Together these entities are referred to as the (Company). The Plan is considered a single plan as each member of the controlled group is an Adopting Employer and participates with the Sponsor Employer (Ovation Contracting, Inc.). The Plan is a defined contribution plan subject to the provision of the Employee Retirement Security Act of 1974 (ERISA).

Plan Merger

The Company entered into a contractual co-employment agreement with a professional employer organization (PEO) effective January 1, 2020. Through the PEO, the Company adopted the Advanstaff 401(k) Multiple Employer Plan for its employees. The Plan transferred its net assets into the Advanstaff 401(k) Multiple Employer Plan on April 30, 2020 and as a result, the Ovation Retirement Savings Plan ceased operations as of that date.

Eligibility

Employees of the Company were eligible to participate in the Plan after reaching age 21 and following three consecutive months of employment from the employee's hire date. The entry date was the first day of the month coinciding with or following the date the employee became eligible. Part-time, temporary, and seasonal employees whose regularly scheduled service was less than 1,000 hours of service were not eligible to participate.

Contributions

The Plan provided that each participant could contribute up to a maximum of 90% of their annual compensation, as defined by the Plan, representing pre-tax and/or Roth contributions. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

The Company could elect to make discretionary matching contributions to the Plan. There were no discretionary matching contributions for the period beginning January 1, 2020 and ended April 30, 2020.

The Company could also elect to make discretionary profit sharing contributions to the Plan. Participants were eligible for the profit sharing contribution if they were employed on the last day of the Plan year and must have completed a year of service. There were no discretionary profit share contributions for the period beginning January 1, 2020 and ended April 30, 2020.

Contributions were subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

Prior to plan merger, each participant's account was credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings (losses) (including net realized and unrealized investment gains and losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting Policy

Participants were always fully vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary profit sharing contributions were based on years of continuous services listed below. Participants became fully vested upon death, disability or reaching normal retirement age.

<u>Years Of Service</u>	<u>Vesting Percentage</u>
Less than two years	0%
2	20%
3	60%
4	80%
5	100%

Notes Receivable From Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one loan was allowed outstanding to a participant at any one time. Loan terms ranged from 1-5 years or up to 30 years for the purchase of a primary residence. The loans were secured by the balance in the participant's account. Loans bore a reasonable rate of interest determined by the Plan Administrator. Principal and interest was paid ratably through biweekly payroll deductions.

Payment Of Benefits

On termination of service, death, disability or retirement, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount. If a participant terminated employment and the participant's account balance did not exceed \$1,000, the Plan Administrator would authorize the benefit payment without the participant's consent. The Plan allowed in-service distributions if a participant reached age 59-1/2 and hardship distributions subject to Plan provisions.

Investment Options

Upon enrollment in the Plan, a participant could direct employee contributions and employer discretionary matching and profit sharing contributions in the investment alternatives offered by the Plan. All funds in the Plan were participant directed.

Forfeited Accounts

Participants who terminated their employment and were less than 100% vested forfeited the nonvested portion of their account. Participant's forfeitures could be used to pay the Plan's administrative expenses or reduce Company contributions. At April 30, 2020 and December 31, 2019, forfeited nonvested amounts totaled \$0 and \$4,434, respectively.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use Of Estimates In Preparation Of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Nondiscrimination Testing

The Plan failed certain non-discrimination testing for the year ended December 31, 2019. The Plan Sponsor made a corrective contribution to correct the 2019 failure. Other employer contributions receivable totaled \$16,025 at December 31, 2019 for the correction. The Plan made the correction prior to March 15, 2020.

OVATION RETIREMENT SAVINGS PLAN

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. As of April 30, 2020 and December 31, 2019, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment Of Benefits

Benefits are recorded when paid. There were no unprocessed participant distribution requests as of April 30, 2020 or December 31, 2019.

Expenses

The Company pays significant administrative expenses incurred by the Plan. Other expenses of maintaining the Plan are paid by the Plan. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative and transaction expenses.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. The registered investment companies held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common/Collective Trust

Investments in the common/collective trust are valued at the unit value or NAV of shares held by the Plan at year-end. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participants are generally prohibited from transferring their respective balances (in whole or in any part) in the common/collective trust directly into other Plan investment options that are considered to be competing investment options. Instead, Participants must first transfer such balances into a non-competing Plan investment option for 90 days before transferring such balances into a competing Plan investment option. The common/collective trust held by the Plan is not required to be reported in the fair value hierarchy. The common/collective trust held by the Plan files an annual report on Form 5500 as a direct filing entity and has no unfunded capital commitments.

There have been no changes in the valuation methodologies used at April 30, 2020 or December 31, 2019.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	\$ 3,513,393	\$ —	\$ —	\$ 3,513,393
Total Assets In The Fair Value Hierarchy	\$ 3,513,393	\$ —	\$ —	3,513,393
Investments measured at NAV*				<u>575,682</u>
Total Investments At Fair Value				<u><u>\$ 4,089,075</u></u>

* In accordance with subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statement of net assets available for benefits.

There were no assets held by the Plan as of April 30, 2020.

5. Party In Interest Transactions

The Plan provided for investments, investment management, record keeping services, and administration through ADP Retirement Services and trustee services through Reliance Trust Company, parties in interest.

6. Tax Status

The Plan utilizes a volume submitter defined contribution profit sharing plan that received a favorable opinion letter from the IRS dated July 14, 2014, which stated that the volume submitter plan, as then designed, was in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan and the related trust are tax-exempt as of the financial statement date.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

7. Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of net assets available per the financial statements to Schedule H of Form 5500:

	<u>2020</u>	<u>2019</u>
Net assets available for benefits per the financial statements	\$ —	\$ 4,306,119
Other employer contributions receivable	—	(16,025)
	<u>—</u>	<u>(16,025)</u>
Net assets available for benefits per Form 5500	\$ —	\$ 4,290,094

The following is a reconciliation of net decrease in net assets per the financial statements for the period beginning January 1, 2020 and ended April 30, 2020, to Form 5500:

Net decrease before transfer in net assets available for benefits per the financial statements	\$ (533,252)
Other employer contributions receivable	<u>16,025</u>
Net Loss Before Transfer Out Per Form 5500	<u>\$ (517,227)</u>

Employer contributions are recorded on Schedule H of Form 5500 when paid.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes to the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent Events

Management has evaluated subsequent events through the date of the Independent Auditors' Report, the date on which the financial statements were available to be issued.
