Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Beyer Mechanical, Ltd. (the Company or Plan Sponsor) who have completed one year (at least 1,000 hours) of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan spin-off: Certain assets of the Plan Sponsor were acquired by Beyer Air Conditioning & Heating, Ltd. during Plan year 2019. On November 30, 2018, the trustee of the Plan voted on November 30, 2018, to transfer participant balances totaling \$1,191,403 out of the Plan into the Beyer Air Conditioning & Heating 401(k) Plan effective January 1, 2019. The spin-off of participant balances resulted in a partial plan termination, and all affected participants became 100% vested in their account balances prior to the transfer. Affected participants became eligible to participate in the Beyer Air Conditioning & Heating 401(k) Plan as of the effective date. Applicable participant balances were transferred on January 14, 2019, and April 4, 2019. The Beyer Air Conditioning & Heating 401(k) Plan assumed legal control of these assets as of January 1, 2019.

Plan transfer: The Plan trustee of Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan resolved to transfer participant balances out of the Plan and into a multiple-employer plan, SWBC Professional Employer Services 401(k) Plan, on October 29, 2019. All plan assets were transferred to the SWBC Professional Employer Services 401(k) Plan effective April 1, 2020. The SWBC Professional Employer Services 401(k) Plan assumed legal control of these assets as of April 1, 2020.

Contributions: Participants may elect to contribute up to 100% of eligible compensation, subject to the annual Internal Revenue Service (IRS) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100% vested in their voluntary contributions.

The Company may contribute discretionary matching and profit sharing contributions, as defined in the Plan, at the option of the Company's trustee. There were no discretionary matching or additional profit sharing contributions for the period from January 1, 2020 through April 1, 2020, and the year ended December 31, 2019. Contributions are subject to certain limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments, as made available and determined by the Plan Administrator, in 1% increments. Participants may change their investment options daily.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of investment results and administrative expenses. Allocations are based on participant earnings or account balances, as defined, or based on specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on years of continuous service. However, upon participant's death, disability or attainment of normal retirement age, all amounts are immediately vested. Company discretionary matching and profit sharing contributions have a six-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Payment of benefits: Upon termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under \$1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals and in-service distributions are also available subject to certain limitations.

Forfeitures: Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. During the period from January 1, 2020 through April 1, 2020, and the year ended December 31, 2019, no employer contributions were reduced from the forfeited nonvested accounts. At April 1, 2020, December 31, 2019, and December 31, 2018, unallocated forfeitures totaled \$0, \$1,386, and \$1,386, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies using information provided by the custodian. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Guaranteed interest account: The Plan Administrator has determined that the guaranteed interest account is not fully benefit-responsive. Fair value is the relevant measurement for the portion of the net assets available for benefits attributable to nonfully benefit-responsive investment contracts.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Recent accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures. ASU No. 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan adopted this update for the period ended April 1, 2020, and for the year ended December 31, 2019, and noted there was not a significant impact on the fair value measurement disclosures presented in the financial statements.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock)

The following is a summary of the Plan's asset information as of April 1, 2020, December 31, 2019, and December 31, 2018, and for the period from January 1, 2020 through April 1, 2020, and the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and the supplemental schedule related to the assets listed below:

	April 1		December 31	
	2020		2019	2018
Investments at fair value:				
Pooled separate accounts	\$ -	\$ 1,603,443	\$ 2,515,941	
Guaranteed interest account	-	872	649	

The custodian also certified to the completeness and accuracy of \$295,932 in net depreciation of investments for the period from January 1, 2020 through April 1, 2020. The custodian also certified to the completeness and accuracy of \$354,850 of net appreciation in fair value of investments and \$10 of interest and dividend income from the guaranteed interest account for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at April 1, 2020, December 31, 2019, and December 31, 2018.

Pooled separate accounts and guaranteed interest account: Pooled separate accounts and the guaranteed interest account are valued at the net asset value (NAV) of shares in each account held by the Plan at year-end. The NAV is not a publicly-quoted price in an active market. The NAV, as provided by the insurance carrier, is used as a practical expedient for estimating fair value. The practical expedient is not used when it is determined to be probable that the trusts will sell their investments for amounts different than the reported NAV.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available to benefits.

The following table summarizes investments with NAV as a practical expedient as of April 1, 2020, December 31, 2019, and December 31, 2018:

	Fair Value at			Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	April 1 2020	December 31 2019	December 31 2018			
Pooled separate accounts*	\$ -	\$ 1,603,443	\$ 2,515,941	\$ -	Immediate	None
Guaranteed interest account*	-	872	649	-	Immediate	None

*These funds are filing as direct filing entities (DFEs).

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and the guaranteed interest account managed by John Hancock. John Hancock is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions.

Note 6. Tax Status

Effective January 1, 1997, the Plan adopted a nonstandardized form of a prototype plan sponsored by Dataair Employee Benefit Systems, Inc. The prototype plan provider has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Subsequent Events

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the Plan's various investment securities could incur significant declines in fair value. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.
