1. Plan Description

The following description of the Desert Radiologists Employee Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Ellis, Bandt, Birkin, Kollins & Wong, LLC., d/b/a Desert Radiology (the Employer or Plan Sponsor). Eligible employees are those who have attained 21 years of age and at least completed a three month period or 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The trustee of the Plan is Charles Schwab Bank ("Trustee" or "Charles Schwab"). Schwab Retirement Plan Services, Inc. is the recordkeeper of the Plan. The Trustee holds all assets of the Plan in accordance with the Service Agreement with the Company.

In October 2019, the Plan Sponsor adopted a resolution to merge the Plan into the Radiology Partners, Inc. 401(k) Plan effective January 1, 2020, when all contributions were suspended, with all assets automatically transferring to the new plan prior to July 31, 2020. The following is a description of the Plan prior to the merger.

Contributions

Each year, participants may elect to defer up to 85% of compensation, as defined in the Plan document, as pre-tax contributions to what is known as a "regular 401(k) deferral" or as after-tax contributions to what is known as a "Roth 401(k) deferral," subject to limits established by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the close of the Plan year may make "catch-up" contributions, also subject to the limits established by the IRS. Participant contributions may also include, without limitation, transfers from other qualified defined benefit or defined contribution plans.

Unless an eligible employee affirmatively elects not to participate, the Plan provides for automatic enrollment with default participant contributions of 6% of compensation and will be increased by 1% per annum on the 7th of April until the deferral percentage reaches 10% of eligible compensation.

At the discretion of its Board of Directors, the Employer may make matching and/or profit-sharing contributions. Employer profit-sharing contributions are allocated among four groups (Physicians/Executives, Director Level, Manager/Technologists/Exempt staff, and all other hourly employees) as determined by the Employer's Board of Directors. Participants must be employed on the last day of the Plan year to be eligible for an allocation of Employer profit-sharing contributions, with the exception of participants that terminate employment as a result of normal retirement, death, or disability who will receive allocated profit-sharing contributions for the period worked in the respective Plan year. As no contributions were made during 2020, the Employer did not make any matching or profit-sharing contributions.

Participant Accounts

Each participant account is credited with the participant's contribution, allocations of the Employer's discretionary contributions, if any, investment income and changes in investment value. Participant accounts are reduced for benefits paid to the participant and an allocation of any administrative expense absorbed by the Plan. Allocations are based on participants' earnings or account balances, or specific participant transactions, as provided in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, adjusted for investment earnings and changes in investment values allocated thereto. Vesting in the portion of the participants' account attributable to the Employers' contributions, also adjusted for investment earnings and changes in investment values allocated thereto, is based on years of service. A participant is fully vested after five years of credited service, or upon normal retirement age, as defined in the Plan document. If a participant's employment terminates as a result of death or disability, as defined in the Plan document, his or her account immediately becomes fully vested. In the event of a Plan termination (Note 6), all participants will become fully vested in their accounts.

Payment of Benefits

On termination of service, participants with vested benefits of $5,000 or less will receive a single lump-sum cash payment of benefits, and those with vested benefits exceeding $5,000 have the option of receiving a single lump-sum or partial cash payment of benefits, rollover or deferral until normal retirement age. On termination of employment prior to retirement, other than a result of death or disability, participants forfeit their non-vested balances. Prior to termination, participants may receive a hardship or in-service distribution for part or all of their vested account, under certain circumstances.

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their accounts, in whole percentage increments, to any of the Plan's investment options selected by the Plan Administrator. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. Each participant is allowed one outstanding loan at a time. Notes are secured by the balance in the participants' account and bear interest at a rate selected and deemed reasonable by the Plan Administrator and is fixed for the life of the loan on the date the loan is originated. Principal and interest are payable ratably through payroll deductions or directly by the participant over a period not to exceed five years, unless the loan is for a primary residence.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses paid by the Employer are excluded from these financial statements. Participant transaction fees, including loan set-up fee and distribution fee, are charged directly to the specific participant's account who generated the transaction. Investment fees are recorded in net depreciation in fair value of investments.

Forfeited Accounts

At July 31, 2020 and December 31, 2019, forfeited non-vested accounts totaled $0 and $112,851, respectively. These accounts are to be used to reduce employer contributions or pay plan expenses. In 2020, plan expenses were reduced by $4,252 from forfeited non-vested accounts.

2. Summary of Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on an accrual basis, pursuant to applicable accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities that are inherently exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risk to the international community as the virus spread globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. This pandemic has adversely affected global economic activity and greatly contributed to significant volatility in financial markets.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (Note 3).

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any unpaid accrued interest. Interest income is recorded on the accrual basis. Loan origination and related fees are expensed when they are incurred and are deducted from the Participant's account. If a participant were to cease making payments, and the Plan Administrator deems the participant note to be in default, the note receivable from participant balance would be reduced and a benefit payment recorded. No allowance for credit losses was recorded as of December 31, 2019.

Payment of Benefits

Benefits are recorded when paid. At July 31, 2020, there were no benefits requested that had not been paid.

Subsequent Events

The Plan Administrator has evaluated events subsequent to July 31, 2020, for possible recognition or disclosure in the accompanying financial statements through February 15, 2021, the date the financial statements were available for issuance. As the Plan merged into the Radiology Partners, Inc. 401(k) Plan on July 29, 2020, there were no subsequent events noted that would affect the Plan.

3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market mutual funds: Valued at the daily closing price as reported by the fund. Money market mutual funds invests in high-quality, short-term debt instruments, cash and cash equivalents.

Self-directed brokerage account: The Plan allows participants to invest their account balances in any investment, as permitted by the plan and in accordance with ERISA. The investments held in the account include common stocks, mutual funds and unit trusts. The self-directed brokerage account does not represent a pooled investment vehicle, but is an account comprised of individual investments owned by the Plan.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of December 31, 2019:

4. Certified Investments

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. All of the Plan's assets at December 31, 2019 were held by Charles Schwab Bank, the trustee of the Plan. Accordingly, investments and notes receivable from participants on the Statements of Net Assets Available for Benefits at December 31, 2019, investment income (including net depreciation in fair value of investments), and interest income on notes receivable from participants on the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2020 through July 31, 2020, have been prepared from statements certified as complete and accurate by the trustee.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

5. Related-Party and Party-In-Interest Transactions

The Plan's investments are managed by the Plan's trustee and their affiliates; and therefore, the related transactions qualify under ERISA as exempt party-in-interest transactions. Further, Schwab Retirement Plan Services, Inc. was paid $40,572 during the plan period from January 1, 2020 through July 31, 2020. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.

During 2020, the Employer paid certain expenses totaling $11,500 on behalf of the Plan, which is excluded from accounting recognition in the accompanying financial statements.

6. Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Plan has been merged into another plan, effective January 1, 2020. See Note 1 for additional information.

7. Tax Status

The plan is placing reliance on an opinion letter, dated April 2, 2012, received from the IRS on the prototype plan initially adopted, by the Plan Sponsor, indicating that the Plan was qualified under Section 401 of the Internal Revenue Code (IRC). The Plan was subsequently amended and restated without material changes. A determination from the IRS has not been obtained nor sought on the subsequently adopted prototype plan. However, the Plan Sponsor believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC; and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
