NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

NOTE 1: PLAN DESCRIPTION

The following description of the Petrosmith 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established April 1, 2012, under the provisions of the Internal Revenue Service Code Section 401(a), as a defined contribution plan to benefit participating employees of Petrosmith LLC (named Plan sponsor), Petrosmith Equipment, LP, and Petrosmith Coating, LP, (collectively "Company"). The Plan provides eligible employees an opportunity to accumulate funds for retirement, death and disability benefits. Subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan has received a favorable opinion letter from the Internal Revenue Service.

Plan Administration

The Plan is administered by the Plan Administrator who is appointed by management of the Company. The Plan's custodian, Massachusetts Mutual Life Insurance Company, is responsible for the custody and management of the Plan's assets.

Plan Amendment

The Plan was amended effective June 1, 2019, to eliminate the six (6) months of service requirement and elect automatic deferral provisions for eligible participants. Once an eligible employee satisfies the age requirements of the Plan, they are automatically enrolled and begin contributing to the Plan unless they elect otherwise.

Eligibility to Participate

Employees become eligible to participate in wage deferrals upon attainment of age eighteen (18). The Plan includes an automatic deferral provision which results in employees entering the Plan as of the date the age requirement is met at a 3% deferral, unless they elect otherwise.

Employee Contributions

Participants in the Plan may elect to have compensation deferred through payroll deductions. The maximum contribution amount for 2019 is $19,000. An added contribution up to $6,000 in salary deferral catch-up is allowed for those 50 or older, for a total possible contribution of $25,000.

Participants may roll over amounts representing distributions from other qualified defined contribution plans.

Employer Contributions

The Company may make matching contributions equal to a discretionary percentage, determined by the Company, of the participant's elective deferrals. If the Company elects to make a matching contribution, it must be contributed to the Plan by the last day of the immediately following Plan year quarter.

The Company shall have the right to make an additional discretionary contribution, which shall be allocated to each eligible participant in proportion to his or her compensation as a percentage of the compensation of all eligible participants. The discretionary contribution and the allocation thereof shall be unrelated to any employee contributions made hereunder. Forfeitures may be used to pay administrative expenses of the Plan or to reduce any Company contributions.

The Plan, as required by the Internal Revenue Code, includes special rules in years that the Plan is determined to be a "Top Heavy Plan". The Plan becomes a "Top Heavy Plan" when it allocates more than sixty percent (60%) of the contributions or benefits to "Key Employees". "Key Employees" are generally owners, officers, shareholders or highly compensated individuals. If the Plan becomes top heavy in any year, the Company may be required to make an additional contribution with a special vesting schedule to non-key employees.

Participant Investment Options

Participants may direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time throughout the year via direct phone access, fax, or internet.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and the Company's discretionary contribution, as well as the participant's share of the Plan's income and any related administrative expense. Allocations of income and expenses are based upon the proportion that each participant's account balance bears to the total of all participant account balances.

Forfeiture Accounts

At December 31, 2019, and 2018, forfeited non-vested accounts totaled $19,914 and $26,151, respectively. These accounts can be used to reduce future employer contributions or to pay plan expenses. In 2019, Employer contributions were reduced by $38,321 from forfeited non-vested accounts.

Notes Receivable from Participants

Notes receivable from participants are not permitted under the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, or for any other reason a participant may request a distribution and will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Vesting

Employee elective deferrals and after-tax employee contributions are always one hundred percent (100%) vested. The vesting schedule for the discretionary employer contributions, granted that at least one thousand hours are worked during the plan year, is as follows:

1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to fully terminate the Plan subject to the provisions of ERISA. In the event of full Plan termination, participants will become one hundred percent (100%) vested in their accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefit and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See **NOTE 4** for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements and totaled $19,280 for the year ended December 31, 2019. Administrative functions are performed by officers or employees of the Company, but receive no compensation from the Plan. Investment related expenses are included in net depreciation of fair value of investments.

Recent Accounting Pronouncements

Adopted

ASU 2018-09
In July 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-09, *Codification Improvements: Amendments to Subtopic 962-325, Plan Accounting–Defined Contribution Pension Plans–Investments–Other*, which clarified that no investment should always be considered eligible to use NAV as a practical expedient. This amendment in ASU 2018-09 is effective upon issuance for all entities. The Plan adopted the amendment in ASU 2018-09 during the year ended December 31, 2018.

Not Adopted

ASU 2018-13
In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modified the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force) and the American Institute of Certified Public Accountants did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE 3: INFORMATION CERTIFIED BY MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY, UNAUDITED

The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets as of December 31:

NOTE 4: FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued using the unit value calculated based on the net asset value ("NAV") of the underlying mutual funds. The net asset value is used as a practical expedient to determine fair value for these accounts. Each pooled separate account provides for redemptions by the Plan at reported net asset value per share, with no advance notice requirement. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

Stable value fund: Valued using the net asset value ("NAV") practical expedient based on the fund's liquidation value which is based on an actuarial formula. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions may occur daily.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with market participants, the use of difference methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2019 and 2018.

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Investments at fair value	$ -	$ -	$ -	$ -
Total	$ -	$ -	$ -	-

Total investments at fair value				$ 4,791,071

Total	$ -	$ -	$ -	-
Investments measured using net asset value per share practical expedient[(a)]				3,396,583
Total investments at fair value				$ 3,396,583

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following tables summarize investments for which fair value is measured using the net asset value (NAV) per share practical expedient as of December 31, 2019 and 2018:

1) The pooled separate accounts in this category primarily invest in mutual funds which invest in equity securities of U.S. companies with small to mid-size market capitalization. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

2) The pooled separate accounts in this category primarily invest in mutual funds which invest in equity securities of U.S. or foreign companies with large market capitalization. This investment seeks to produce income and to provide opportunity for growth of principal. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

4) The pooled separate accounts in this category invest primarily in mutual funds which invest in equity securities of companies that appear to offer superior opportunities for growth of capital. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

5) The pooled separate accounts in this category primarily invest in mutual funds which invest in high quality intermediate-term bonds and other fixed-income securities. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

Investments in this category can be transferred in or out of these funds at any time without restrictions.

7) The pooled separate accounts in this category primarily invest in mutual funds which invest in a diversified portfolio of other stock and bond funds that represent various asset classes and sectors. The funds seek to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associates with each fund. Investments in this category can be transferred out at any time at the current net asset value per share based on the fair value of the underlying assets.

8) The stable value option seeks to protect against any loss of principal by investing in the general fund of the insurance carrier while providing a guaranteed minimum rate of return for the period of time specified in the contract.

NOTE 5: PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts or a stable value fund managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $3,030 for the year ended December 31, 2019. Additional investment fees paid to parties-in-interest are netted against investment returns.

NOTE 6: INCOME TAX MATTERS

Effective April 1, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by Pentec Pension Management Group, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service (the "IRS") as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that is more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8: SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through January 15, 2021, the date the financial statements were available to be issued.

In 2020, the Company laid off a large number of employees which may have resulted in a partial plan termination. The Plan Sponsor is reviewing the event to determine if a partial plan termination has occurred. All participants affected by the partial plan termination will become fully vested in their accounts prior to distributions being taken.

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in the financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments may have incurred a significant fluctuation in fair value since December 31, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.
