CARONDELET FOUNDRY COMPANY RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

June 30, 2020 and 2019

(1) Description of plan

The following description of the Carondelet Foundry Company Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan which was adopted on April 1, 1985, to provide retirement benefits for employees of MetalTek International, Inc., Carondelet Division (the "Plan Sponsor"). The Plan covers full-time employees on the first day of employment and part-time employees who are age eighteen or older and have completed one year of service (participants). Part-time employees are eligible to participate on the first day of the quarter immediately following one year of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may voluntarily make qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code (IRC). Unless otherwise elected, the participant contribution percentage automatically begins at 4% and increases 1% per year to a maximum of 6%. Participants may also elect to make after-tax Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan does not require a minimum contribution from employees as a basis for participation. Participant contributions are permitted up to 45% of compensation subject to certain IRC limitations.

The Plan Sponsor matches an amount equal to 50% of each participant's contributions of up to 6% of eligible compensation.

The Plan also provides that the Plan Sponsor may contribute each year an amount authorized by the Plan Sponsor's Board of Directors; however, an annual contribution by the Plan Sponsor is not required. Plan Sponsor contributions may not exceed the maximum amount deductible for federal income tax purposes. The Plan Sponsor did not make discretionary contributions for the years ended June 30, 2020 or 2019.

(c) Participant accounts

Each participant's account is credited (charged) with the participant's contributions, Plan Sponsor matching contributions, allocations of Plan Sponsor discretionary contributions, investment earnings (losses), and administrative expenses. Allocations are based on participant compensation or account balances as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CARONDELET FOUNDRY COMPANY RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

June 30, 2020 and 2019

Participants direct the investment of their account into various investment options offered by the Plan through its interest in the MetalTek International Master Trust II ("Master Trust"). The Plan currently offers various mutual funds and a collective trust fund as investment options for participants.

(d) Vesting

Participants are immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Vesting in the Plan Sponsor's matching and discretionary contributions are based on years of continuous service. Participants vest 20% in the matching and discretionary contributions after one year of continuous service and an additional 20% each year thereafter.

(e) Participant note receivable

Prior to October 1, 2005, participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. As of June 30, 2019, the remaining outstanding note was secured by the balance in the participant's account and bore interest at a fixed rate of 9.75%, which was commensurate with local prevailing rates as determined by the plan administrator. Interest and principal was collected ratably through payroll deductions.

(f) Payment of benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum payment or annual installments over a specified period equal to his or her entire account. For termination of service due to other reasons, a participant will be entitled to receive only the vested interest in his or her account as either a lump-sum payment or annual installments over a specified period.

During 2020, the Plan implemented certain provisions allowed by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which change the Plan to allow certain eligible individuals to receive coronavirus-related distributions of up to \$100,000, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures are used to pay administrative expenses or to reduce the Plan Sponsor's contributions to the Plan. During 2020 and 2019, \$10,600 and \$11,300, respectively, of forfeitures were utilized to pay Plan fees. Additionally, during 2020, \$59,421 of forfeitures were used to reduce the Plan Sponsor's contributions. There were unutilized forfeitures of \$19,492 and \$51,511 as of June 30, 2020 and 2019, respectively.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's before-tax elective contribution account balance (exclusive of any earnings) or Roth contribution account balance (exclusive of any earnings).

(i) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees incurred by the Plan for the investment advisory and recordkeeping are included in the change in the interest in Master Trust attributable to net investment gain.

(j) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Investment valuation and income recognition

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses.

Notes to the Financial Statements

June 30, 2020 and 2019

The underlying investments in the Master Trust are valued at fair value. Fair value is defined as the price that would be received upon sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

(c) Participant note receivable

The participant note receivable was valued at its unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes, when applicable, were reclassified as distributions based upon the terms of the plan document.

(d) Payment of benefits

Benefits are recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between June 30, 2020, and January 28, 2021, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Certified information

Certain information reported and disclosed in the accompanying financial statements, including the fair value of Interest in the MetalTek International Master Trust II at June 30, 2020 and 2019, and participant note receivable at June 30, 2019, and the Plan's interest in the MetalTek International Master Trust II investment income and interest on participant note receivable for the years ended June 30, 2020 and 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (FMTTC).

(4) Fair value measurements

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at June 30, 2020 and 2019.

- (i) *Mutual funds*: Valued based on the funds' reported closing net asset value (NAV) as of the last business day of the plan year. The mutual funds are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Interest in Master Trust

All of the Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and other benefit plans. Each participating defined contribution plan has a specific interest in the Master Trust. The assets of the Master Trust are held by FMTC. Investment income is credited to each plan according to its specific interest in the investments in the Master Trust. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon its proportionate share in the net assets of the Master Trust.

(6) Income tax status

The Plan obtained a favorable determination letter on November 3, 2015, in which the Internal Revenue Service (IRS) stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Notes to the Financial Statements

June 30, 2020 and 2019

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related party and party-in-interest transactions

Certain plan investments held by the Master Trust are shares of mutual funds and a collective trust fund managed by Fidelity Investments, an affiliate of FMTC and, therefore, these transactions qualify as party-in-interest transactions under ERISA. As described in Note 1, administrative fees were paid by the Plan to various service providers that qualify as parties-in-interest. These fees are included in the Plan's change in the interest in MetalTek International Master Trust II attributable to net investment gain in the statements of changes in net assets available for benefits. Additionally, the Plan held a participant note receivable as of June 30, 2019, which also qualifies as a party-in-interest transaction.

(8) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of June 30, 2020 and 2019:

(9) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
