DESCRIPTION OF PLAN

The following brief description of the Texas de Brazil Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Texas de Brazil Corporation (the "Company" or "Plan sponsor") who have attained eighteen years of age and completed three months of service as defined by the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to contribute a percentage of their salary pre-tax to the plan each year, subject to annual limits as prescribed by the Internal Revenue Code. Participants may also elect to contribute on an after-tax basis as a Roth 401(k) deduction, subject to annual limits as prescribed by the Internal Revenue Code. Participants are one hundred percent vested in all of their contributions. The Company makes matching contributions up to the first three percent of the participants' eligible compensation, and then an additional fifty percent match of up to the next two percent of eligible compensation.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their fund accounts at a minimum of $1,000 and a maximum of 50% of their vested benefits up to $50,000. The notes receivable are secured by the balance in the participant's account and bear interest. Notes receivable repayments and related interest are deducted from participant's paychecks over installment periods up to five years.

Investments

Participants may direct employee contributions in money market, bonds, and mutual fund investments, as provided by the Plan's trustees. The Participant may change their investment options and transfer previously contributed amounts between investments at any time.

DESCRIPTION OF PLAN - continued

Vesting

All participants are immediately 100% vested in rollover, participant, and Company match contributions under the safe harbor guidelines.

Payment of benefits

Upon termination by death, disability or retirement, the participant or the participant's beneficiary may receive the vested account balance in periodic installments, in the form of a joint and survivor, pre-retirement or life annuity, or a lump sum if the account balance is less than $5,000. Benefit payments to participants are recorded when paid.

Forfeitures

Forfeitures are available to pay plan fees or reduce future employer contributions. The balance in the forfeiture account at December 31, 2019 and 2018, was $25,569 and $24,914, respectively.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See fair value measurements footnote for further discussion.

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation). See investments footnote for further discussion of net appreciation (depreciation).

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Plan expenses

The Company pays certain administrative expenses of the Plan.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Payment of benefits

Benefit payments to participants are recorded when paid.

Subsequent events

Management has evaluated subsequent events through December 18, 2020, which was the date the financial statements were available to be issued, for possible recognition of disclosure in the financial statements. The Plan sponsor has determined that there are no events or transactions that would require disclosure in the Plan's financial statements.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, provides a common definition of fair value and establishes a framework for measuring fair value. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value and describes three levels of inputs that may be used to measure fair value.

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities
Level 2 - Inputs that are observable for the asset or liability, either directly or indirectly (other than quoted prices included within in Level 1)
Level 3 - Inputs are unobservable for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability

FAIR VALUE MEASUREMENTS - continued

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled separate accounts: Pooled separate accounts are valued at the net asset value (NAV) of the shares held by the plan at year end and are classified in Level 1 of the fair value hierarchy.

These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts. The insurance company custodian transacts in these funds on a daily basis as part of the separate account trading activity.

The calculation of the NAV for funds composed of other funds (e.g., retirement target date funds) is essentially the same as the calculation of the NAV for any other fund: the total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

Money market funds: Money market funds are classified in Level 1 of the fair value hierarchy as fair value is based on quoted prices in active markets for identical securities.

Guaranteed investment account: The fair value for the unallocated insurance contracts is determined as the present value of future guaranteed account values and participant benefit withdrawals, assuming an annual benefit withdrawal rate of 9%. Benefit withdrawals are assumed to occur on the contract anniversary date. Present values are derived by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates. Market interest rates are deemed to be the same rates to be credited to new issues of the same contract with like guarantees issued as of the date of the fair value determination. The market interest rates used have interest guarantee periods that match the guarantee periods remaining as of the valuation date for the contract.

Interest rate guarantees of the deposit account are backed by assets of the custodian (Ameritas Life Insurance Corp.). Credited rates are set based on yields earned on new purchases of fixed income securities for the general account. Credited rates are guaranteed for the duration of the guaranteed period elected by the plan sponsor and do not vary with the subsequent performance of assets of the general account that back these guarantees. Due to the nature of these contracts, specific underlying assets are not assigned and there is no market (quoted prices or observable inputs) and as such the valuation includes significant inputs based on assumptions about market participant assumptions. Guaranteed investment accounts are classified in Level 3 of the fair value hierarchy.

FAIR VALUE MEASUREMENTS - continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the financial instruments carried at fair value as of December 31 by the ASC 820 valuation hierarchy, as described above:

	Investments at Fair Value as of December 31, 2019

TAX STATUS

The Internal Revenue Service has determined that the Plan is qualified, and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter dated October 31, 2011. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service.

TAX STATUS – continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

RELATED PARTY TRANSACTIONS

The Plan trustee is an employee of Texas de Brazil Holding Corporation.

Participants may choose to have their contributions directed to various pooled separate accounts made available by Ameritas Life Insurance Corp., custodian for the Plan.

Texas de Brazil pays certain administrative expenses on behalf of the Plan and provides certain services at no cost to the Plan.

SEPARATED PARTICIPANTS

At December 31, 2019, the Plan held balances for participants who have terminated totaling $1,540,798.

SUBSEQUENT EVENTS

The Company has evaluated subsequent events for potential recognition and disclosure through December 15, 2020, the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization declared the coronavirus ("COVID-19") to be a public health emergency. The outbreak of COVID-19 has severely impacted global business activities across a broad section of industries. This outbreak and corresponding new government mandates may have a continued adverse effect on economic and financial market conditions and trigger a period of global economic slowdown which could increase risk to the future performance of investments. Its full impact on the global economy, business operations and portfolio performance is not yet known.
