General

The Plan is a participant-directed defined contribution plan covering all eligible employees of the Toledo Museum of Art (the Museum) originally effective July 1, 2008. The Plan has been amended throughout the years to comply with tax legislation and most recently restated July 1, 2020. All Museum employees that are not otherwise specifically excluded, as defined, are eligible to participate on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute a percentage of their pre-tax annual compensation as defined by the Plan, subject to certain Internal Revenue Service (IRS) limitations. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Museum provides for both a discretionary matching contribution, determined annually by the Museum, up to 3% of each participant's payroll period compensation and a discretionary nonelective amount, for eligible participants. An employee becomes eligible to receive the match and discretionary contribution upon completing one year of service of at least 1,000 hours and attaining age 21. Plan entry dates for Museum contributions are the first day of the Plan year quarter following the satisfaction of eligibility requirements. A participant must also be employed on the last day of the Plan year in order to share in the discretionary nonelective contribution. During the years ended June 30, 2020 and 2019, the Museum made matching contributions of 50% of employee deferrals up to 3% of eligible compensation, totaling \$62,447 and \$58,497, respectively. Additionally, the Museum made discretionary contributions of set percentages based on eligible compensation of employee categories totaling \$156,004 and \$142,917 for the years ended June 30, 2020 and 2019, respectively.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Museum's matching and discretionary contributions, earnings of the participant's selected investments, and administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. A participant is eligible for benefits upon normal retirement age 65, early, or late retirement (as defined), upon becoming disabled, termination, or death.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Benefit Payments

Upon termination of service due to normal retirement, early retirement, late retirement, disability or termination, a participant may elect to either receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or leave the balance in the Plan until minimum distribution is required. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions.

Forfeited Accounts

Forfeitures arise from participants who received excess Museum contributions based on guidelines established by the Internal Revenue Code (IRC). Forfeitures are used to reduce Museum discretionary contributions. Forfeited accounts as of June 30, 2020 and 2019 amounted to \$100. No forfeitures were used during 2020 and 2019.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses consist of recordkeeping and consulting fees. The Museum absorbs all other administrative expenses, including internal costs, incurred with the operation of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through January 14, 2021, the date the financial statements were available to be issued.

Subsequent to year-end, the Plan was restated effective July 1, 2020. The restatement changed the eligibility requirement for an employee to receive the match and discretionary contribution. As of July 1, 2020, an employee becomes eligible to receive the match and discretionary contribution upon completing six months of service of at least 500 hours and attaining age 18. If an employee does not complete the stated hours of service during the specified time period, the employee is subject to the one year of service requirement.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Voya Institutional Trust Company, the custodian of the Plan, and Voya Retirement Insurance and Annuity Company, the insurance company, have supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of June 30, 2020 and 2019, and the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of June 30, 2020.

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the valuation methodology used at June 30, 2020 and 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

		2020			
		Level 1	Level 2	Level 3	Total
Mutual Funds		\$ 4,069,371	\$ -	\$ -	\$ 4,069,371

NOTE 5 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

In 2018, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsors or other Plan Sponsors' events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption under ERISA. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Museum has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8 PLAN TAX STATUS

The Plan document was restated April 9, 2018 and the Plan adopted a volume submitter plan. The Plan is placing reliance on an opinion letter dated March 31, 2017 received from the IRS on the volume submitter plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers, including the custodian. These transactions are party-in-interest transactions under ERISA.
