1. PLAN DESCRIPTION

The following description of the Metson Marine Services, Inc. 401(k) Plan & Trust (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees, as defined by the Plan, who have been employed for at least one year by Metson Marine Services, Inc. and participating employers (collectively, the "Company" and the "Plan Sponsor") are at least 21 years of age and have one month of service to make elective deferrals. In addition, participants must complete 1,000 hours of service and be employed on the last day of the Plan year in order to be eligible for discretionary Company contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective October 31, 2019, all of the Plan's assets were transferred from Massachusetts Mutual Life Insurance Company ("MassMutual") to Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company (collectively "Great-West").

Contributions - Each year, participants may contribute up to 100 percent of their compensation as pre-tax and Roth deferrals, as defined by the Plan and subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan. Participants direct the investment of their contributions into various options offered by the Plan.

The Company contributed a discretionary matching contribution of 50 percent of the participant's deferral up to four percent of compensation. The Company contributed $88,697 for the year ended December 31, 2019. The Company may also make discretionary profit sharing contributions. No discretionary Company profit sharing contribution was made for the year ended December 31, 2019.

Vesting - Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of service. Participants are vested in Company contributions at 20 percent after two years of service, and an additional 20 percent each year thereafter until 100 percent vested upon six years of service. While still employed by the Company, if a participant becomes disabled, dies or reaches normal retirement age, the participant becomes 100 percent vested.

Forfeitures - Forfeitures of Company contributions may be used to pay Plan administrative expenses and to reduce discretionary Company contributions. During the year ended December 31, 2019, $22,342 forfeitures were utilized to reduce the 2018 Company matching contribution. As of December 31, 2019, there were $7,128 of forfeitures available for future use.

Payment of Benefits - On termination of service for any reason, a participant or their beneficiaries, as applicable, may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account in accordance with the Plan.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by MassMutual and Great-West.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Administrative Expenses - Administrative expenses incidental to the administration of the Plan, including fees of MassMutual, Great-West and the independent public accountants, may be paid by the Plan. Administrative expenses not paid by the Company are paid by the Plan.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

In accordance with the Expense Budget Account Agreement between the Company and MassMutual, MassMutual is required to make quarterly contributions to an Expense Budget Account ("EBA") in an amount equal to 0.40 percent of eligible Plan assets plus $1,319. The net appreciation of investments is inclusive of these contributions. The funds in the EBA may be used to pay Plan administrative expenses or be reallocated to eligible participants. During the year ended December 31, 2019, MassMutual contributed $22,570 to the EBA, all of which was utilized to pay Plan administrative expenses.

In accordance with the Expense Budget Account Agreement between the Company and Great-West, Great-West is required to make contributions to an EBA in an amount equal to 0.45 percent of eligible Plan assets. The net appreciation of investments is inclusive of these contributions. The funds in the EBA may be used to pay Plan administrative expenses or be reallocated to eligible participants. During the year ended December 31, 2019, Great-West contributed $1,964 to the EBA, of which $1,746 was utilized to pay Plan administrative expenses.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefits Payable to Participants - Benefits are recorded when paid.

Fair Value - The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value ("NAV") of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Common Collective Trusts ("CCTs") – The CCTs are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The primary investment objective of the CCTs is to allow participants to achieve the same rate of return as the underlying mutual funds, less fee charged by the insurance company. The CCTs do not have any unfunded commitments relating to their investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

Investments at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 102,573	$ -	$ -	$ 102,573
Investments in the fair value hierarchy	$ 102,573	$ -	$ -	$ 102,573
Investments measured at NAV practical expedient				5,150,780
Investments at fair value				$ 5,253,353

As of December 31, 2018, all of the Plan's investments at fair value were measured at NAV as a practical expedient and the following table sets forth the Plan's investments at fair value:

As of December 31,	**2018**
Investments measured at NAV practical expedient	$ 3,931,579
Total investments at fair value	$ 3,931,579

3. FINANCIAL DATA CERTIFIED BY THE CUSTODIANS AND TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Custodians and Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments, at fair value and contract value, and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.

b. Net appreciation of investments, interest and dividend income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

c. Investments and participant loans as of December 31, 2019 as listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

Prior to October 31, 2019, the Plan had entered into a traditional investment contract with Hartford Life Insurance Company ("Hartford") totaling $1,134,716 for 2018. Hartford maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Hartford was contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with Hartford. Such interest rates were reset on a quarterly basis.

The Fixed Account meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on Hartford's ability to meet its financial obligations. Hartford's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with Hartford. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The plan administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with Hartford and that would also limit the Plan's ability to transact at contract value with participants.

The investment contract does not permit Hartford to terminate the agreement prior to the scheduled maturity date.

5. FEDERAL INCOME TAX STATUS

Effective October 31, 2019, the Company adopted a prototype plan which is the subject of a favorable tax opinion letter from the IRS dated March 31, 2014. The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plans Compliance Resolution System. The Company believes that the Plan currently is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments are held and managed by the Custodians and Trustee. Transactions with the Custodians and Trustee qualify as party-in-interest transactions for which exemptions exist. MassMutual received $1,210 for loan administration and transaction fees which were paid by participants through the Plan. In addition, the Plan utilizes an advisor that received direct compensation of $24,316 all of which was paid from the EBA, and the third party administrator received direct and indirect fees of $1,491 and $2,773, respectively, from the Plan.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

As of December 31,	**2019**	**2018**

Corrective distributions	17,404	-
Net assets available for benefits per the Form 5500	$ 5,384,188	$ 5,220,195

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500:

Change in accounting difference of notes receivable from participants	(16,366)
Change in corrective distributions	17,404
Net increase in net assets available for benefits per the Form 5500	$ 163,993

8. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their Company contributions.

9. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance during the previous 12 months, or 50 percent of their vested account balance. The loan interest rate is set at one percent above the prime rate, as defined in the Plan. The loans are stated at the unpaid principal amount and are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events that have occurred through December 10, 2020, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements, except as disclosed below.

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was signed into law on March 27, 2020. The CARES Act provides participants with optional relief provisions related to distributions and loans from the Plan. The Company has evaluated and authorized the implementation of certain relief provisions effective April 2020. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.
