Technical Staffing Resources, LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Technical Staffing Resources, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the *Plan document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution plan covering all eligible employees of Technical Staffing Resources, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Kellogg Brown & Root, LLC (KBR) Benefits Committee is responsible for oversight of the Plan. The KBR Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

During 2019, assets were transferred from the Plan as a result of plan-to-plan transfers for participant account balances of $5,765 to the Kellogg Brown & Root, Inc. Retirement and Savings Plan. The participants changed their status to an employee during the year, which resulted in a change of eligibility status.

Contributions

Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also designate some of their contributions as after tax contributions to a Roth 401(k) option. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company may contribute a discretionary matching contribution on a plan year, quarterly period, or a pay-period basis. The Company may contribute an additional discretionary profit sharing contribution for participants that are employed as of the last day of the plan year. During the years ended December 31, 2019 and 2018, the Company made no discretionary matching contributions or discretionary profit sharing contributions to the Plan. Contributions and participant account balances are invested as directed by the participant to any fund or a combination of funds. Contributions are subject to certain limitations.

Investment Elections and Transfers

The Plan participates in the KBR Employee Benefit Master Trust with State Street Bank and Trust Company (State Street) and in the KBR Master Trust with Vanguard Fiduciary Trust Company (Vanguard) (collectively, the Master Trusts). The Plan assets are held in each Master Trust (see Note 3).

The Plan allows participants to make daily transfers of their account balances among the funds, subject to the Plan's investment transfer policy. The amount of the transfer may be all or any portion of the participant's account balance.

The Plan has an investment transfer policy that places waiting periods on transfers and reallocations into and out of all of the investment funds. If a participant makes a transfer or fund reallocation out of a fund other than the stable value fund, the participant cannot transfer money into that same fund for up to twenty calendar days. If funds are transferred or reallocated into and out of the stable value fund, the number of units that the money represents on the day of the transfer or reallocation transaction is locked in and cannot be transferred out of the stable value fund for up to twenty calendar days. Participants are permitted to reallocate or transfer money into and out of the stable value fund at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (reduced by the highest outstanding loan balance in all Company sponsored plans by the participant in the prior twelve months) or 50 percent of their vested account balance. A participant may not have more than one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus one percent as published by the Wall Street Journal at the time of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon separation of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a fixed period of time, not to exceed the life expectancy of the participant or the beneficiary.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $102,728 and $94,155, respectively. These forfeited nonvested accounts are reallocated to active participant accounts as part of the Company's discretionary profit sharing contribution. No forfeitures were reallocated to participant accounts during 2019 or 2018.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in the Master Trusts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities in the Master Trusts are recorded on a trade-date basis. Interest income on the Master Trusts' investments are recorded on the accrual basis. Dividends on the Master Trusts' investments are recorded at the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on Master Trusts' investments bought and sold as well as held during the year. Included with interest, dividends and other income and presented as Plan interest in investment income (loss) of Master Trust in the statement of changes in net assets available for benefits.

The Plan records interest on cash and cash equivalents and notes receivable from participants held outside of the Master Trusts as earned.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Master Trusts pay substantially all Plan expenses on behalf of the Plan. Generally, trustee fees, recordkeeping fees, audit fees and investment management fees are paid from the Master Trusts' assets and are charged to the applicable plans participating in the Master Trusts. Expenses related to the direct management of the Master Trusts are shared on an equitable basis by the participating plans. Expenses specifically related to an individual plan are charged to the assets of the plan that incurred the charges. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net income (loss) of the Master Trusts.

New Accounting Pronouncements/Accounting Changes

In February 2017, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, Plan Accounting: *Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): Employee Benefit Plan Master Trust Reporting *(A Consensus of the Emerging Issues Task Force)*. The ASU impacts the financial reporting and disclosures required by employee benefit plans in a master trust. The significant requirements include (1) a plan's interest in a master trust and change in interest in the master trust should be presented in separate line items in the plan's statement of net assets available for benefits and the statement of changes in net assets available for benefits, respectively, (2) the dollar amount of the plan's interest in each general type of investment held by the master trust should be disclosed, which would supplement the existing GAAP requirement that a plan disclose the master trust's balances in each of those investments by general type and (3) the plan should disclose the master trust's other asset and liability balances, as well as the dollar amount of the plan's interest in each of those balances. The current GAAP requirement for a plan with a divided interest in a master trust to disclose its overall percentage in the master trust is eliminated to avoid requiring the disclosure of redundant information. The ASU is effective for all plan years beginning after December 15, 2018. The Plan's adoption of this guidance was applied retrospectively and is reflected in Note 3 of the Plan's financial statements.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements.* The ASU modifies the disclosure requirements on fair value measurements in Accounting Standards Codification Topic 820. The ASU is effective for all reporting periods beginning after December 15, 2019, with early adoption permitted. An entity may elect to early adopt any removed or modified disclosures upon issuance of this Update and delay the adoption of the additional disclosures until the effective date. The Company has elected to early adopt this ASU; however, it did not have a material effect on the Plan's financial statements.

Reclassifications

Certain reclassifications have been made to the 2018 financial statements to conform to the 2019 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through December 18, 2020, the date the financial statements were available to be issued.

Note 3. Participation in Master Trusts

All of the Plan's investments, except for participant loans, are in the Master Trusts, which were established for the collective investment of certain defined contribution and defined benefit plans. The assets of the Master Trusts are segregated into funds in which the plans may participate. The combination of the plans' assets is only for investment purposes and the plans continue to be operated under their current plan documents, as amended.

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held in the Master Trusts and notes receivable from participants at December 31, 2019 and 2018, and net income (loss) of the Master Trusts and interest income on notes receivable from participants for the years ended December 31, 2019 and 2018, was obtained or derived from information provided to Plan management and certified as complete and accurate by Vanguard and State Street, the trustees of the Plan.

Plan Interest in the KBR Master Trust

Some of the Plan's investments are held by Vanguard in the KBR Master Trust, established by KBR for the investment of assets of various benefit plans. Each participating plan has an undivided interest in the KBR Master Trust. The Plan's proportionate interest in the investments of the KBR Master Trust at December 31, 2019 and 2018 was approximately 0.8% each year.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets in the Master Trusts measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Interest-bearing cash: Held primarily in short-term money market funds, which are valued at cost plus accrued interest.

Collective trust funds: Valued at the NAV of the shares held, which is based on the fair value of the underlying investments using information reported by the investment advisor at year end. The NAV is used as a practical expedient to estimate fair value.

Stable value fund: Valued at the NAV of the shares held by the Plan at year end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year end.

The Master Trusts consider all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(a) The investment objective of this fund is to provide interest income consistent with prevailing market and interest rate conditions, principal stability, capital preservation, and liquidity for participant activity. The fund seeks to achieve these goals by investing in a combination of stable value contracts and fixed income investments.

Note 5. Related Party Transactions and Party in Interest Transactions

The Plan, through its participation in the Master Trusts, may invest in shares of mutual funds, collective trust funds or a stable value fund provided through Vanguard and State Street. Vanguard and State Street are the trustees for the Plan and, therefore, these transactions qualify as party in interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 7, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The investments of the Master Trusts are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Concentration Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk principally consist of cash and cash equivalents. At times, such investments may be in excess of federally insured limits.

Note 10. Subsequent Events

COVID-19

On March 11, 2020, the World Health Organization declared Coronavirus (COVID-19) a pandemic. The extent of the operational and financial impact the COVID-19 pandemic may have on the Plan Sponsor has yet to be determined and is dependent on its duration and spread, any related operational restrictions and the overall economy. The Plan Sponsor is unable to accurately predict how COVID-19 will affect the results of its operations or the Plan because the virus's severity and the duration of the pandemic are uncertain. Potential impacts include, but are not limited to, additional costs for responding to COVID-19, potential shortages of personnel, delays, loss of, or reduction to revenue and overall market decline. Management believes the Plan Sponsor is taking appropriate actions to respond to the pandemic; however, the full impact is unknown and cannot be reasonably estimated at the date the financial statements were available for issuance.

CARES Act

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for certain distributions and loan repayments, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.
