THE 401(k) RETIREMENT AND SAVINGS PLAN FOR EMPLOYEES OF FAIRFIELD MANUFACTURING COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS July 17, 2020 and December 31, 2019

NOTE 1 - DESCRIPTION OF PLAN

The following description of The 401(k) Retirement and Savings Plan for Employees of Fairfield Manufacturing Company, Inc. (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective June 29, 1970, as a defined contribution retirement savings plan covering all eligible employees of Fairfield Manufacturing Company, Inc. (the Employer) who completed one hour of service, except for specifically excluded employees as outlined in the Plan Agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors of the Employer was responsible for oversight of the Plan. The Advisory Committee determined the appropriateness of the Plan's investment offerings, monitored investment performance and reported to the Board of Directors.

Plan Merger: The Employer approved the merger of the Plan into and with Dana Retirement Savings Plan and Dana Hourly Bargained Retirement and Savings Plan (collectively, the Dana Plans), both sponsored by Dana Incorporated (Dana), effective July 17, 2020. All of the Plan's assets and liabilities were assumed by the Dana Plans as of July 17, 2020, at which point the Plan and its related trust ceased to exist. All Plan participants were immediately eligible to participate in the respective Dana Plans as of January 1, 2020.

Contributions: Each year, participants could authorize the Employer to contribute to the Plan up to 50% of their pre-tax and 6% of their post-tax eligible annual compensation, subject to the maximum annual amount permitted under the Internal Revenue Code (IRC). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also make rollover contributions from amounts representing distributions from other qualified plans.

The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless an affirmative election not to participate in the Plan was executed. Automatically enrolled participants had their contribution rate set at 5% of eligible compensation and their contributions were invested in a designated fund until changed by the participant.

The Employer made an enhanced safe-harbor matching contribution and could elect to make discretionary profit-sharing contributions to the Plan. No matching contributions were made to the Plan in 2020. In 2019, the Employer made matching contributions equal to 100% of the first 6% of compensation that each participant contributed to the Plan. No Employer profit-sharing contributions were made to the Plan in 2020 or 2019.

Participants directed the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan.

Participant Accounts: Each participant's account was credited with the participant's contributions, Employer matching contributions, as well as allocations of the Employer's profit-sharing contribution and Plan earnings. Participant accounts could also be charged with an allocation of certain administrative expenses of the Plan. Allocations were based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting and Forfeitures: Participants were immediately vested in their contributions and the Employer's contributions plus actual earnings thereon. As a result, there were no forfeitures of account balances.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants: Participants could borrow from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment terms of the notes could not exceed five years except for the purchase of the participant's principal residence, for which the terms could exceed five years per the Plan Agreement. The notes were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest were paid ratably through regular payroll deductions.

Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant could elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account or installment payments. Single life annuity and joint and survivor annuity were also payment options allowed by the Plan. Hardship and in-service withdrawals, as defined in the Plan Agreement, were also permitted from a participant's account.

Plan Termination: Although it had not expressed any intent to do so, the Employer had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Advisory Committee determined the Plan's valuation policies utilizing information provided by the Plan's investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on an accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: The Plan's notes receivables from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. No allowance for credit losses had been recorded as of July 17, 2020 or December 31, 2019. If a participant ceased to make repayments and the Plan Administrator deemed the note receivable from the participant to be in default, the balance of the note receivable from the participant was reduced and a benefit payment was recorded per the Plan Agreement.

Payment of Benefits: Benefits were recorded when paid.

Expenses: Administrative expenses for maintaining the Plan could be paid by the Employer or the Plan, at the Employer's discretion. Certain administration fees were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in the net appreciation (depreciation) in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status: The Plan had adopted a prototype plan document whose sponsor has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the prototype plan document was designed in accordance with the applicable sections of the IRC. Although the Plan and prototype plan document had been amended since receiving the opinion letter, the Plan Administrator believed that the Plan was designed, and was operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believed the Plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2017.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through March 4, 2021, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodologies used by the Plan for assets that are measured at fair value on a recurring basis.

Money Market Fund Shares: Valued at the daily closing price as reported by the fund. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The fund held by the Plan is deemed to be actively traded.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a summary, within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2019. There were no investments measured at fair value as of July 17, 2020.

2019	Level 1	Total
Money market fund shares	<u>\$68,905,163</u>	<u>\$68,905,163</u>
Total Investments at Fair Value	<u>\$68,905,163</u>	<u>\$68,905,163</u>

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED INFORMATION)

All Plan information related to investments and notes receivable from participants held at December 31, 2019 and net appreciation or depreciation in fair value of investments, interest and dividends for the period ended July 17, 2020 and the year ended December 31, 2019, disclosed in the accompanying financial statements was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Bank of America, N.A., the Plan's trustee in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments were managed by an affiliate of Bank of America, N.A., the trustee of the Plan; therefore, transactions in these investments qualify as exempt party-in-interest transactions under ERISA. The Trustee also received indirect fees from investments which were deducted from investment returns. Direct fees paid by the Plan to the Trustee and/or its affiliate totaled \$0 for the period ended July 17, 2020 and \$103,071 in 2019.

The Employer provided certain accounting, administrative, and investment management services to the Plan for which it received no compensation.

Notes receivable from participants were permitted party-in-interest transactions.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan's investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.
