compensation. No discretionary matching contributions are made for any after-tax contributions. Discretionary matching contributions totaled \$1,180,487 for the year ended December 31, 2019.

The Company may also make a discretionary profit sharing contribution, as determined each year by the Company's Board of Managers. For a participant to receive the discretionary profit sharing contribution, they must have completed 1,000 hours of service during the Plan year and be employed on the last day of the Plan year unless their termination of service was due to death, disability, or retirement in such plan year. All discretionary profit sharing contributions are allocated to the accounts of all eligible participants in a pro-rata manner. There were no discretionary profit sharing contributions for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions, if any, and an allocation of the Company's contributions and Plan earnings (losses) and trust fees. Allocations are based on participant compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on the following table:

Years of Service	Percent Vested
1	25%
2	50%
3	75%
4	100%

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or the participant's vested account balance. The loans are secured by the balance in the participants account and bear interest at rates in the years ended December 31, 2019 and 2018 that range from 4.25% to 9.00%, which is determined by the prevailing bank prime rate plus 1.00%. The term of the loan may not exceed 5 years or 10 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions. In conjunction with the merger, notes receivable of \$2,777,869 was transferred to the Eurofins 401(k) Savings Plan.

Payment of Benefits

Participants, upon retirement or disability, shall be entitled to receive, as benefits, the entire amount credited to their accounts as of that date. Upon death, a participant's designated beneficiary shall receive the balance in the account. Participants may also be eligible for hardship or in-service distributions in accordance with the Plan document.

Participants whose employment terminates for reasons other than retirement, disability or death shall be entitled to receive the vested portion of their account balances in a lump sum in accordance with Plan provisions.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Loan administration and distribution fees are charged directly to the participant's account and are included in administrative expenses. Certain investment-related expenses are included in net appreciation of fair value of investments.

Forfeited Accounts

As of December 31, 2019 and 2018, there were unused forfeitures of \$0 and \$2,578, respectively. The amounts are used to reduce employer matching contributions or to pay administrative expenses. Forfeitures totaling \$46,837 and \$38,644 for the years ended December 31, 2019 and 2018, respectively, were used to reduce the discretionary matching contribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Except for the Plan's stable value investment option (see Note C), the Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays certain administrative costs and are expensed when incurred. Other expenses are paid by the Company.

NOTE C - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan participates in the Prudential Guaranteed Income Fund (GIF), which is considered to be a Guaranteed Investment Contract, of GIC. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2019 and 2018, the contract value of the fully benefit-responsive investment contract was \$0 and \$30,263,985, respectively.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the contract issuers and with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include the following: (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; or (4) a material amendment to the agreements without the consent of the issuer.

NOTE D – FAIR VALUE MEASUREMENTS

There is a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement

TestAmerica Environmental Services, LLC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds - Valued based on quoted prices of the fund in active markets.

Pooled separate accounts - Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 126,452,478	\$ -	\$ -	\$ 126,452,478
Total assets in the fair value hierarchy	<u>\$ 126,452,478</u>	<u>\$ -</u>	<u>\$ -</u>	<u>126,452,478</u>
Investment measured at NAV (a)				<u>13,116,480</u>
Investments, at fair value				<u>\$ 139,568,958</u>

(a) The pooled separate account is measured at fair value using NAV as the practical expedient and has not been classified in the fair value hierarchy

The table below presents additional information for investments whose fair value is estimated using NAV per share as of December 31:

	2019	2018	Unfunded Commitment	Redemption frequency	Redemption restrictions	Redemption notice period
Pooled separate account	\$ -	\$ 13,116,480	\$ -	Daily	1 transfer every 30 minutes	30 days or 2 years

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts shall become 100% vested and all unallocated amounts shall be allocated to the accounts of all participants. The Plan was merged into the Eurofins 401(k) Savings Plan effective December 31, 2019.

NOTE F - TAX STATUS

The Plan has on file a favorable opinion letter from the Internal Revenue Service (IRS) dated April 24, 2014, for the prototype standardized profit-sharing plan with a cash or deferral arrangement that the Company has adopted. The Plan has since been amended and restated, but the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Prudential Trust Company and Prudential Retirement Insurance and Annuity Company, one of the trustees and; therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance in the participant's accounts and certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions also qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

NOTE H - CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements has been certified as complete and accurate by Prudential Retirement Insurance and Annuity Company (PRIAC), the trustee of the Plan:

- Investments at fair value, investments at contract value and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.
- Net investment income and interest on notes receivable from participants, in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

The Plan's independent accountants did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements.

TestAmerica Environmental Services, LLC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2019 and 2018

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2019, financial statements for subsequent events through November 4, 2020, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Administrative Expenses

The Plan pays certain administrative costs and are expensed when incurred. Other expenses are paid by the Company.

NOTE C - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan participates in the Prudential Guaranteed Income Fund (GIF), which is considered to be a Guaranteed Investment Contract, of GIC. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2019 and 2018, the contract value of the fully benefit-responsive investment contract was \$0 and \$30,263,985, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the contract issuers and with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include the following: (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; or (4) a material amendment to the agreements without the consent of the issuer.

NOTE D – FAIR VALUE MEASUREMENTS

There is a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds - Valued based on quoted prices of the fund in active markets.

Pooled separate accounts - Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 126,452,478	\$ -	\$ -	\$ 126,452,478
Total assets in the fair value hierarchy	<u>\$ 126,452,478</u>	<u>\$ -</u>	<u>\$ -</u>	<u>126,452,478</u>
Investment measured at NAV (a)				<u>13,116,480</u>
Investments, at fair value				<u>\$ 139,568,958</u>

(a) The pooled separate account is measured at fair value using NAV as the practical expedient and has not been classified in the fair value hierarchy

The table below presents additional information for investments whose fair value is estimated using NAV per share as of December 31:

	2019	2018	Unfunded Commitment	Redemption frequency	Redemption restrictions	Redemption notice period
Pooled separate account	\$ -	\$ 13,116,480	\$ -	Daily	1 transfer every 30 minutes	30 days or 2 years

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts shall become 100% vested and all unallocated amounts shall be allocated to the accounts of all participants. The Plan was merged into the Eurofins 401(k) Savings Plan effective December 31, 2019.

NOTE F - TAX STATUS

The Plan has on file a favorable opinion letter from the Internal Revenue Service (IRS) dated April 24, 2014, for the prototype standardized profit-sharing plan with a cash or deferral arrangement that the Company has adopted. The Plan has since been amended and restated, but the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Prudential Trust Company and Prudential Retirement Insurance and Annuity Company, one of the trustees and; therefore, these transactions qualify as party-in-interest. The Plan also issues loans to participants, which are secured by the vested balance in the participant's accounts and certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions also qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

NOTE H - CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements has been certified as complete and accurate by Prudential Retirement Insurance and Annuity Company (PRIAC), the trustee of the Plan:

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2019, financial statements for subsequent events through November 4, 2020, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
