NOTES TO FINANCIAL STATEMENTS
March 13, 2020 And December 31, 2019

1. Description Of The Plan

The following description of Great American Gaming Corporation 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all employees of Great American Gaming Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger

On December 31, 2019 the Board of Directors of the Company executed a resolution to merge the Plan into the Your 401(k) Plan, LLC Retirement Plan (Maverick Gaming, LLC) (the Maverick Plan). All assets of the Plan were merged into the Maverick Plan as of March 13, 2020.

Eligibility

Employees must have completed two months of service and have attained age eighteen to participate in salary deferral, qualified non-elective employer contributions and discretionary employer matching contributions. Upon satisfying these requirements, employees were able to enroll in the Plan on the first day of each month following satisfaction of eligibility requirements.

Participant Contributions

Participants were able to contribute to the Plan through payroll deductions of up to 100% of their annual wages, generally limited to $19,500 in 2020 and $19,000 in 2019, which could be contributed on a pre-income tax or after-tax basis. Participants who were ages 50 or older were able to contribute up to an additional $6,500 in 2020 and $6,000 in 2019. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Plan provided for investment elections among different types of investment funds and participants were able to change their investment elections by communicating directly with the trust company. Contributions determined to be excessive in accordance with the discrimination rules of the Internal Revenue Service regulations were refunded annually.

For each Plan year, the Company was able to make a discretionary matching contribution to the Plan. The Company had the right under the Plan to discontinue its contributions at any time. For the period beginning January 1, 2020 and ended March 13, 2020 and the year ended December 31, 2019, no such discretionary employer contributions were made.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocation of the Company's discretionary matching contribution, if any, and the Plan earnings (losses). Allocations of participant earnings (losses) were based upon participant account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's account, subject to the vesting limitations.

Vesting

Employees were immediately vested in their voluntary contributions and any earnings (losses) thereon. Vesting in the remainder of their account balances was based on years of service as follows:

Years Of Service	Vesting Percentage
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable From Participants

The Plan was permitted to make loans to participants. Participants were able to borrow from their funds up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance at the date the loan was granted. Loans bore interest at prevailing rates and were generally required to be repaid within 5 years, unless the loan is for the purchase of a participant's primary residence, in which the repayment period could not extend beyond 10 years form the date of the loan. Initial loan set up was subject to a $75 fee and each loan outstanding was subject to a $25 annual fee. Principal and interest was paid ratably through payroll deductions. A loan was considered to be in default if amounts due remained outstanding at the end of the quarter following the quarter the amounts became due.

Payment Of Benefits

Upon termination of service, participants could elect to receive a lump sum or partial withdrawal of any distributable vested interest in their account at any time. They could also request their vested account balance be rolled over into an IRA or qualified plan, or they could defer receipt of distribution until retirement as long as the participants' vested balance exceeded $5,000. Benefits were distributable without penalty upon death, disability, or retirement at age 65 and were subject to certain minimum distribution rules upon reaching age 70 ½. The Plan also provided for in-service distributions if a participant reached 59 ½ and hardship withdrawals during employment for specific heavy financial needs, as defined in the Plan. A hardship withdrawal was required to come from a participant's vested account balance and was required to be for an amount greater than $500.

Forfeitures

Forfeitures were the non-vested portion of participant account balances for terminated participants. These funds, which had been retained by the Plan, were available to pay administrative expenses and reduce future contributions of the Company. For the period beginning January 1, 2020 and ended March 13, 2020 and the year ended December 31, 2019, the forfeited nonvested employer contributions totaled $1,743 and $3,398, respectively. The forfeiture balance available to offset future employer contributions was $0 and $5,523 at March 13, 2020 and December 31, 2019, respectively.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) represents the difference between the aggregate fair value of investments at year end and the values at the beginning of the year and includes any realized gains and losses in securities that were bought and sold during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance. Loan fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 13, 2020 or December 31, 2019. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded upon the occurrence of a distributable event.

Payment Of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative expenses of the Plan are paid from Plan assets. Some other administrative expenses are paid by the Company and certain administrative services are provided by the Company to the Plan at no charge.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Financial Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at March 13, 2020 and 2019, and net appreciation (depreciation) in fair value of investments, interest and dividends for the period beginning January 1, 2020 and ended March 13, 2020 and the year ended December 31, 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity). This information has not been audited by the Plan's independent auditors.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust

Valued at the NAV of units, or NAV equivalent, of the individuals' fund. The NAV, as provided by the trustee of the invested fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The investment is redeemable daily at the adjusted NAV, and has no unfunded capital commitments. The common/collective trust held by the Plan files an annual report on Form 5500 as a direct filing entity.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,649,373	$ —	$ —	$ 5,649,373
Common/collective trust	150,881	—	—	150,881
Investments at Fair Value	$ 5,800,254	$ —	$ —	$ 5,800,254

The Plan did not hold any investments for the period ended March 13, 2020.

There have been no changes in the valuation methodologies used at March 13, 2020 or December 31, 2019.

5. Income Tax Status

The Plan utilizes a volume submitter defined contribution profit sharing plan that received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, which stated that the volume submitter plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluation tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taking jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party In Interest Transactions

Certain Plan investments include shares of a money market fund and a registered investment company managed by an affiliate of Fidelity. Therefore, transactions with this entity qualify as exempt party in interest transactions.

7. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

8. Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
