Notes to Financial Statements

May 31, 2020

(See Independent Auditor's Report)

Note A - Description of Plan

The following description of the Grene Vision Group, L.L.C. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the provisions of the Plan.

General

The Plan was a defined contribution plan available to all employees of Grene Vision Group, L.L.C. (the "Company") that met the applicable eligibility requirements. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In 2019, the Company was acquired by EyeCare Partners, LLC. The Plan was frozen effective December 27, 2019. As a result, there were no contributions to the Plan subsequent to this date. In 2020, all of the Plan's assets were transferred out to other qualified plans. See Note I for further discussion related to the transfers of the Plan's assets.

Eligibility

Employees who attained the age of 21 and completed 12 months of service in which at least 1,000 hours of work was completed were eligible to participate in the Plan, excluding employees that were union employees governed by a collective bargaining agreement, certain nonresident aliens, leased employees, employees classified as PRN and employees of a nonparticipating employer.

Contributions

Participant contributions were subject to an annual limit of the lesser of 75% of eligible compensation, as defined in the Plan, or limits established by the Internal Revenue Code. Participants who obtained at least age 50 by the end of the Plan year were eligible to make "catch-up" contributions of up to \$6,000 for the year ended December 31, 2019. As a result of the Plan freeze, no participant contributions were permitted in 2020.

During the year ended December 31, 2019, the Company made safe harbor contributions equal to 3% of a participant's eligible compensation. Participants directed the investment of their contributions, as well as their portion of the Company's contributions, into various investment options offered by the Plan. In 2019, the Company made matching contributions of \$637,848 to participants. The Company could also contribute additional discretionary amounts if it so decided. The Company made discretionary profit-sharing contributions of \$332,142, which were paid in 2019. As a result of the Plan freeze, there were no safe harbor contributions or discretionary profit sharing contributions for the period ended May 31, 2020.

Participant Accounts

A separate account was established for each participant. Each participant's account was credited with the participant's contributions and allocation of the Company's contributions, the Plan's earnings and administrative expenses, if any. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the vested portion of the participant's account.

Note A - Description of Plan (Continued)

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon and the employer's safe harbor contributions were always 100% vested. Vesting in the Company's additional discretionary contribution portion of participants' accounts was based on years of service as follows: less than one year – 0%, one year – 20%; two years – 40%, three years – 60%, four years – 80%, five years – 100%. As a result of the Plan transfer, all participants became 100% vested in the discretionary contribution portion of their accounts.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances during the year ended December 31, 2019. Note terms ranged from 12 to 60 months, unless it was for the purchase of a principal residence in which case the loan period could be up to 180 months. The loans were secured by the balance in the participant's account with interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death or retirement, a participant could elect to receive either a lump-sum distribution of the vested account or annual installment payments. For termination of service due to other reasons, a participant could receive the value of the vested account as a lump-sum distribution.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note D for further discussion of fair value measurements.

Note B - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document. Loan balances were secured by the participant's account. No allowance for credit losses has been recorded at May 31, 2020 and December 31, 2019.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Certain Plan expenses were deducted from the participants' accounts or from investment income. Any remaining Plan expenses were paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through March 3, 2021, the date the financial statements were available to be issued.

Note C - Certified Investment Information

All investment information disclosed in the accompanying financial statements including investments and notes receivable from participants, and net appreciation in fair value of investments, interest income, other income, and interest income on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. John Hancock Life Insurance Company (U.S.A.) certified the above information as of and for the period ended May 31, 2020, and as of and for the year ended December 31, 2019.

Note D - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at May 31, 2020 and December 31, 2019.

Pooled Separate Accounts – Valued at the net asset value ("NAV") of units of an insurance company's pooled separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled separate accounts are measured at fair value using the NAV per share (or its equivalent) as a practical expedient and have not been leveled in the fair value hierarchy.

Note D - Fair Value Measurements (Continued)

Fair Value of Investments in Entities that Use NAV

As a result of the transfers out of the Plan, the Plan held no investments at May 31, 2020. The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019:

Investment	12/31/19 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:				
Target date funds (a)	\$ 947,291	\$ -	Daily	Daily*
Target risk funds (b)	7,820,871	-	Daily	Daily*

Investments, at fair value	<u>\$ 25,038,635</u>	<u>\$ -</u>		

* Should the Plan elect to remove an investment option, there is a redemption notice period of up to 90 days.

The following is a description of the investment strategies for the Plan's investments at December 31, 2019:

- (a) Target date funds: These funds seek high total return through the fund's target retirement date, with a greater focus on income beyond the target date.
- (b) Target risk funds: These funds seek to achieve long-term growth of capital by investing 100% of the portfolio's assets in underlying portfolios that invest primarily in equity securities.
- (c) Specialty funds: These funds seek long-term capital appreciation.
- (d) Sector funds: These funds seek long-term growth of capital.
- (e) Balanced funds: These funds seek long-term growth of capital and income.
- (f) Fixed income funds: These funds seek a superior total rate of return by investing in fixed income instruments.
- (g) Large cap funds: These funds include investments that seek to provide long-term capital growth by investing principally in common stocks of large capitalized U.S. companies and abroad.
- (h) Mid cap funds: These funds include investments that seek long-term capital appreciation by investing primarily in the common stocks of medium sized U.S. companies.
- (i) Small cap funds: These funds include investments that seek long-term capital appreciation by investing primarily in the common stocks of small U.S. companies.

Note D - Fair Value Measurements (Continued)

- (j) International/global large growth funds: These funds include investments that seek to track the performance of a broad-based equity index of foreign countries, including emerging and developing markets.

Note E - Fully Benefit-Responsive Investment Contracts

The guaranteed interest accounts were fully benefit-responsive investments and were reported at contract value in the statements of net assets available for benefits. The statements of changes in net assets available for benefits were also prepared on a contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant-initiated withdrawals at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The fully benefit-responsive investment contracts with John Hancock were general account group annuity contracts. Specific securities within the general account were not attributed to the investment contract with the Plan. The Plan owned a series of guarantees that are embedded in the insurance contracts. The contractual guarantees were backed up by the full faith and credit of John Hancock, the contract issuer. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. John Hancock was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer and includes such factors as the investment-year method experience of the underlying contract or pool, projected levels of cash flows within the current interest rate environment, and the projected maturity of the underlying investments. Such interest rates were reviewed on a semiannual basis for resetting.

The guaranteed interest account contracts do not allow the insurance company to terminate the agreement prior to a breach of the contract terms by the investor. The Plan may terminate the contract on the contract anniversary date with 90 days prior notice.

Note F - Income Tax Status

The Company obtained an opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the John Hancock prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC.

Note F - Income Tax Status (Continued)

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of May 31, 2020, there were no uncertain tax positions taken or expected to be taken that would require recognition with a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to a variety of risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in values on investment securities could have occurred in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note H - Party-in-Interest Transactions

The Company provided certain accounting and administrative services to the Plan for which no fees were charged.

Certain Plan investments were managed by the trustee of the Plan's assets. Therefore, these transactions qualified as party-in-interest.
