Note 1 - Description of Plan

The following description of the Oscar de la Renta, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a qualified defined contribution plan covering all employees of Oscar de la Renta, LLC (the "Company") who have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Amendments

As a result of the Bipartisan Budget Act of 2018 and effective January 1, 2019, the requirement to exhaust loan distributions prior to receiving a hardship distribution was removed from the Plan. Also, sources available for hardship withdrawals are expanded beyond salary deferrals to include safe harbor contributions, qualified non-elective contributions and qualified matching contributions. Additionally, participants are no longer suspended from making contributions to the Plan or from receiving Company matching contributions as a result of a hardship withdrawal. The Plan is currently working on reflecting these changes in its plan documents.

Contributions

Each participant of the Plan can elect to contribute a percentage, between 1% and 100%, of their compensation provided such amount will not cause the Plan to exceed certain limitations prescribed by the Internal Revenue Code (the "IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. These amounts are credited to each participant's separate rollover account. Additionally, participants age fifty or older who are making contributions to the Plan are allowed to make catch-up contributions as defined in the Plan. The Company may, at its discretion, make matching and profit sharing contributions for the plan year not to exceed certain limitations prescribed by the IRC. In order to share in the employer matching contribution or the profit sharing contribution, a participant must complete 1,000 hours of service and be employed on the last day of the plan year, unless the participant retired, became disabled or died during the plan year. The Company did not make any discretionary matching or profit sharing contributions for the plan year ended December 31, 2019.

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and plan earnings, and an allocation of the profit sharing contribution and expenses. Discretionary profit sharing contributions are allocated based on compensation and expenses are allocated based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Automatic Enrollment

The Plan has an automatic enrollment election and under this provision, each employee who has satisfied the eligibility requirements is automatically enrolled and has an amount equal to 3% of their compensation automatically deducted unless the employee affirmatively elects a different elective deferral contribution percentage (including a zero percent election).

Vesting

Participants are immediately vested in their voluntary contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant will have a fully (100%) vested interest in his or her employer contribution account in the event of death or disability. A participant is 100% vested after six years of credited service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures may, at the Plan's discretion, be applied to reduce the Company's contributions or they can be reallocated to participants.

Note 1 - Description of Plan (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct their allocable contributions in increments of 1% in any of the various pooled separate accounts or a Voya Fixed Account offered by the Plan.

Participants may change their investment options daily.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% as of the date of the loan unless otherwise determined by the plan trustee. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service for any reason, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest is $5,000 or less. If the participant's vested interest is over $5,000, the participant may elect to receive payment in a lump-sum amount or installments paid over a certain number of years selected by the participant.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

In accordance with the Plan, all administrative expenses may be paid out of the Plan unless paid by the Company. During the year ended December 31, 2019, certain administrative expenses were paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Institutional Trust Company ("Voya"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

Guaranteed Interest Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The Voya Fixed Account is a guaranteed interest account which promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as determined by Voya. The crediting interest rate was 1.80% for the year ended December 31, 2019. The net return for the guaranteed interest account was 1.80% for the year ended December 31, 2019.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Guaranteed Interest Account	$ -	$ 1,456,975	$ -	$ 1,456,975
Investments measured at NAV practical expedient[(a)]				10,665,454
Total investments at fair value				$ 12,122,429

Note 4 - Fair Value Measurements (Continued)

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Guaranteed Interest Account	$ -	$ 1,698,987	$ -	$ 1,698,987
Investments measured at NAV practical expedient[(a)]				8,274,877
Total investments at fair value				$ 9,973,864

(a) In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31,	
	2019	2018
Net assets:		
Voya Fixed Account	$ 4,499	$ 4,416

	Year Ended December 31, 2019
Changes in net assets:	
Earnings	$ 83

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7 - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 12,216,833	$ 10,002,350
Adjustment from fair value to contract value for Voya Fixed Account	(42,315)	50,668
Net assets available for benefits per Schedule H of the Form 5500	$ 12,174,518	$ 10,053,018

The following is a reconciliation of net appreciation in fair value of investments according to the financial statements to Form 5500 for the year ended December 31, 2019:

Net appreciation in fair value of investments per the financial statements	$ 2,182,603
Less: Net adjustment from fair value to contract value for Voya Fixed Account at end of year	(42,315)
Less: Net adjustment from fair value to contract value for Voya Fixed Account at beginning of year	(50,668)
Net appreciation in fair value of investments per Schedule H of the Form 5500	$ 2,089,620

Note 8 - Related Party and Party-in-Interest Transactions

Certain plan investments are shares of pooled separate accounts and a Voya Fixed Account managed by Voya. Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third-party administrator of $1,723 for the year ended December 31, 2019, which were not covered by revenue sharing. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 9 - Risks, Uncertainties and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets available for benefits.

At December 31, 2019, approximately 16% of the Plan's investments were invested in the Fidelity 500 Index Fund. At December 31, 2018, approximately 17% of the Plan's investments were invested in the Voya Fixed Account.

Note 10 - Tax Status

The Internal Revenue Service ("IRS") has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed the prototype plan sponsor of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events through December 23, 2020, which is the date these financial statements were available to be issued. No significant matters, other than disclosed below, were identified for disclosure during this evaluation.

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a pandemic. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has experienced significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

Note 11 - Subsequent Events (Continued)

In December 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act was signed into law, related to required minimum distributions and the limitation of lifetime or stretch distributions to remain compliant under the applicable laws and regulations. These provisions are effective beginning January 1, 2020.

Additionally, on March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increased the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance
- Extended the period for loan repayments, if applicable, up to one year

The Plan is in the process of operationally being amended to implement certain changes permitted by the above law changes.

Note 1 - Description of Plan

The following description of the Oscar de la Renta, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a qualified defined contribution plan covering all employees of Oscar de la Renta, LLC (the "Company") who have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Amendments

As a result of the Bipartisan Budget Act of 2018 and effective January 1, 2019, the requirement to exhaust loan distributions prior to receiving a hardship distribution was removed from the Plan. Also, sources available for hardship withdrawals are expanded beyond salary deferrals to include safe harbor contributions, qualified non-elective contributions and qualified matching contributions. Additionally, participants are no longer suspended from making contributions to the Plan or from receiving Company matching contributions as a result of a hardship withdrawal. The Plan is currently working on reflecting these changes in its plan documents.

Contributions

Each participant of the Plan can elect to contribute a percentage, between 1% and 100%, of their compensation provided such amount will not cause the Plan to exceed certain limitations prescribed by the Internal Revenue Code (the "IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. These amounts are credited to each participant's separate rollover account. Additionally, participants age fifty or older who are making contributions to the Plan are allowed to make catch-up contributions as defined in the Plan. The Company may, at its discretion, make matching and profit sharing contributions for the plan year not to exceed certain limitations prescribed by the IRC. In order to share in the employer matching contribution or the profit sharing contribution, a participant must complete 1,000 hours of service and be employed on the last day of the plan year, unless the participant retired, became disabled or died during the plan year. The Company did not make any discretionary matching or profit sharing contributions for the plan year ended December 31, 2019.

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution and plan earnings, and an allocation of the profit sharing contribution and expenses. Discretionary profit sharing contributions are allocated based on compensation and expenses are allocated based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Automatic Enrollment

The Plan has an automatic enrollment election and under this provision, each employee who has satisfied the eligibility requirements is automatically enrolled and has an amount equal to 3% of their compensation automatically deducted unless the employee affirmatively elects a different elective deferral contribution percentage (including a zero percent election).

Vesting

Participants are immediately vested in their voluntary contributions and rollover accounts plus actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant will have a fully (100%) vested interest in his or her employer contribution account in the event of death or disability. A participant is 100% vested after six years of credited service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures may, at the Plan's discretion, be applied to reduce the Company's contributions or they can be reallocated to participants.

Note 1 - Description of Plan (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct their allocable contributions in increments of 1% in any of the various pooled separate accounts or a Voya Fixed Account offered by the Plan.

Participants may change their investment options daily.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% as of the date of the loan unless otherwise determined by the plan trustee. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service for any reason, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest is $5,000 or less. If the participant's vested interest is over $5,000, the participant may elect to receive payment in a lump-sum amount or installments paid over a certain number of years selected by the participant.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

In accordance with the Plan, all administrative expenses may be paid out of the Plan unless paid by the Company. During the year ended December 31, 2019, certain administrative expenses were paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Institutional Trust Company ("Voya"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

Guaranteed Interest Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The Voya Fixed Account is a guaranteed interest account which promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as determined by Voya. The crediting interest rate was 1.80% for the year ended December 31, 2019. The net return for the guaranteed interest account was 1.80% for the year ended December 31, 2019.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Guaranteed Interest Account	$ -	$ 1,456,975	$ -	$ 1,456,975
Investments measured at NAV practical expedient[(a)]				10,665,454
Total investments at fair value				$ 12,122,429

Note 4 - Fair Value Measurements (Continued)

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Guaranteed Interest Account	$ -	$ 1,698,987	$ -	$ 1,698,987
Investments measured at NAV practical expedient[(a)]				8,274,877
Total investments at fair value				$ 9,973,864

(a) In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31,	
	2019	2018
Net assets:		
Voya Fixed Account	$ 4,499	$ 4,416

	Year Ended December 31, 2019
Changes in net assets:	
Earnings	$ 83

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7 - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 12,216,833	$ 10,002,350
Adjustment from fair value to contract value for Voya Fixed Account	(42,315)	50,668
Net assets available for benefits per Schedule H of the Form 5500	$ 12,174,518	$ 10,053,018

The following is a reconciliation of net appreciation in fair value of investments according to the financial statements to Form 5500 for the year ended December 31, 2019:

Net appreciation in fair value of investments per the financial statements	$ 2,182,603
Less: Net adjustment from fair value to contract value for Voya Fixed Account at end of year	(42,315)
Less: Net adjustment from fair value to contract value for Voya Fixed Account at beginning of year	(50,668)
Net appreciation in fair value of investments per Schedule H of the Form 5500	$ 2,089,620

Note 8 - Related Party and Party-in-Interest Transactions

Certain plan investments are shares of pooled separate accounts and a Voya Fixed Account managed by Voya. Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third-party administrator of $1,723 for the year ended December 31, 2019, which were not covered by revenue sharing. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 9 - Risks, Uncertainties and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets available for benefits.

At December 31, 2019, approximately 16% of the Plan's investments were invested in the Fidelity 500 Index Fund. At December 31, 2018, approximately 17% of the Plan's investments were invested in the Voya Fixed Account.

Note 10 - Tax Status

The Internal Revenue Service ("IRS") has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed the prototype plan sponsor of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events through December 23, 2020, which is the date these financial statements were available to be issued. No significant matters, other than disclosed below, were identified for disclosure during this evaluation.

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a pandemic. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has experienced significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

Note 11 - Subsequent Events (Continued)

In December 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act was signed into law, related to required minimum distributions and the limitation of lifetime or stretch distributions to remain compliant under the applicable laws and regulations. These provisions are effective beginning January 1, 2020.

Additionally, on March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increased the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance
- Extended the period for loan repayments, if applicable, up to one year

The Plan is in the process of operationally being amended to implement certain changes permitted by the above law changes.
