NOTE A – PLAN DESCRIPTION

The following description of the Retech Systems, LLC 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

GENERAL
The Plan is a defined contribution 401(k) plan sponsored by Retech Systems, LLC (the "Company" and "Employer") with a plan year end of December 31st. The original Plan became effective January 8, 2001 and was most recently restated August 28, 2015. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

ELIGIBILITY
The Plan covers substantially all employees of the Company and employees are immediately eligible to join the Plan. There is no age or service requirement. Covered employees may enter the Plan immediately upon the employment commencement date.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to contribute a percentage of their eligible compensation to the Plan in pre-tax or after-tax Roth contributions from 1% to 50% up to the maximum allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover funds from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in the Key Guaranteed Portfolio Fund until changed by the participant. Contributions are automatically increased by % each year up to a maximum of 8% unless they are changed by the participant.

The Plan provides for a discretionary Company match. For the 2019 Plan year, the Company contributed 50% of the first 8% of compensation that a participant contributed to the Plan. In addition, the Plan allows for a discretionary profit sharing employer contribution each year. Participants must be employed on the last day of the Plan year to receive their non-integrated share of the profit sharing contribution. For 2019 and 2018, the Company elected to make no profit sharing contributions to the Plan. Contributions are subject to Internal Revenue Service ("IRS") limitations. All Company contributions are invested as directed by the participant.

PARTICIPANT ACCOUNTS
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, and (b) Plan earnings or losses and is charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING
Participants are immediately vested in their elective (voluntary) contributions and income or loss thereon. Employer contributions paid on the participants' behalf are vested ratably over a three-year period as shown in the table below.

Years of Service	Vested %
Less than 1	0%
2	50%
3	100%

NOTE A – PLAN DESCRIPTION – CONT.

FORFEITED ACCOUNTS
At December 31, 2019 and 2018, forfeited non-vested accounts totaled $15,525 and $15,909, respectively. Forfeited accounts are first used to reduce future employer contributions and then to pay plan expenses. During 2019, $5,821 in forfeited non-vested accounts were used to reduce employer contributions.

PAYMENT OF BENEFITS
On termination of service, a participant may receive a lump sum amount equal to the value of the vested balance in their account or rollover their vested account balance to another qualified plan. In addition, withdrawals in the case of a financial hardship are allowed under the Plan. Participants that have reached age 59 ½ may take in-service withdrawals.

NOTES RECEIVABLE FROM PARTICIPANTS
The Plan provides that participants can borrow funds of at least $1,000 up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at 1 percent over the current prime interest rate. The term of the loan cannot exceed five years, except if the loan proceeds are used to finance the purchase of a primary residence, in which case the loan term may not exceed fifteen years. Principal and interest is paid ratably through regular payroll deductions. A participant may only have one outstanding loan at a time.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments held by an defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

INVESTMENT VALUATION AND INCOME RECOGNITION
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

USE OF ESTIMATES
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

NOTE B – SUMMARY OF ACCOUNTING POLICIES – CONT.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in notes receivable. Investment related expenses are included in the net appreciation of the fair value of investments.

DATE OF MANAGEMENT REVIEW
Subsequent events were evaluated through December 10, 2020, which is the date the financial statements were available to be issued. Management is not required to and has not evaluated events or transactions that occurred after December 10, 2020.

NOTE C – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY CUSTODIANS

The Plan Administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations and disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the custodians Great-West Life and Annuity Insurance Company and Great-West Trust Company and was not subjected to any auditing procedures performed by the independent public accountants.

a. All investments shown in the accompanying statements of net assets available for benefits.
b. Net investment income from the investments, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation (depreciation) in the fair value of assets.

NOTE D – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE D – FAIR VALUE MEASUREMENTS – CONT.

	If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no transfers between levels in 2019 or 2018.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

> ***Mutual Fund Shares:*** Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 8,695,629	$ -	$ -	$ 8,695,629
Investments at Fair Value	$ 8,695,629	$ -	$ -	$ 8,695,629

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 8,265,132	$ -	$ -	$ 8,265,132
Investments at Fair Value	$ 8,265,132	$ -	$ -	$ 8,265,132

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2015, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Great-West Life and Annuity Insurance Company (Great-West) totaling $1,278,862 for 2019. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The contract cannot be terminated before the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability for the Plan to transact at contract value with the issuer. These events may be different under each contract. Examples of such events include the following:

(1) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code,
(2) Premature termination of the contracts,
(3) Plan termination or a merger,
(4) Changes to the Plan's prohibition on competing investment options,
(5) Bankruptcy of the plan sponsor or other plan sponsor events that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the plan and settle at an amount different from contract value. Such events include:

(1) An uncured violation of the Plan's investment guidelines,
(2) A breach of material obligation under the contract,
(3) A material misrepresentation,
(4) A material amendment to the agreement without the consent of the issuer.

NOTE F – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of mutual funds managed by various fund companies and sponsored by the custodians and units in the Great-West General Account. As Great-West is the custodian for the Plan, these transactions, along with the notes receivable from participants, qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in the net appreciation in the fair value of investments and are paid through revenue sharing, rather than a direct payout.

NOTE F – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS – CONT.

Certain administrative expenses for legal, accounting and other services are rendered by parties in interest and are paid by the Company. The Company provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE G – TAX STATUS

The Internal Revenue Service (IRS) has informed the Company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan's management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts including employer contributions.

NOTE J - DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2019, the Company failed to remit to the Plan's trustee certain employee contributions and loan repayments totaling $232,758 within the period prescribed by the Department of Labor. These contributions and loan repayments have been remitted to the trust as of the financial statement report date. The lost earnings have not yet been calculated or remitted.

NOTE K – SUBSEQUENT EVENTS

During 2020, a novel strain of coronavirus has caused general business disruption throughout North America. It has also created frequent financial market fluctuations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Therefore, while the Plan expects this matter to result in Company layoffs or employee terminations over the next few months, the related overall long-term impact to the Plan and the duration of the impact cannot be reasonably estimated at this time.
