RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 1 - Description of the Plan

The following description of the Retirement Plan for Michigan Credit Union Employees - 401(k) Savings Plan (the "Plan") provides only general information. Detailed information including vesting, allocation, forfeiture provisions, participant and employer contributions and eligibility has been provided in the plan agreement and adoption agreement of each participant employer.

General

The Plan is a multiple employer defined contribution plan established to encourage and facilitate systematic savings and investments by eligible employees. Each participating employer retains the right to terminate their participation within the Plan, in whole or in part, to temporarily or permanently suspend its liability to make contributions to the Trust, to the extent that it relates to that participating employer and its employees. The Plan was established effective July 1, 1997. The Plan receives contributions and makes benefit payments on behalf of various employer credit unions located in Michigan and other affiliates of the Michigan Credit Union League (the "Sponsor"). It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). During 2014, the members of the Board of Trustees consisted of officers and members of the member credit unions.

Administration

The Plan Administrator is a Committee of individuals who are appointed by the Board of Directors of Michigan Credit Union League. The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator has formed an Investment Committee made up of officers and members of the member credit unions. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and oversees the reasonableness of expenses and fees. The Plan's appointed record keeper is CMFG Life Insurance Company. The investment Custodian is MG Trust Company, LLC which hold all of the Plan's assets and execute all of the Plan's transactions. CMFG Life Insurance Company provides all participant recordkeeping and administration services.

Effective September 4, 2014, the Plan changed its investment Custodian from CMFG Life Insurance Company and State Street Bank to MG Trust Company, LLC.

Eligibility

With certain exceptions, all full-time employees of participating credit unions of the Sponsor who have one year of service and are age twenty-one or older are eligible to participate in the Plan.

RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 1 - Description of the Plan (Continued)

Contributions to the Plan

Each year, participants may contribute up to 100% of eligible compensation, as defined by the adoption agreement of the participating employer, through an elective deferral agreement. Participants who have attained age 50 before the end of the year are eligible to make additional 'catch-up' contributions. Participants may also contribute amounts representing distributions from other defined contribution plans (rollovers). However, the Plan Administrator reserves the right to refuse acceptance of any rollover which might affect the status of the Plan.

Employer contributions in the accompanying financial statements represent the total of required and discretionary, fixed and matching contributions made by participating credit unions of the Sponsor, in accordance with the adoption agreement of each of these credit unions.

Participants direct the investment of all contributions into the various investment options offered by the Plan. Participants may change their investment options on a daily basis.

Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of: (a) the employer's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined in the plan documents. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The income, gains or losses in each fund are allocated daily to the applicable participants' accounts in that fund based on the previously reported account balances, adjusted for current period contributions and withdrawals.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based on years of continuous service. A participant is 100% vested upon termination of service due to death, disability or retirement, or after six years or less of credited service, depending on the participant credit union's adoption agreement.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 1 - Description of the Plan (Continued)

Forfeitures

After five years, the nonvested balances of terminated plan participants are forfeited and are released from the individual participant accounts and can be used by the respective participating credit union to fund current employer contributions. As of December 31, 2014, the amount of unreleased forfeitures that remain in the respective participant accounts amount to approximately \$2,767,000. Forfeitures amounting to \$647,350 were used to fund employer contributions during the year ended December 31, 2014. Total released forfeitures available to fund employer contributions as of December 31, 2014 and 2013 amounted to approximately \$60,000 for both years.

Payment of Benefits

Upon termination of service, a participant is entitled to receive the vested portion of his/her account balance in the form of a lump-sum amount or a rollover to another qualified retirement plan. Certain amounts may be withdrawn prior to termination of service upon attainment of age 59 1/2, or due to financial hardship, as defined by the adoption agreement of each participating credit union. Specific rules apply to distributions due to death, disability, and retirement. Participants should refer to the full plan document for details.

Participant Notes Receivable

Upon written request and at the Plan Administrator's discretion, active participants of certain credit union plans that have adopted loan provisions may borrow from their accounts. The minimum amount of borrowing is \$1,000 and the maximum amount is equal to the lesser of: a) \$50,000 or b) 50% of the participant's vested account balance related to voluntary participant contributions at the time of the loan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Co-Plan Administrator. Principal and interest is paid ratably through payroll deductions. Maturities of outstanding loans range from 1 to 5 years.

Transfer of Assets

Approximately \$19,348,000 was transferred out to unrelated plans due to board elections from the employer credit unions. There were no transfers into the Plan from unrelated plans within 2014. This amount represents the balances of the participant's accounts when transferred. The amount of \$19,348,178 is reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014 as transfers to other plans.

These transfers occurred due to the participating credit union's board election, not an election at the participant level.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Income from investments are recorded when they are earned. Employee contributions are recorded when withheld from pay. Employer contributions are recorded in the period to which they pertain. Expenses are recorded in the accounting period in which they are incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment entity attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits represents the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodians and investment advisers. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Realized gains and losses on investment transactions are recorded as the difference between proceeds received and carrying value. Net unrealized appreciation or depreciation in the fair market value of investments is recorded as the change in carrying value of the investment portfolio from the beginning of the year or date of purchase to the end of the year. Realized gains and losses from security transactions are reported on the average cost method.

Participant Notes Receivable

Participant notes receivable are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

Accounting principles generally accepted in the United States of America require the Plan to show participant loans as notes receivable rather than investments. This excludes participant notes receivable from the required fair value disclosures discussed in Note 3.

Payment of Benefits

Benefits are recorded when paid.

Fees and Expenses

Fees related to the administration of loans are charged directly to the participant's accounts and are included in administration expenses. Direct fees for recordkeeping services are paid by the Plan or may be paid from forfeiture account and are also included in administration expenses. The Plan's custodian expenses are paid by the recordkeeper and are excluded from these financial statements. The Plan's administrative expenses including accounting, legal, investment advisory, and insurance are paid directly by the recordkeeper and are excluded from these financial statements. Investment fund related expenses are included in net appreciation/depreciation of fair value of investments.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2015, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Generally accepted accounting principles (GAAP) establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 3 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

Mutual funds are valued at daily closing prices as reported by the Fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Therefore, the Mutual Funds are Level 1 investments.

Common Stocks are invested in a variety of industries and are stated at fair value as determined by quoted market prices. Investments in units of the State Street Bank Short-Term Investment Fund (Collective Trust Fund) for Employee Benefit Plans are determined by reference to quoted market prices and other relevant information generated by market transactions. Therefore, the Cash, Common Stocks and Collective Trust Fund are Level 1 investments.

Level 2 Fair Value Measurements

Funds allocated to the Group Variable Annuity Contract with CMFG Life Insurance Company are invested in subaccounts which invest in equity securities, money market investments and bonds for the benefit of tax-exempt pension and profit sharing plans which purchase units of participation in these subaccounts. The fair value of the subaccounts is based on quoted market prices of the underlying investments. The Stable Value Fund's fair value is determined as reported by the respective carrier as discussed in Note 4. Therefore, the Group Variable Annuity Contracts and Stable Value Fund are Level 2 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 4 - Fully Benefit-Responsive Investment Contracts

GAAP states that investment contracts held by an investment entity are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment entity attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MG Trust Company, LLC as of December 31, 2014 and by CMFG Life Insurance Company as of December 31, 2013, represents contributions made under the contract, plus earnings, less participant withdrawals and administration expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The approximate fair value of the fully benefit-responsive investment contracts at December 31, 2014 and 2013 was \$72,753,000 and \$73,109,000, respectively, as reported by the respective carriers. During 2014 and 2013, the funds were administered by and invested in Guaranteed Investment Contracts with Ohio National Financial Services, Prudential Retirement & Investment Services, New York Life Insurance Company, Principal Life Insurance Company, Protective Life Insurance Company, MetLife Insurance Company, and Jackson National Life Insurance Company. These investment contracts were being credited with interest at annual rates ranging from 1.51% to 5.29% for the years ended December 31, 2014 and 2013, and earned an average yield of 2.47% for the year ended December 31, 2014. The fair value is the amount which is payable on demand on the reporting date. If all participants were eligible for a distribution of their full accounts from the Plan on the reporting date, the amount payable on demand on the reporting date would be at "contract value". There are no reserves against contract value for credit risk of the contract issuer or otherwise.

In the event that the full value of the account could not be paid upon demand, such as amounts subject to the Market Value Adjustment, the "fair value" estimates are based upon "demand value" for the contract. The "demand value" is the amount due to the contract holder under the surrender provisions of the contract.

Note 6 - Certification of Unaudited Financial Information

The Company has engaged MG Trust Company, LLC as of December 31, 2014 and for the period September 4, 2014 through December 31, 2014, and CMFG Life Insurance Company and State Street Bank as of December 31, 2013 and for the period January 1, 2014 through September 3, 2014, to act as Custodians of the Plan. The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as of December 31, 2014 and 2013 and for the year ended December 31, 2014, the financial statements have been prepared based on information certified as complete and accurate by the Custodians of the Plan. This includes the investment information reflected in the accompanying statements of net assets available for benefits, the statement of changes in net assets available for benefits and the schedule of assets (held at end of year).

RETIREMENT PLAN FOR MICHIGAN CREDIT UNION EMPLOYEES - 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Note 7 - Party-in-Interest Transactions

Plan investments and shares are held by MG Trust Company, LLC, who acts as Custodian for the investments as defined by the Plan. MG Trust Company, LLC executes the Plan's transactions for these investments. CMFG Life Insurance Company ("CMFG") is the recordkeeper for the Plan. In addition, the Plan pays direct compensation to the third-party administrator related to the recordkeeping and administrative services. Indirect compensation (that is netted against investment income on the statement of changes in net assets available for benefits) was paid to the Custodian from total annual operating expenses charged on the balance of fund investments, depending on the particular fund, through September 3, 2014. Transactions involving these investments and services are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 8 - Termination of the Plan

Although it has not expressed any intent to do so, the Sponsor through its Board of Directors has the right under the Plan to discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 9 - Plan Amendment and Tax Status

The Plan has been filed with the Internal Revenue Service (IRS) and has received a favorable determination letter dated November 21, 2013 from the IRS. The Plan was amended and restated effective March 28, 2012. The Trustee believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and, therefore, that the Plan is qualified under Section 401(a) and that the related Trust is tax-exempt as of December 31, 2014.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2014, the Plan Administrator believes that the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is currently not being examined. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for the years prior to 2011.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Required Schedule Information

The following information pertains to the 2014 financial statement schedules required by the Department of Labor's Rules and Regulations. Those that are not reported are omitted because of the absence of conditions under which they are required.

- b. Schedule of Assets (Acquired and Disposed of Within the Plan Year) - none to be reported.
