RAYCO MANUFACTURING 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Rayco Manufacturing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1993. The Plan is a defined contribution plan covering all eligible employees of the Rayco Manufacturing LLC (the Company). Prior to termination of the Plan, to become eligible, each employee was required to complete a 6-month period of employment and reach 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The 401(k) Executive Committee determined the appropriateness of the Plan's investment offerings, monitored investment performance, and reported to the Plan's Board of Trustees.

Termination of Plan

Effective October 23, 2019, the Company's ownership adopted a resolution to terminate the Plan and participants became 100% vested in their accounts. The Plan's net assets were fully distributed to participants on March 16, 2020.

Contributions

Prior to termination of the Plan, employees could elect to make pre-tax and/or Roth contributions to the Plan in an amount between one and fifteen percent of compensation, as defined by the Plan and as subject to certain Internal Revenue Service (IRS) limitations. The Company was required to make safe harbor matching contributions to the Plan in an amount equal to 100 percent of the participants' contributions, up to 6 percent of compensation, as defined by the Plan. Additionally, the Company could make a discretionary profit sharing contribution to be determined each year by the Company. As a result of the termination of the Plan, there were no contributions in 2020, and the Company did not authorize any discretionary profit sharing contributions.

Participant Accounts

Each participant's account was credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. Prior to termination of the Plan, the benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Forfeited Amounts

Forfeitures represented the non-vested portion of Company discretionary contributions plus earnings thereon, which were not distributable to participants who terminated employment before they were 100% vested. During 2020, there were no available forfeitures.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN (continued)

Participant- Directed Investment Options

Prior to termination of the Plan, upon enrollment, participants could direct their contributions as well as any contributions made by the Company into any of the investment options with varying degrees of risk and volatility, allowing participants to allocate their investments in accordance with their own risk tolerances and time horizons. Participants could change their investment options at any time.

Vesting

Prior to termination of the Plan, participants were immediately vested in their voluntary and safe harbor matching contribution plus actual earnings thereon. Employer discretionary contributions vested after six years of service. In addition, the vesting percentage became 100% on the date a participant became totally disabled, as defined in the Plan, or the date the participant died. Upon termination of the Plan, participants were immediately 100% vested.

Payment of Benefits

Prior to termination of the Plan, upon termination of service due to death, disability, retirement, or other reasons, or attainment of age 59 ½, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a future period, as defined. Distributions of a participant's account balance could be authorized at any time by the plan administrator under certain hardship conditions. Effective upon termination of the Plan, participants received their account balance as lump sum distributions.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Due to the decision to terminate, the Plan effective October 23, 2019, management determined that liquidation of the Plan was imminent and accordingly, the financial statements have been prepared using the liquidation basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with the liquidation basis of accounting, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The 401(k) Executive Committee determined the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Plan recordkeeping expenses are paid by the Company and are excluded from these financial statements. Certain other administrative expenses were paid by the Plan. Certain fees related to distributions were charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent Events

Subsequent events have been evaluated through January 12, 2021, which is the date the financial statements were available to be issued.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY GREAT-WEST TRUST COMPANY LLC

Certain information related to investments disclosed in the accompanying financial statements, including investments held at March 16, 2020 and December 31, 2019, and net depreciation in fair value of investments, and interest and dividends for the period from January 1, 2020 through March 16, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Trust Company LLC, the custodian of the Plan.

NOTE 4: FAIR VALUE MEASUREMENTS

GAAP includes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2019.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Stable value common/collective trust fund: A stable value common/collective trust fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust fund. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily with no notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

Assets at Fair Value as of December 31, 2019

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$6,792,012</u>	<u>\$ 0</u>	<u>\$ 0</u>	\$6,792,012
Investment valued using NAV as a practical expedient (a) – Stable value common/collective trust fund				<u>1,719,767</u>
Total investments at fair value				<u>\$8,511,779</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation for the fair value hierarchy to the line items presented in the statement of net assets available for plan benefits – in liquidation.

The Plan did not hold any Level 3 assets during the period from January 1, 2020 through March 16, 2020.

NOTE 5: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

NOTE 6: INCOME TAX STATUS (continued)

In accordance with the liquidation basis of accounting, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain positions that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of March 16, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
