Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Plan Administrator and Trustees of
United Association of Plumbers and Pipefitters Local 693 Defined Benefit Pension Plan
South Burlington, Vermont

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the United Association of Plumbers and Pipefitters Local 693 Defined Benefit Pension Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of April 30, 2020 and 2019 and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 3, which was certified by U.S. Bank, National Association, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended April 30, 2020 and 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of April 30, 2020 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following description of the Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

(a) General – The Plan is a noncontributory defined benefit pension plan covering substantially all members of Local 693 (the "Union"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on May 1, 1969.

(b) Eligibility – Each union member becomes a Plan participant on the first day of employment with a contributing employer.

(c) Contributions – Contributing employers make contributions to the Plan at a rate of $4.91 an hour for each hour worked by eligible union members effective May 1, 2018 and at a rate of $5.06 effective May 1, 2019.

(d) Years of credited service – Years of credited service is equal to total hours of service with a contributing employer divided by 1,600. Additional credited service may be granted for periods before May 1, 1969.

(e) Accrued benefit – Accrued benefit is the monthly pension benefit equal to the applicable benefit level multiplied by the credited service earned as of a given date. There are special rules for those not covered by the Plan for a significant period.

(f) Normal retirement – Normal retirement is considered to be at age 65 with 5 years of credited service required. The retirement benefit is equal to the accrued benefit.

(g) Early retirement – Early retirement is considered to be at age 55 with 5 years of credited service required. The 5 years of credited service requirement is waived for disabled participants. The retirement benefit is equal to the full-accrued benefit if started at the normal retirement date, or a percentage of accrued benefit if started immediately (at age 55, 59.9%; at age 62 or more, 100%). However, if a participant has less than 10 years of credited service, benefits are actuarially reduced from normal retirement date.

(h) Disability benefits – A participant with 10 years of credited service who becomes disabled to the extent required by Social Security qualifications will be eligible for the full accrued benefit, starting immediately.

(i) Vesting – Effective May 1, 2006, participants are 100% vested upon the earlier of (1) completion of 5 years of service with 1,000 or more hours per year, or (2) accumulating 1,600 hours of service after May 1, 2005 and 8,000 total hours of participation with the Plan. Participants are also 100% vested if they reach age 65 while employed. Participants are not vested if they do not meet the service requirements or age minimums.

Description of Plan (continued)

(j) Pre-retirement death benefit – The pre-retirement death benefit is equal to the value of the vested accrued benefit and is payable to a designated beneficiary. The spouse is the automatic beneficiary, but a non-spouse can be elected with spousal consent.

(k) Normal form of benefit – The normal form of the retirement benefit is payment for life with a five-year guarantee. Other options are available including a Social Security leveling feature.

(2) Summary of Significant Accounting Policies

(a) Basis of accounting – The Plan maintains its accounting records on the accrual basis of accounting.

(b) Cash and cash equivalents – The Plan considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(c) Investments and investment income – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Expenses of the Plan – Accounting, actuarial, administrative, and other fees are paid directly by the Plan.

(f) Payment of benefits – Benefits are recorded when paid.

(g) Risks and uncertainties – The Plan utilizes various instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Summary of Significant Accounting Policies (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(h) Subsequent events – The Plan evaluated subsequent events through February 12, 2021, the date the Plan's financial statements were available to be used.

(3) Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, U.S. Bank National Association, custodian, certified as being complete and accurate the investments on the statements of net assets available for plan benefits as of April 30, 2020 and 2019, the investment activity reflected in the statements of changes in net assets available for plan benefits for the years then ended, and the investment information included in the supplemental schedule of assets held at April 30, 2020. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the Plan's custodian.

(4) Summary of Actuarial Information

(a) Actuarial cost methods – The actuarial cost method used for this valuation, for purposes of minimum funding standards and maximum deductions, is the Unit Credit Funding Method. Under this method, the benefits expected to be paid to each participant are projected with the actuarial assumptions. The projected benefits are then allocated to various years according to the year of service such benefits were earned.

The normal cost for the year is equal to the present value of the benefits allocated to the coming year in accordance with the above.

The accrued liability is equal to the actuarial present value of all benefits allocated to years prior to the valuation date. The unfunded accrued liability is equal to the excess of the actuarial accrued liability over the actuarial asset value.

Each year the unfunded accrued liability is expected to be equal to the sum of the unfunded accrued liability and normal cost from the prior year, plus interest at the assumed rate, less the contributions made to the fund, plus interest, if made prior to the end of the plan year. The extent to which the actual value of the unfunded accrued liability differs from the "expected" unfunded accrued liability reflects the actuarial experience for the Plan during the year. A positive difference results in an experience loss for the year, a negative difference results in a gain for the year. The unfunded accrued liability is further modified for changes in plan provisions or actuarial assumptions.

Summary of Actuarial Information (continued)

(b) Method for determining level of contribution – The contribution, under this method, is determined by subtracting the assets on hand from the present value of all future expected benefits. The remainder is divided by the present value of future hours assumed worked for each active participant, resulting in the contribution per hour worked. The final contribution is then equal to the contribution per hour worked, times the expected number of hours during the plan year.

(c) Actuarial assumptions – Mortality, turnover and disability: Mortality is based on the 1983 Group Annuity Mortality Table.

Interest: 7.5%

Retirement age: Active members are assumed to retire in accordance with the following rates of retirement:

Age	Rate of Retirement	Age	Rate of Retirement
55	10.00%	61	25.00%
56	10.00%	62	50.00%
57	10.00%	63	50.00%
58	15.00%	64	50.00%
59	5.00%	65+	100.00%
60	5.00%		

(d) Actuarial asset value – The actuarial asset value is equal to market value.

Actuarial present value of accumulated Plan benefits as of April 30:

	2020	2019
Vested benefits:		
Participants currently receiving payments	$19,079,224	$16,189,937
Other vested accumulated benefits	19,639,449	21,269,285
Nonvested benefits	51,406	53,335
Total actuarial present value of accumulated Plan benefits	$38,770,079	$37,512,557

Summary of Actuarial Information (continued)

The changes in accumulated Plan benefits are as follows:

	2020	2019
Actuarial present value of accumulated Plan benefits at beginning of year	$37,512,557	$34,724,242
Increase (decrease) during the year attributable to:		
Interest	2,730,862	2,516,026
Benefit payments and purchase of annuities	(2,202,137)	(2,354,446)
Accrual of benefits	728,797	1,064,163
Change in assumptions	-	1,562,572
Actuarial present value of accumulated Plan benefits at end of year	$38,770,079	$37,512,557

Funded percentage on April 30:

	2020	2019
Net assets available for plan benefits	$28,644,603	$29,813,431
Present value of total accumulated benefits	$37,512,557	$37,512,557
Funded percentage	76%	80%

(5) Plan Termination

Local 693 expects to maintain the Plan indefinitely but reserves the right to amend or terminate the Plan at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years.

The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

(c) All other vested benefits (that is, vested benefits not insured by the PBGC).

(d) All nonvested benefits.

Plan Termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2020 and 2019 that ceiling was $5,813 and $5,608 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the Plan terminate at some future time, the participants' benefits would depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and on the level of benefits guaranteed by the PBGC.

(6) Fair Value Measurements

Generally accepted accounting principles in the United States of America establish a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2020 and 2019.

Cash and Cash equivalents: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate, government, and municipal issues: Valued based on a matrix pricing system. The variables in the matrix system includes interest rate, maturity date, bond rating, and call feature.

Foreign issues: Valued at closing price reported on the active market on which the individual securities are traded.

Limited partnerships: Valued based on the capital position reported on the most recent K-1 schedule received by the custodian.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2020 and 2019:

	Assets at Fair Value as of April 30, 2020				
	(Level 1)	(Level 2)	(Level 3)	Total

Total investments	$ 1,377,488	$ -	$ 26,046,117	$ 29,073,576

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for plan benefits.

For the year ended April 30, 2020, the limited partnerships had $1,515,407 in purchases and $2,067,025 in proceeds. For the year ended April 30, 2019, the limited partnerships had $4,075,880 purchases and $1,284,998 in proceeds.

(7) Funding Policy

Employers make contributions to the Plan at rates determined by the collective bargaining agreements. The amount of employer contribution is determined from work-hours during the period and the contractual employer contribution rate in effect. Employer contributions are included in income for the period in which work is performed. The contributions for 2020 and 2019 exceeded the minimum funding requirements of ERISA.

(8) Income Taxes

The Plan obtained its latest determination letter on September 9, 2015, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 30, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended April 30, 2017.

(9) Parties-In-Interest

The Plan leases office space on a month-to-month basis from the United Realty Corporation, a Vermont corporation, of which Local 693 is a sixty-five percent owner. The total expenses for 2020 and 2019 were $2,466 for both respective years.

Employees of United Association of Plumbers and Pipefitters Local 693 perform certain administrative functions of the Plan. The Plan reimburses United Association of Plumbers and Pipefitters Local 693 at rates approved by the Board of Trustees of the Plan for direct expenses incurred. During the years ended April 30, 2020 and 2019, the Plan reimbursed direct expenses for salary and benefits in the amount of $20,476 and $21,275, respectively.

As of April 30, 2020 and 2019, the accounts payable balance includes $9,231 and $3,628, respectively, due to related parties.

The Board of Trustees includes representatives of the Union as well as representatives of the contributing employers.

The Plan has several service providers who are also considered parties-in-interest under ERISA.

(10) Uncertainty

In March 2020, a worldwide pandemic was declared due to the spread of COVID-19. COVID-19 continues to cause financial unrest as the economy slowly begins to open back up. The ultimate impact of this event on Plan operations and financial statements is unknown as of the date of the auditors' report.

Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan
EIN: 03-6021153 PN: 001

Interest Rates:

Funding: 7.50% per year, compounded annually.

RPA Current Liability: 3.09% per year, compounded annually. (Previously, 2.99% was used.)

Mortality:

Healthy: 1983 Group Annuity Mortality Table (sex-distinct). This table reflects no expected mortality improvement after the valuation date.

Disabled: 1983 Group Annuity Mortality Table (sex-distinct). This table reflects no expected mortality improvement after the valuation date.

RPA Current Liability: IRS 2018+ Sex-Distinct Static Mortality Table. This is the same Mortality Table used by single employer plans under the PPA of 2006. This table is assumed to reflect both expected mortality rates as of the valuation date and any expected mortality improvement after the valuation date.

Termination: Participants are assumed to terminate employment in accordance with the T-10 Termination Table less GA51M. Sample rates are shown in the below table:

Age	Rate of Termination
25	17.22%
35	14.86%
45	10.84%
55	4.40%
60	1.20%
64+	0.00%

Disability: Participants are assumed to terminate employment due to disability in accordance with the 1955 UAW Male table. Sample rates are shown in the below table:

Age	Rate of Disability
25	0.03%
35	0.05%
45	0.10%
55	0.36%
60	0.90%

Retirement:

Active Participants: Active members are assumed to retire according to the following rates of retirement:

Age	Rate of Retirement
55	10.00%
56	10.00%
57	10.00%
58	15.00%
59	5.00%
60	5.00%

Age	Rate of Retirement
61	25.00%
62	50.00%
63	50.00%
64	50.00%
65+	100.00%

The weighted average retirement age is 60 (see page 5).

Terminated Vested Participants: Age 62 if Participant has 10 years of Credited Service, else age 65. (Previously, age 65, or age on valuation date if greater.)

Administrative Expenses: $100,000 added to the Normal Cost. (Expense loading of 20.5%.)

Future Credited Service: It is assumed for estimating future benefits that active Participants will be credited the same number of hours per year in the future as they were credited in the plan year ended April 30, 2019.

Form of Payment: 100% elect the 5 Year Certain and Continuous Annuity.

Participants Included in Valuation: All eligible Participants on the valuation date.

Hours Worked Assumption: For the Plan's Funding Policy Contribution it is assumed that all active members will work 1,600 hours in each future year.

Maximum Benefit Limitation: Plan benefits have been restricted to the maximum dollar limit permitted under the Tax Reform Act of 1986. This limit is a $225,000 annual annuity payable beginning at age 62 with no reduction for a qualified joint and survivor annuity.

Assumed Cost-of-Living Adjustments: None.

Actuarial Valuation Method: Unit Credit Cost Method.

Under this method, the normal cost is calculated as the present value of benefits expected to be earned in the valuation year. The actuarial accrued liability is the present value of all benefits earned as of the valuation date. Actuarial gains (losses), as they occur, reduce (increase) the unfunded actuarial accrued liability.

Asset Method: A smoothed market value method which reflects the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last 5 years at a rate of 20% per year. The actuarial value is subject to a restriction that it not be less than 80% or more than 120% of the market value.

Shortfall Funding Method: Not used.

Changes since the Prior Valuation: The interest rate used to calculate the RPA current liability was increased from 2.99% to 3.09%.

The retirement age assumption for Terminated Vested Participants changed from age 65 to age 62 if the Participant has at least 10 years of Credited Service and is eligible for an unreduced Early Retirement benefit at age 62.

Rationale for Selection of Significant Actuarial Assumptions

Interest rate
The interest rate assumption used for funding purposes is based on historical data, both current and future market expectations, and professional judgment. In setting the long-term investment return assumption, the Plan's current investment policy asset allocation and other external sources such as available capital market assumption surveys have been considered.

Mortality
The mortality assumption is based on historical and current demographic data, adjusted to reflect estimated future experience, and professional judgment. Periodically, we perform experience studies where we compare actual to expected experience.

(continued)

Rationale for Selection of Significant Actuarial Assumptions (continued)

Retirement from Active and Terminated Vested Status
Retirement rates for active Participants were most recently reset for the 2011 valuation, analyzing actual experience of the plan's active participant population at that time. The current assumption is reviewed annually and continues to be the best estimate of future experience. However, starting with the 2019 valuation, Terminated Vested Participants are assumed to retire at the plan's earliest unreduced Early Retirement Age instead of at Normal Retirement Age.

Termination of Employment
Actual rates of termination by age were last studied for this plan based on plan experience from 2006 through 2011. A standard withdrawal table was selected based on the results of that study. This assumption is reviewed annually and continues to be the best estimate of future experience.

Disability During Employment
Because the Plan does not have enough data to do a fully credible experience analysis with respect to disability from active employment, the current assumption has been selected based on observations of recent disabilities, the actuary's experience with plans of a similar size, plan design, workforce composition, geography, and discussions with the Plan Sponsor.

Administrative Expenses
Administrative expenses paid from Plan assets are estimated by reviewing the most recent expenses paid from the Plan and adjusting for expected increases in PBGC premiums.

Form of Payment
Because the Plan does not have enough data to do a fully credible experience analysis with respect to form of payment, the current assumption has been selected based on the Plan's Normal Form of Payment. Further, the Plan's optional forms of payment are actuarially equivalent, and the plan's actuarial equivalence basis does not provide a significant subsidy relative to the valuation assumptions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Interest Rates:

Funding: 7.50% per year, compounded annually.

RPA Current Liability: 3.09% per year, compounded annually. (Previously, 2.99% was used.)

Mortality:

Healthy: 1983 Group Annuity Mortality Table (sex-distinct). This table reflects no expected mortality improvement after the valuation date.

Disabled: 1983 Group Annuity Mortality Table (sex-distinct). This table reflects no expected mortality improvement after the valuation date.

RPA Current Liability: IRS 2018+ Sex-Distinct Static Mortality Table. This is the same Mortality Table used by single employer plans under the PPA of 2006. This table is assumed to reflect both expected mortality rates as of the valuation date and any expected mortality improvement after the valuation date.

Termination: Participants are assumed to terminate employment in accordance with the T-10 Termination Table less GA51M. Sample rates are shown in the below table:

Age	Rate of Termination
25	17.22%
35	14.86%
45	10.84%
55	4.40%
60	1.20%
64+	0.00%

Disability: Participants are assumed to terminate employment due to disability in accordance with the 1955 UAW Male table. Sample rates are shown in the below table:

Age	Rate of Disability
25	0.03%
35	0.05%
45	0.10%

Retirement:

Active Participants: Active members are assumed to retire according to the following rates of retirement:

Age	Rate of Retirement
55	10.00%
56	10.00%
57	10.00%
58	15.00%
59	5.00%
60	5.00%

Age	Rate of Retirement
61	25.00%
62	50.00%
63	50.00%
64	50.00%
65+	100.00%

The weighted average retirement age is 60 (see page 5).

Terminated Vested Participants: Age 62 if Participant has 10 years of Credited Service, else age 65. (Previously, age 65, or age on valuation date if greater.)

Administrative Expenses: $100,000 added to the Normal Cost. (Expense loading of 20.5%.)

Future Credited Service: It is assumed for estimating future benefits that active Participants will be credited the same number of hours per year in the future as they were credited in the plan year ended April 30, 2019.

Form of Payment: 100% elect the 5 Year Certain and Continuous Annuity.

Participants Included in Valuation: All eligible Participants on the valuation date.

Hours Worked Assumption: For the Plan's Funding Policy Contribution it is assumed that all active members will work 1,600 hours in each future year.

Maximum Benefit Limitation: Plan benefits have been restricted to the maximum dollar limit permitted under the Tax Reform Act of 1986. This limit is a $225,000 annual annuity payable beginning at age 62 with no reduction for a qualified joint and survivor annuity.

Assumed Cost-of-Living Adjustments: None.

Actuarial Valuation Method: Unit Credit Cost Method.

Under this method, the normal cost is calculated as the present value of benefits expected to be earned in the valuation year. The actuarial accrued liability is the present value of all benefits earned as of the valuation date. Actuarial gains (losses), as they occur, reduce (increase) the unfunded actuarial accrued liability.

Asset Method: A smoothed market value method which reflects the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last 5 years at a rate of 20% per year. The actuarial value is subject to a restriction that it not be less than 80% or more than 120% of the market value.

Shortfall Funding Method: Not used.

Changes since the Prior Valuation: The interest rate used to calculate the RPA current liability was increased from 2.99% to 3.09%.

The retirement age assumption for Terminated Vested Participants changed from age 65 to age 62 if the Participant has at least 10 years of Credited Service and is eligible for an unreduced Early Retirement benefit at age 62.

Rationale for Selection of Significant Actuarial Assumptions

Interest rate
The interest rate assumption used for funding purposes is based on historical data, both current and future market expectations, and professional judgment. In setting the long-term investment return assumption, the Plan's current investment policy asset allocation and other external sources such as available capital market assumption surveys have been considered.

Mortality
The mortality assumption is based on historical and current demographic data, adjusted to reflect estimated future experience, and professional judgment. Periodically, we perform experience studies where we compare actual to expected experience.

Rationale for Selection of Significant Actuarial Assumptions (continued)

Retirement from Active and Terminated Vested Status
Retirement rates for active Participants were most recently reset for the 2011 valuation, analyzing actual experience of the plan's active participant population at that time. The current assumption is reviewed annually and continues to be the best estimate of future experience. However, starting with the 2019 valuation, Terminated Vested Participants are assumed to retire at the plan's earliest unreduced Early Retirement Age instead of at Normal Retirement Age.

Termination of Employment
Actual rates of termination by age were last studied for this plan based on plan experience from 2006 through 2011. A standard withdrawal table was selected based on the results of that study. This assumption is reviewed annually and continues to be the best estimate of future experience.

Disability During Employment
Because the Plan does not have enough data to do a fully credible experience analysis with respect to disability from active employment, the current assumption has been selected based on observations of recent disabilities, the actuary's experience with plans of a similar size, plan design, workforce composition, geography, and discussions with the Plan Sponsor.

Administrative Expenses
Administrative expenses paid from Plan assets are estimated by reviewing the most recent expenses paid from the Plan and adjusting for expected increases in PBGC premiums.

Form of Payment
Because the Plan does not have enough data to do a fully credible experience analysis with respect to form of payment, the current assumption has been selected based on the Plan's Normal Form of Payment. Further, the Plan's optional forms of payment are actuarially equivalent, and the plan's actuarial equivalence basis does not provide a significant subsidy relative to the valuation assumptions.

Summary of Plan Provisions

Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan
EIN: 03-6021153 PN: 001

Plan Year: May 1 to April 30.

Eligibility: Each union member, except for a first year apprentice accepted into the program and hired after May 1, 2014, becomes a participant on the first day of employment with a contributing employer. An apprentice becomes a plan participant after working 2,000 hours.

Effective Date: May 1, 1969. The most recent restatement was effective May 1, 2014, conforming the plan to various tax law changes and regulations under PPA, WRERA, and HEART. The Plan received a favorable determination letter on September 9, 2015. There have been two Plan Amendments since the 2014 Plan restatement.

Accrued Benefit: Effective May 1, 2013, the monthly pension benefit is equal to years of Credited Service earned as of April 30, 2013 times $74.00, plus years of Credited Service earned on/after May 1, 2013 times $84.00 for members who have worked at least 1,600 hours on/after May 1, 2013.

Vesting Service: Plan Years in which employee worked at least 1,000 hours. No partial Vesting Service is granted under the Plan. A first year apprentice receives Vesting Service before becoming a plan participant.

Credited Service: Total hours of service with a contributing employer per Plan Year divided by 1,600. A Participant's Hours of Service are adjusted "upward" if contributions reciprocated to the Plan are based on a contribution rate in excess of Local 693's contribution rate. Additional Credited Service may be granted for periods before May 1, 1969.

Normal Retirement Benefits:

Normal Retirement Date : Age 65 with 5 years of Credited Service, or the 5th anniversary of Plan participation (if sooner).

Monthly Benefit : The Accrued Benefit as of Normal Retirement.

Early Retirement Benefits:

Early Retirement Date: At or after age 55 with at least 5 years of Credited Service.

Monthly Benefit : Equal to the accrued benefit commencing at age 65, or, alternatively, the accrued benefit multiplied by the applicable early retirement reduction factor from the table on the next page:

Late Retirement Benefits:

Eligibility: Continued employment after Normal Retirement Date.

Monthly Benefit: The greater of (a) the actuarial equivalent of the Accrued Benefit as of Normal Retirement Date or (b) the Accrued Benefit as of Late Retirement Date.

Suspension of Benefits:

Effective May 1, 2016, the Plan added a "Suspension of Benefits" provision for benefits that are earned on/after May 1, 2016.

Disability Retirement Benefits:

Eligibility: Becoming totally and permanently disabled under Social Security standards before age 62, and after completion of 10 years of Credited Service. Must have worked at least 400 hours in Covered Employment (or for any other employer in the same industry who has a CBA with another Local of the UA) in the 24 months immediately preceding date of disability.

Monthly Benefit: The Accrued Benefit as of date of Disability shall be payable monthly until the earlier of (a) the date the participant is deemed no longer permanently and totally disabled, (b) the participant's death, (c) the participant's Normal Retirement Date, or (d) age 62 when the participant becomes eligible for an unreduced Early Retirement Benefit.

Vested Benefits Upon Termination:

Vesting : 100% vesting upon completion of five years of Vesting Service, or attainment of age 65 while working. Also, 100% vesting if member works 1,600+ hours after April 30, 2005 and has a total of 8,000+ hours after his/her date of hire.

Monthly Benefit : The Accrued Benefit at Normal Retirement Date. Employees with at least 5 years of Credited Service may elect Early Retirement on a reduced basis as described above.

Normal Form of Benefit:

Single : 5 Year Certain and Continuous Annuity (unreduced)

Married : Joint & 50% Survivor Annuity (reduced)

Pre-Retirement Death Benefits:

Provided the participant was vested at the time of his/her death, the participant's designated beneficiary will receive the lump sum present value of the participant's accrued benefit or a return of the contributions made to the Plan on the Participant's behalf (if greater).

Alternatively, the participant's surviving spouse can elect an actuarially equivalent monthly annuity payable immediately.

Optional Forms of Benefit:

- 10 or 15 Year Certain and Continuous Annuity
- Life Annuity
- Joint & 50%, 75%, or 100% Survivor Annuity
- 10 Year Certain Only
- Social Security Leveling Option

Justification for Change in Actuarial Assumptions

Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan
EIN: 03-6021153 PN: 001

The change(s) to the assumptions for the plan year beginning May 1, 2019 follow:

❶ The interest rate used to calculate the RPA current liability was increased from 2.99% to 3.09%. The interest rate used to determine the RPA current liability was changed to remain within the "permissible range" of allowable interest rates.

❷ The retirement age assumption for Terminated Vested Participants changed from age 65 to age 62 if the Participant has at least 10 years of Credited Service and is eligible for an unreduced Early Retirement benefit at age 62, to better align with recent Plan experience.

ERISA requires that the actuary use assumptions that represent his or her best estimate of future experience under the plan and reasonably relate to the experience of the plan. We believe that the current actuarial basis meets this requirement. We will monitor the actuarial experience under the plan in future years in order to judge the continuing appropriateness of these assumptions.

Summary of Plan Provisions

Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan
EIN: 03-6021153 PN: 001

Plan Year: May 1 to April 30.

Eligibility: Each union member, except for a first year apprentice accepted into the program and hired after May 1, 2014, becomes a participant on the first day of employment with a contributing employer. An apprentice becomes a plan participant after working 2,000 hours.

Effective Date: May 1, 1969. The most recent restatement was effective May 1, 2014, conforming the plan to various tax law changes and regulations under PPA, WRERA, and HEART. The Plan received a favorable determination letter on September 9, 2015. There have been two Plan Amendments since the 2014 Plan restatement.

Accrued Benefit: Effective May 1, 2013, the monthly pension benefit is equal to years of Credited Service earned as of April 30, 2013 times $74.00, plus years of Credited Service earned on/after May 1, 2013 times $84.00 for members who have worked at least 1,600 hours on/after May 1, 2013.

Vesting Service: Plan Years in which employee worked at least 1,000 hours. No partial Vesting Service is granted under the Plan. A first year apprentice receives Vesting Service before becoming a plan participant.

Credited Service: Total hours of service with a contributing employer per Plan Year divided by 1,600. A Participant's Hours of Service are adjusted "upward" if contributions reciprocated to the Plan are based on a contribution rate in excess of Local 693's contribution rate. Additional Credited Service may be granted for periods before May 1, 1969.

Normal Retirement Benefits:

Normal Retirement Date : Age 65 with 5 years of Credited Service, or the 5th anniversary of Plan participation (if sooner).

Monthly Benefit : The Accrued Benefit as of Normal Retirement.

Early Retirement Benefits:

Early Retirement Date: At or after age 55 with at least 5 years of Credited Service.

Monthly Benefit : Equal to the accrued benefit commencing at age 65, or, alternatively, the accrued benefit multiplied by the applicable early retirement reduction factor from the table on the next page:

Justification for Change in Actuarial Assumptions

Plumbers & Pipefitters Local 693 Defined Benefit Pension Plan
EIN: 03-6021153 PN: 001

The change(s) to the assumptions for the plan year beginning May 1, 2019 follow:

❶ The interest rate used to calculate the RPA current liability was increased from 2.99% to 3.09%. The interest rate used to determine the RPA current liability was changed to remain within the "permissible range" of allowable interest rates.

❷ The retirement age assumption for Terminated Vested Participants changed from age 65 to age 62 if the Participant has at least 10 years of Credited Service and is eligible for an unreduced Early Retirement benefit at age 62, to better align with recent Plan experience.

ERISA requires that the actuary use assumptions that represent his or her best estimate of future experience under the plan and reasonably relate to the experience of the plan. We believe that the current actuarial basis meets this requirement. We will monitor the actuarial experience under the plan in future years in order to judge the continuing appropriateness of these assumptions.
