INDEPENDENT AUDITOR'S REPORT

To the Trustee
Consolidated Bus Transit, Inc. ESOP

Report on the Financial Statements

We have audited the accompanying financial statements of the Consolidated Bus Transit, Inc. ESOP, which comprise the statements of net assets (deficit) available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2019 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Description of Plan

The following description of the Consolidated Bus Transit, Inc. ESOP (the "Plan") provides only general information. Participants should refer to the plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Consolidated Bus Transit, Inc. and Affiliates (collectively the "Company") and was established effective January 1, 2014. The Plan operates as an internally leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e) (7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Consolidated Bus Transit, Inc. ESOP Committee (the "Committee"), which is a committee of the board of directors of the Company. The trust department of an independent third-party financial institution is the Plan's Trustee.

On June 26, 2014, the Plan purchased 36,800 shares of common stock (80% of total shares outstanding) from the Company for an adjusted purchase price of $49,098,144, using the proceeds of notes payable from the Company's stockholders ("Sellers") (see Note 6). The notes payable are to be repaid by fully deductible Company contributions and dividends to the trust fund. As the Plan makes each payment of debt service, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Allocated shares are subject to vesting.

The notes payable are collateralized by the unallocated shares of Company stock and are guaranteed by the Company. The lenders have no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018 and for the year ended December 31, 2019 present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated Company stock (allocated) and Company stock not yet allocated to employees (unallocated).

Eligibility

The Plan covers all eligible employees, as defined, except those covered by a collective bargaining agreement, leased employees and non-resident aliens. Employees of the Company who have attained age twenty-one are eligible to participate on January 1st of the plan year in which they complete twelve months of service consisting of at least 1,000 hours. Participants who have completed the required service period during the plan year and are actively employed on the last day of the plan year shall be eligible to share in the Company's contribution for the year.

Note 1 - Description of Plan (Continued)

Contributions

The Company will determine the annual contribution amount subject to limitations set forth in the IRC and the Plan, which is no less than, when aggregated with the Plan's dividends, the amount required to enable the Trustee to discharge the Plan's obligations on any current outstanding loans incurred. Company contributions will be paid in cash or the Company's stock as the Company may determine from time to time. The Company's stock will be valued at its fair value. The Company shall pay to the Trustee its contribution to the Plan for each plan year within the time prescribed by law, including extensions of time for the filing of the Company's federal income tax return for the year. Employee contributions are not permitted.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on participants' eligible compensation relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total account balances.

Vesting

Unless termination is due to normal retirement (age of sixty-five and five years of participation) or death, vesting in the Company's contribution is based on years of continuous service as follows:

Years of Service	% Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Note 1 - Description of Plan (Continued)

Forfeitures

Participants' accounts that are not distributable upon termination of service due to nonvesting shall constitute a forfeiture upon the occurrence of the participant's fifth consecutive one-year break in service. Forfeitures will be allocated in the same manner as employer contributions are allocated. Forfeitures allocated to participants during the year ended December 31, 2019 included 149 shares of common stock. There were no forfeited nonvested amounts as of December 31, 2019 and 2018.

Payment of Benefits

Upon termination of service due to death, disability or normal retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account in the plan year following the event. Distributions for other reasons commence in the fifth plan year following the separation from service, unless a later date is elected. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash, or if a participant elects, in Company stock plus cash for any fractional shares of stock. The distribution shall not include any stock acquired with the proceeds of an acquisition loan until the close of the plan year in which such loan is repaid in full. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company's stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of the Company's stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1 - Description of Plan (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of their investment in the Company's stock into investments which are more diversified. Participants who are at least age fifty-five with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, in which case shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

Administrative Expenses

Substantially all administrative expenses of maintaining the Plan are paid by the Company and are not included in the statement of changes in net assets (deficit) available for benefits.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The shares of the Company stock are valued at fair value. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement - Disclosure Framework (Topic 820).* The updated guidance improves the disclosure requirements on fair value measurements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. Management does not expect the adoption of ASU 2018-13 to have a material impact on the Plan's financial statements.

Note 3 - Administration of Plan Assets

The Plan's assets, which consist of the Company's common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received and dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 4 - Investments

The Plan's investment in the Company stock is presented in the following table:

	2019		2018	
	Allocated	Unallocated	Allocated	Unallocated
Consolidated Bus Transit, Inc. common stock:				
Number of shares	11,152	25,648	9,588	27,212
Cost	$ 14,879,248	$ 34,218,896	$ 12,791,828	$ 36,306,316
Estimated fair value	$ 10,769,422	$ 24,767,234	$ 12,407,468	$ 35,215,412

The dividend on allocated shares was applied to debt service. This is reported as a transfer from the allocated accounts to the unallocated accounts on the statement of changes in net assets (deficit) available for benefits. As required by the plan document, the current appraised value of the shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends.

Note 5 - Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 - Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 35,536,656	$ 35,536,656

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 47,622,880	$ 47,622,880

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2019:

	Company Common Stock
Balance, beginning of year	$ 47,622,880
Unrealized depreciation in estimated fair value	(12,086,224)
Balance, end of year	$ 35,536,656
The amount of total losses for the period included in changes in net assets attributable to the change in unrealized losses relating to assets still held at the reporting date	$ (12,086,224)

Unrealized gains (losses) included in changes in net assets for the period above are reported in net unrealized depreciation in fair value of investments in the statement of changes in net assets (deficit) available for benefits.

Note 5 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Company common stock: The Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon an income valuation technique consistent with the prior year as illustrated below:

Instrument	December 31, 2019 Fair Value	December 31, 2018 Fair Value	Valuation Technique	Unobservable Inputs
Company common stock	$35,536,656	$47,622,880	Income	EBITDA Weighted-average cost of capital Discount rate Discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Note 6 - Related Party Transactions

On June 26, 2014, the Plan entered into promissory notes with the Sellers amounting to $52,500,000 (the "Initial Seller Notes"), which were subject to a post-closing adjustment to the purchase price (see below). The proceeds of the notes were used to purchase 80% of the Company's issued and outstanding common stock. The promissory notes bore interest at 5.14% per annum and were payable in thirty annual installments of equal principal and accrued interest, commencing December 31, 2014. The Plan could repay the principal amount, in whole or in part, at any time without penalty. Any prepayments would be applied against the unpaid installments of principal.

Note 6 - Related Party Transactions (Continued)

On July 31, 2014, the Company assumed from the Plan all rights and obligations under the Initial Seller Notes by issuing several promissory notes to the Sellers and the Plan entered into a credit agreement (the "ESOP Loan") with the Company in the amount of $47,536,547, subject to the post-closing adjustment to the initial purchase price (see below). The ESOP Loan bears interest at 3.06% per annum and is payable in thirty equal annual installments of principal, plus interest, commencing December 31, 2014.

The stock purchase agreement provided that the initial purchase price for the shares of the Company was subject to adjustment based upon the difference between the Projected Net Worth and the Closing Net Worth by adjusting the principal amount of the Initial Seller Notes retroactive to June 26, 2014. In January 2015, the purchase price was reduced by $3,401,856 and the aggregate principal amount of the ESOP Loan was retroactively reduced as of July 31, 2014.

Aggregate annual maturities of the ESOP Loan payable at December 31, 2019 are as follows:

Year Ending December 31,	
2020	$ 1,455,715
2021	1,455,715
2022	1,455,715
2023	1,455,715
2024	1,455,715
Thereafter	27,658,584
	$ 34,937,159

Interest expense for the year ended December 31, 2019 was approximately $1,125,000.

Plan investments include shares of Company common stock purchased using proceeds of a loan from the Company. This investment, transactions in this investment and the loan from the Company qualify as party-in-interest transactions. The Plan also has a number of service providers that qualify as parties-in-interest under ERISA.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and related regulations. Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the trust fund and sell shares of financed Company stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 23, 2017 that the Plan and related trust are designed in accordance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions.

In January 2016, the Plan was notified that the Department of Labor ("DOL") selected it for review. As a result of this review and in conjunction with a settlement agreement between the DOL and Wilmington Trust (the Plan's former trustee) for a total amount of $80,000,000, the Plan received $5,624,801 in June 2020. This amount will be recorded as a gain during the year ending December 31, 2020, which will be allocated to eligible participants based on their pro rata share. Although the Plan has not received a formal closing letter for the DOL review, the Company and its legal counsel believe that the review has been concluded with the settlement agreement.

Note 9 - Risks and Uncertainties

The plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risk, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets (deficit) available for benefits.

Note 10 - Subsequent Events

The Plan has evaluated subsequent events through December 10, 2020, which is the date the financial statements were available to be issued. No significant matters, other than disclosed in Note 8 and below, were identified for disclosure during this evaluation.

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, there has been heightened market risk and the Plan's investment portfolio has experienced significant volatility in fair value since December 31, 2019. Because the value of the Plan's only investment has and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

Additionally, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted to, among other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic.
