ALLIED MINERAL PRODUCTS
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

General

The Allied Mineral Products Employee Stock Ownership Plan (the "Plan") was formed on April 1, 1976, by Allied Mineral Products, Inc. (the "prior Plan Sponsor"). Effective January 1, 2020, the prior Plan Sponsor approved a corporate reorganization whereas the prior Plan Sponsor became a wholly-owned subsidiary of Allied Mineral Products Holding, Inc. (the "current Plan Sponsor"). The Plan is a noncontributory defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Information concerning benefits, allocations, forfeitures, and other provisions under the Plan is included in the Allied Mineral Products Employee Stock Ownership Plan Agreement which is available for review by participants. Participants should refer to this document for more complete information.

ESOP Contributions

Contributions to the Plan are determined at the discretion of the Board of Directors of the Plan Sponsor and are subject to Internal Revenue Service limitations. The Board of Directors approved contributions of 25.0% and 12.5% of a participant's eligible compensation for the Plan years ended March 31, 2020 and March 31, 2019.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's entire interest under the Plan. Each participant's account is credited with the Plan Sponsor's contribution as well as net gains and losses on investments and reduced by distributions from the participant's account. As of each valuation date, the Plan allocates earnings (losses) into each participant's account so that the total of all participant account balances equals the fair market value of the ESOP trust fund as of each valuation date. Generally, participants who have completed at least 1,000 hours of service during the Plan year and who are employed by the Company on the last day of that Plan year are eligible for Company contributions. The Company's contributions are allocated to eligible participants' accounts based on the ratio of each eligible participant's compensation for the year to the total compensation for all participants. A participant is entitled to that benefit which his or her account can provide.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 18 and completing 500 hours of service. Participation commences on the entry date, which is the first day of the plan year in which an individual first becomes eligible.

Voting Rights

The Plan Administrator has the right to direct the Trustee as to the voting of allocated and unallocated shares of Company Stock in any matter which any other shares of the Company may be voted, except that the Participants shall have the right to direct the Trustee as to the voting of stock allocated to their account in certain matters. NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures.

Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Allied Mineral Products, Inc. common stock, which is the primary Plan investment.

Cash
The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments
Benefit payments are recorded when paid.

Administrative Expenses
Trustee expenses are paid by the Plan and administrative expenses are paid by the Plan Sponsor as provided by the Plan document.

New Accounting Standards Update
In August 2018 Accounting Standards update 2018-13 *Fair Value Measurement (Topic 820)* ("ASU 2018-13") was released and is applicable for fiscal years beginning after December 15, 2019. ASU 2018-13 amends the disclosure requirements fair value measurements by removing, modifying and adding certain disclosures. Management has not yet assessed the impact of ASU 2018-13.

Subsequent Events
In evaluating events that may have a material impact on the financial statements, the Company has considered activities through December 30, 2020, the date the financial statements were available to be issued.

Effective August 18, 2020, the Allied Mineral Products Employee Stock Ownership Plan Trust entered into a loan agreement with the Plan Sponsor whereas the Plan Sponsor agreed to sell and the Trust agreed to subscribe to purchase 2,544.26248 shares of the Plan Sponsor stock for $25,689,420. The loan bears interest at 1.12% per annum, is due in annual payments of principal and interest of $1,008,654, and matures on March 31, 2050.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events (Continued)

Due to national and world-wide disruptions caused by COVID-19 in 2020, the Plan may be adversely impacted. At this time, any financial impact of potential COVID-19 related disruptions are not known.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at March 31, 2020 and 2019, and net appreciation in fair value of investments and interest, distributions, and dividends for the years ended March 31, 2020 and 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by GreatBanc Trust Company, the trustee of the Plan.

NOTE 4: INVESTMENTS

The Plan provides that, to the extent the Plan's Administrator and trustees (the "Committee") deem practicable, the Custodian shall use all available cash, as directed by the Committee, to buy Company stock. If no Company stock is available for purchase, and the Committee determines that the purchase of additional Company stock is not practicable, the Custodian may invest in other securities or property as directed by the Committee.

The investment in common stock of the Company is recorded at its estimated fair value at year-end, as determined by an annual independent appraisal as of the Company's fiscal year-end. The independent appraised fair value of the Company at March 31, 2020 and 2019 was $10,097 per share and $10,098 per share, respectively.

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1 inputs") and the lowest priority to unobservable inputs ("Level 3 inputs"). The three levels of the fair value hierarchy are described below:

- Level 1 – inputs to the fair value determination are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

- Level 2 – other significant inputs including: quoted prices of similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in inactive markets, observable inputs other than quoted prices, inputs derived from or corroborated by observable market data either by correlation or other means.

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement and may include the Plan's own assumptions in determining the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at March 31, 2020 and 2019.

Common stocks: Stated at estimated fair value based on valuation reports prepared by an independent appraiser as of March 31, 2020 and 2019, and dated August 17, 2020, and August 15, 2019, respectively.

Mutual and money market funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Collective investment trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31:

Investments valued using NAV as a practical expedient (a)				16,599,758

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of March 31, 2020 and 2019, respectively.

Investments at Fair Value Based on NAV per Share as of March 31, 2020

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust (a)	$8,726,249	n/a	Daily	None

Investments at Fair Value Based on NAV per Share as of March 31, 2019

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust (a)	$16,599,758	n/a	Daily	None

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

(a) This category includes stable value collective funds. The objectives of the funds are to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive plan or participant payments. The funds primarily consist of a diversified portfolio of stable value investment contracts issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The funds are designed for long-term retirement investing.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended March 31, 2020 and 2019, there were no transfers in or out of Level 3.

The table below sets forth a summary of the changes in fair value of the Plan's Level 3 assets for the years ended March 31, 2020 and 2019:

	Allied Mineral Products Holding, Inc. common stock	
	2020	2019
Balance, beginning of the year	$ 204,595,578	$ 187,069,813
Change in fair value	(20,261)	17,525,765
Balance, end of the year	$ 204,575,317	$ 204,595,578

Following is a description of the valuation methodologies used for assets measured at fair value.

The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. For 2020 and 2019 this appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Allied Mineral Products Holding, Inc. is the Plan Sponsor and, therefore, these transactions qualify as related party transactions.

NOTE 7: PLAN TERMINATION

The Plan was adopted with the expectation that it will continue indefinitely; however, the Plan Sponsor reserves the right to terminate the Plan in whole or in part or to completely discontinue contributions thereto. In the event of the termination of the Plan or discontinuance of contributions, each participant will be immediately entitled to full vesting in the entire amount of their respective account.

NOTE 8: TAX STATUS

The Plan obtained its latest determination letter dated April 21, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. There are currently no audits for any tax periods in progress.

NOTE 9: VARIOUS RISKS AND UNCERTAINTIES

The Plan holds various investments. Investment securities are exposed to various risks such as interest rates, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

As of March 31, 2020, the Plan held $204,575,317 of Company stock, which was 93% of total investments. Therefore, net assets available for benefits are particularly sensitive to changes related to these investments.
